

2025 Care Provider Manual

Physician, Care Provider, Facility and Ancillary
New Jersey

Welcome

Welcome to the UnitedHealthcare Community Plan provider manual. This up-to-date reference PDF manual allows you and your staff to find important information such as how to process a claim and submit prior authorization requests. This manual also includes important phone numbers and websites on the How to Contact Us page. Find operational policy changes and other electronic transactions on our website at UHCprovider.com.

Click the following links to access different manuals

- **UnitedHealthcare Administrative Guide** for Commercial and Medicare Advantage member information. Some states may also have Medicare Advantage information in their Community Plan manual.
- A different Community Plan manual: go to UHCprovider.com/guides > **Community Plan Care Provider Manuals for Medicaid Plans by State**

View the **Medicaid glossary** for definitions of terms commonly used throughout the care provider manuals. State specific terms are listed in the glossary of this manual.

If you have questions about the information or material in this manual, or about our policies, please call Provider Services at **1-888-362-3368**.

Important information about the use of this care provider manual

If there is a conflict between your Agreement and this care provider manual, use this manual unless your Agreement states you should use it, instead. If there is a conflict between your Agreement, this manual and applicable federal and state statutes, and regulations and/or state contracts, applicable federal and state statutes, and regulations and/or state contracts will control. UnitedHealthcare Community Plan reserves the right to supplement this manual to help ensure its terms and conditions remain in compliance with relevant federal and state statutes and regulations.

This manual will be amended as policies change.

Terms and definitions as used in this manual:

- “Member” or “customer” refers to a person eligible and enrolled to receive coverage from a payer for covered services as defined or referenced in your Agreement
- “You,” “your” or “care provider” refers to any health care professional subject to this manual, including physicians, clinicians, facilities, and ancillary providers; except when indicated and all items are applicable to all types of health care providers subject to this care provider manual
- “Community Plan” refers to the UnitedHealthcare Medicaid and Dual Special Needs plans
- “Your Agreement,” “Provider Agreement” or “Agreement” refers to your Participation Agreement with us
- “Us,” “we” or “our” refers to UnitedHealthcare Community Plan on behalf of itself and its other affiliates for those products and services subject to this manual
- Any reference to “ID card” includes both a physical or digital card

UnitedHealthcare Community Plan supports the New Jersey state goals of increased access, improved health outcomes and reduced costs by offering Medicaid benefits to the following members:

- Children, from birth through 18 years of age, eligible for Medicaid under expanded pediatric coverage provisions of the Social Security Act
- Pregnant women eligible for Medicaid under expanded maternity coverage provisions of the Social Security Act
- Children eligible for the Children’s Health Insurance Program (CHIP)
- Categorically needy – blind and disabled children and adults who are not eligible for Medicare
- Medicaid Expansion 19–64 years old who are not eligible for another type of Medicaid and who have an income of less than 138% of the federal poverty level (FPL)
- Medicaid-eligible families

The health program offers the following plans:

- NJ FamilyCare
- UHC Dual Complete NJ-Y001 (HMO D-SNP)

NJ FamilyCare (Medicaid)

NJ FamilyCare is a state and federally funded program. It offers free or low-cost health insurance for uninsured children, pregnant women, parents/caretaker relatives and single adults/childless couples who live in New Jersey. The program helps families who do not have or cannot afford employer-funded or private insurance.

Eligibility

NJ FamilyCare members must live in New Jersey. Lawful permanent residents or those in a qualified immigrant status may be eligible if they have been in the country for at least 5 years. Children may be eligible regardless of their date of entry into the United States. Eligibility is based on family size and income only. For income eligibility levels, visit njfamilycare.org > Income Eligibility and Cost.

Cost

For many families, NJ FamilyCare costs nothing. For families with higher incomes, the state uses a sliding scale for small copayments and monthly premiums. For more information, visit njfamilycare.org > Income Eligibility and Cost.

Covered services

NJ FamilyCare / Medicaid

NJ FamilyCare has 4 plans (A, B, C and D). Enrollment in the plan is based on the family's income and household size. If applicable, premiums and copays associated with each plan are shown on the member's UnitedHealthcare Community Plan ID card.

Eligibility groups include:

- NJ FamilyCare A:
 - Uninsured children younger than age 19 with family incomes up to and including 142% of the FPL
 - Pregnant women up to 200% of the FPL
 - Beneficiaries eligible for MLTSS services
 - This group may access certain other services which are paid fee-for-service (FFS) by the state
- NJ FamilyCare B: Uninsured children younger than 19 years with family incomes above 142% and up to and including 150% of the FPL. This group may access certain other services which are FFS and not covered under this contract.
- NJ FamilyCare C:
 - Uninsured children younger than 19 years with family incomes above 150% and up to and including 200% of the FPL
 - Eligibles must take part in cost-sharing in the form of a personal contribution to care for most services. However, Eskimos and Native American Indians younger than 19 years old, identified by Race Code 3, do not take part in cost-sharing and do not have to pay a personal contribution to care.
 - This group also has access to certain other services, which are paid FFS
- NJ FamilyCare D:
 - Uninsured children younger than age 19 with family incomes between 201% and up to and including 350% of the FPL
 - Eligibles with incomes above 150% FPL must pay monthly premiums and/or copayments for most services except for both Eskimos and Native American Indians younger than 19 years. These groups are identified by Program Status Codes (PSCs) or Race Code on the eligibility system.

- NJ FamilyCare Alternative Benefit Plan (ABP):
 - Parents between ages 19–64 with income up to and including 133% FPL
 - Childless adults between 19–64 with income up to and including 133% FPL
 - These members may also access certain other services, which are paid FFS by the state

Applicants are eligible for NJ FamilyCare only if they have been uninsured for 3 months or more. However, there are exceptions to this rule. This includes if they lose their insurance because their place of work went out of business, or they were laid off. Depending on income, other exceptions may apply for families privately paying for health insurance or for Continuation of Health Coverage (COBRA) benefits. Pre-existing conditions do not affect eligibility.

Managed Long Term Services and Supports

Certain NJ FamilyCare members may receive enhanced services provided through the Managed Long Term Services and Supports (MLTSS) program. MLTSS applies to individuals who meet MLTSS eligibility requirements and encompasses the NJ FamilyCare Plan A benefit package, Home and Community Based Services (HCBS) and institutionalization for long-term care in a nursing facility or special care nursing facility. It helps promote quality and cost-effective coordination of care for members with chronic, complex health care, social service and custodial needs.

The MLTSS program includes both nursing facility and HCBS care coordination. Detailed information on the MLTSS program is in Chapter 6: Managed long-term services and supports (MLTSS).

UHC Dual Complete NJ-Y001 (HMO D-SNP)

UHC Dual Complete NJ-Y001 (HMO D-SNP) is a Medicare Highly Integrated Dual-Eligible Special Needs Plan for people with Medicare Parts A and B and full Medicaid eligibility under Title XIX. UHC Dual Complete NJ-Y001 (HMO D-SNP) offers qualified individuals all the benefits of Medicaid and Medicare.

It also includes extra services at no added costs, such as:

- Transportation (24 round trips or 48 one-way routine medical trips) for visits to any health care appointment, including trips to the pharmacy at no additional cost to the member
- Benefit credits to choose from more than 150 health care products from our Personal Health Care Catalog. Credits can be used to order vitamins, bandages, aspirin, blood pressure monitors, digital thermometers, bath safety items and much more at no cost to the member.
- Personal Emergency Response System (PERS) – This emergency response service through an electronic monitoring system is ready any time
- NurseLineSM – Members can speak with a registered nurse (RN) at any time

UHC Dual Complete NJ-Y001 (HMO D-SNP) services members in Atlantic, Bergen, Burlington, Camden, Cumberland, Essex, Gloucester, Hudson, Hunterdon, Mercer, Middlesex, Monmouth, Morris, Ocean, Passaic, Salem, Somerset, Sussex, Union and Warren counties. The New Jersey Department of Human Services (DHS) determines enrollment eligibility.

If you have questions about the information in this manual or about our policies, go to **UHCprovider.com**, or call Provider Services at **1-888-362-3368**.

How to join our network

For instructions on joining the UnitedHealthcare Community Plan provider network, go to **UHCprovider.com/join**. There you will find guidance on our credentialing process, how to sign up for self-service and other helpful information.

Already in network and need to make a change?

To change an address, phone number, add or remove physicians from your TIN, or other changes, go to My Practice Profile on **UHCprovider.com**.

Approach to health care

Care Model

The Care Model program is our comprehensive continuum of care strategy that focuses on care coordination for vulnerable members and those most likely to need help. It seeks to empower UnitedHealthcare Community Plan members enrolled in Medicaid, care providers and our community to improve care coordination and elevate outcomes. Targeting UnitedHealthcare Community Plan members with chronic complex conditions who often use health care, the program helps address their needs holistically. Care Model examines medical, behavioral and social/environmental concerns to help members get the right care from the right care provider in the right place and at the right time.

The program provides interventions to members with complex medical, behavioral, social, pharmacy and specialty needs, with the aim of achieving a better quality of life, improved access to health care and reduced expenses. Care Model provides a care management/coordination team that helps increase member engagement, offers resources to fill gaps in care and develops personalized health goals using evidence-based clinical guidelines. This approach is essential to improving the health and well-being of the individuals, families and communities UnitedHealthcare Community Plan serves. Care Model provides:

- Market-specific care management encompassing medical, behavioral, and social care
- An extended care team including primary care provider (PCP), pharmacist, medical and behavioral director, and peer specialist
- Options that engage members, connecting them to needed resources, care and services
- Individualized and multidisciplinary care plans
- Assistance with appointments with PCP and coordinating appointments. The Clinical Health Advocate (CHA) refers members to an RN, Behavioral Health Advocate (BHA) or other specialists as required for complex needs.

- Education and support with complex conditions
- Tools for helping members engage with providers, such as appointment reminders and help with transportation
- Foundation to build trust and relationships with hard-to-engage members

The Care Model program goals are to:

- Lower avoidable admissions and unnecessary emergency room (ER) visits measured outcomes by inpatient (IP) admission and ER rates
- Improve access to PCP and other needed services, measured by number of PCP visit rates within identified time frames
- Identify and discuss behavioral health (BH) needs, measured by number of BH care provider visits within identified time frames
- Improve access to pharmacy
- Identify and remove social and environmental barriers to care
- Improve health outcomes, measured by improved Healthcare Effectiveness Data and Information Set (HEDIS®) and Centers for Medicare and Medicaid Services (CMS) Star Ratings metrics
- Empower the member to manage their complex/chronic illness or problem and care transitions
- Improve coordination of care through dedicated staff resources and to meet unique needs
- Engage community care and care provider networks to help ensure access to affordable care and the appropriate use of services

To refer a UnitedHealthcare Community Plan member to the Care Model program, call Member Services at **1-800-941-4647**, TTY **711**. You may also call Provider Services at **1-888-362-3368**.

Cultural resources

To help you meet membership needs, UnitedHealthcare has developed a Cultural Competency Program. The goal of the program is to break down linguistic and cultural barriers to build trust and improve health outcomes. You must support the UnitedHealthcare Cultural Competency Program.

For more information, go to UHCprovider.com/resourcelibrary > Health Equity Resources > **Cultural Competency**.

• Cultural competency training and education

Free continuing medical education (CME) and non-CME courses are available on our **Cultural Competency page** as well as other important resources.

Cultural competency information is stored within your provider profile and displayed within the directory. Showcase your cultural competencies by keeping your data current through our **data attestation process**.

UnitedHealthcare Community Plan provides the following:

• Language interpretation line

We provide members with interpreter services 24 hours a day, 7 days a week. More than 240 non-English languages and hearing-impaired services are available. If a UnitedHealthcare Community Plan member needs interpreter services, they can call the phone number on their ID card.

- We provide interpreter services Monday–Friday from 8 a.m.–8 p.m. ET.
- To arrange for interpreter services, please call **1-877-842-3210 TTY 711**.

• I Speak language assistance card

This resource allows individuals to identify their preferred language and provides directions to arrange interpretation services for UnitedHealthcare members.

• Materials for limited English-speaking members

We provide simplified materials for members with limited English proficiency and who speak languages other than English or Spanish. We also provide materials for visually impaired members.

For more information, go to uhc.com > **Language Assistance**.

Language assistance services

For language assistance services, visit **Need language assistance services**. Also see **Language assistance and nondiscrimination notices** for more information.

Evidence-based clinical review criteria and guidelines

UnitedHealthcare Community Plan uses InterQual care guidelines for medical care determinations. We previously used MCG.

Online resources

Going digital means less paper and more automation, faster workflow between applications and a quicker claims submission process to help you get paid faster.

Learn the differences by viewing the [digital solutions comparison guide](#). Care providers in the UnitedHealthcare network will conduct business with us electronically.

This means using electronic means, where allowed by law, to submit claims and receive payment, and to submit and accept other documents. This includes appeals prior authorization requests and decisions. Using electronic transactions is fast and efficient – and supports a paperless work environment. Use application programming interface (API), electronic data interchange (EDI) or the UnitedHealthcare Provider Portal for maximum efficiency in conducting business electronically.

Application Programming Interface

Application programming interface (API) is a free digital solution that allows health care professionals to automate administrative transactions. API is designed to help your organization improve efficiency, reduce costs and increase cash flow. Automatic data feeds are created to share information between your organization and UnitedHealthcare on a timetable you set, and transfer the data to your practice management system, proprietary software, portal, spreadsheets or any application you prefer.

This can help you create a smoother workflow with fewer interruptions. We have API functionality for many of your day-to-day transactions. For more information, visit UHCprovider.com/api.

Electronic data interchange

Electronic data interchange (EDI) is an online resource using your internal practice management or hospital information system to exchange transactions with us through a clearinghouse.

The benefit of using EDI is it permits care providers to send batch transactions for multiple members and multiple payers in lieu of logging into different payer websites to manually request information. This is why EDI is usually care providers' and UnitedHealthcare Community Plan's first choice for electronic transactions.

- Send and receive information faster
- Identify submission errors immediately and avoid processing delays
- Exchange information with multiple payers
- Reduce paper, postal costs and mail time
- Cut administrative expenses
- EDI transactions available to care providers are:
 - Claims (837)
 - Eligibility and benefits (270/271)
 - Claims status (276/277)
 - Referrals and authorizations (278)
 - Hospital admission notifications (278N) and
 - Electronic remittance advice (ERA/835)

Learn how to optimize your use of EDI at UHCprovider.com/EDI.

Getting started

- If you have a practice management or hospital information system, contact your software vendor for instructions on how to use EDI in your system
- Contact clearinghouses to review which electronic transactions can interact with your software system

Point of Care Assist

When made available by UnitedHealthcare Community Plan, you will do business with us electronically.

Point of Care Assist integrates members' UnitedHealthcare health data within the Electronic Medical Record (EMR) to provide real-time insights of their care needs, aligned to their specific member benefits and costs. This makes it easier for you to see potential gaps in care, select labs, estimate care costs and check prior authorization requirements, including benefit eligibility and coverage details. This helps you to better serve your patients and achieve better results for your practice. For more information, go to UHCprovider.com/poca.

UnitedHealthcare Provider Portal

Access patient- and practice-specific information 24/7 within the **UnitedHealthcare Provider Portal**.

You can complete tasks online, get updates on claims, reconsiderations, appeals and payment detail, submit prior authorization requests, check eligibility and update your practice demographic information – all at no cost without calling.

See **UnitedHealthcare Provider Portal** for access and to create ID or sign in using a One Healthcare ID.

- If you already have a One Healthcare ID, simply go to the **UnitedHealthcare Provider Portal** to access
- If you need to set up an account on the portal, follow **these steps** to register

Here are the most frequently used tools on the **UnitedHealthcare Provider Portal**:

The secure website lets you:

- Verify member eligibility, including secondary coverage
- Review benefits and coverage limits
- Check prior authorization status
- Access remittance advice and review recoveries
- Review your preventive health measure report
- Access the Early and Periodic Screening, Diagnostic and Treatment (EPSDT) toolset
- Search for CPT codes. Type the CPT code in the header search box titled “What can we help you find?” on **UHCprovider.com**. The search results will display all documents and/or web pages containing that code.

The following are the most frequently used self-service transactions on the UnitedHealthcare Provider Portal:

- **Eligibility and benefits** – View patient eligibility and benefits information for most plans. For more information, go to **UHCprovider.com/eligibility**.
- **Claims** – Get claims information for many UnitedHealthcare plans, including access letters, remittance advice documents and reimbursement policies. For more information, go to **UHCprovider.com/claims**.
- **Prior authorization and notification** – Submit notification and prior authorization requests. For more information, go to **UHCprovider.com/priorauth**.
- **Specialty pharmacy transactions** – Submit notification and prior authorization requests for certain medical injectable specialty drugs. For more information, go to **UHCprovider.com/pharmacy**.

- **My Practice Profile** – View and update your care provider demographic data that UnitedHealthcare members see for your practice. For more information, go to **UHCprovider.com/mypracticeprofile**.
- **Document Library** – Access claim letters for viewing, printing or downloading. The Document Library Roster provides member contact information in a PDF and can only be pulled at the individual practitioner level. For more information, go to **UHCprovider.com/documentlibrary**.
- **Paperless Delivery Options** – The Paperless Delivery Options tool can send daily or weekly email notifications to alert you to new letters added to your Document Library. With our delivery options, you decide when and where the emails are sent for each type of letter. This is available to UnitedHealthcare Provider Portal One Healthcare ID password owners only.

Watch for the most current information on our self-service resources by email or in the Network Bulletin. You can also go to **UHCprovider.com/edi** or the UnitedHealthcare Provider Portal at **UHCprovider.com** then click Sign In.

For more instructions, visit **UHCprovider.com/training** or **UnitedHealthcare Provider Portal resources** for online self-service training and information.

Go to **UHCprovider.com/portal** to learn more about the portal. You can access self-paced user guides for many of the tools and tasks available in the portal at **UHCprovider.com/training > Digital Solutions**.

Direct Connect

Direct Connect is a free online portal that lets you securely communicate with payers to address errant claims. This portal has the ability to replace previous methods of letters, faxes, phone calls and spreadsheets. It also helps:

- Manage overpayments in a controlled process
- Create a transparent view between care provider and payer
- Avoid duplicate recoupment and returned checks
- Decrease resolution time frames
- Real-time reporting to track statuses of inventories in resolution process
- Provide control over financial resolution methods

All users will access Direct Connect using the **UnitedHealthcare Provider Portal**.

Email **directconnectsupport@optum.com** to get started with Direct Connect.

Privileges

To help our members access appropriate care and minimize out-of-pocket costs, you must have privileges at applicable in-network facilities or arrangements with an in-network provider to admit and provide facility services. This includes full admitting hospital privileges, ambulatory surgery center privileges and/or dialysis center privileges.

Provider Services

Provider Services is the primary contact for care providers who require assistance. It is staffed with representatives trained specifically for UnitedHealthcare Community Plan.

Provider Services can answer your questions about Medicaid benefits, eligibility, claim decision, forms required to report specific services, billing questions and more.

Auto dialer, artificial or pre-recorded voice technology

You consent to UnitedHealthcare and its affiliates calling the phone number(s) you provided using an auto-dialer and/or artificial or prerecorded voice technology.

To opt out of these outreaches, submit the **Telephone Consumer Protection Act (TCPA) Opt Out form**.

The Provider TCPA Opt Out will be processed within 10 business days and registered until such time that the phone number is opted back in for such communications. Should you decide to opt back into receiving such outreaches after opting out, submit the **TCPA Provider Opt In form** and it will be processed within 10 business days and your phone number will be removed from the do not call registry. For additional TCPA Opt Out assistance, please contact Provider Services. Connect with us 24/7 from the UnitedHealthcare Provider Portal.

For chat options and contact information, visit **UHCprovider.com/contactus**.

General care provider responsibilities

By being a network care provider (e.g., physicians, other health professionals, hospitals, facilities and agencies), you agree to:

- Never bill or balance bill UnitedHealthcare Community Plan members for covered services. Billing members for covered services violates your provider Agreement as well as New Jersey law and regulation. Ask for documentation of a patient's insurance coverage and accurately maintain this information in all billing systems.
- Advise members of what services members' plans do and do not cover and how much they cost before providing the services
- Collect copayments as shown on the member's card for NJ FamilyCare Plan C and D members
- Bill primary insurance carriers for rendered services before billing us
- Offer member appointments that aligns with the standards in this chapter
- Maintain medical records based on UnitedHealthcare Medical Records Documentation Standards in this manual
- Maintain all licenses and certifications required to practice and provide services without restrictions. Provide us with copies for verification and recredentialing purposes.
- Transfer medical records upon request. Copies of members' medical records must be provided to them upon request at no charge.
- Provide covered benefits in a manner consistent with professionally recognized standards of health care based on our standards
- Respect our members' rights, including honoring their beliefs, sensitivity to cultural diversity and fostering respect for cultural background
- Notify us of any change in office location, office hours or additional office location at least 30 days before services will be rendered at the new location(s). This change may generate a new provider ID number to be used when billing for a new site.
- Notify us promptly of any changes in the information originally submitted in the application to participate in our network
- Submit to us all data necessary to characterize the content and purpose of each member encounter. This submission of a claim or encounter information is your certification that the data are accurate and complete.
- Never employ or contract with individuals who are excluded from participation in any federal health care program or with entities that employ or contract with such individuals
- Keep information about members confidential

- Help ensure that all individuals and entities the provider hires or contracts with to provide services to UHC Dual Complete NJ-Y001 (HMO D-SNP) members comply with Medicare regulations and requirements
- Perform criminal background checks on all employees or agents who provide direct care to members based on federal and state law
- Give Medicare members the Notice of Discharge and Medicare Appeal Rights (NODMAR) letter when they are discharged from an inpatient hospitalization. Also send a copy of the signed NODMAR to UHC Dual Complete NJ-Y001 (HMO D-SNP).
- Cooperate with and participate in UnitedHealthcare Quality Management and Utilization Management (UM) Programs

You must also comply with:

- Title VI of the Civil Rights Act of 1964, as implemented by regulations at 45 C.F.R. Part 84
- The Age Discrimination Act of 1975, as implemented by regulations at 45 C.F.R. Part 91
- The Rehabilitation Act of 1973
- The Americans with Disabilities Act
- The informed consent procedures for Hysterectomy and Sterilization specified in 42 C.F.R., Par 441, subpart F, and 18 NYCRR Section 505.13
- Other laws applicable to recipients of federal funds
- Standards set forth by the UnitedHealthcare Compliance program
- All other applicable laws and rules
- Critical Incident Reporting requirements

Nondiscrimination

You can't refuse an enrollment/assignment or disenroll a member or discriminate against them based on age, sex, race, disability, national origin, religion, type of illness or condition. You may only direct the member to another care provider type if that illness or condition may be better treated by someone else. You may not discriminate against an enrollee or attempt to disenroll for filing a complaint, grievance or appeal against the health plan.

Communication between care providers and members

The UnitedHealthcare Community Plan Agreement is not intended to interfere with your relationship with members as patients or with UnitedHealthcare Community Plan's ability to administer its quality improvement, UM or credentialing programs. Instead, we require communication between PCPs and other participating care providers. This helps ensure UnitedHealthcare Community Plan members receive both quality and cost-effective health services.

UnitedHealthcare Community Plan members and/or their representative(s) may take part in the planning and implementation of their care. To help ensure members and/or their representative(s) have this chance, UnitedHealthcare Community Plan requires you to:

1. Educate members, and/or their representative(s) about their health needs.
2. Share findings of history and physical exams.
3. Discuss options (without regard to plan coverage), treatment side effects and symptoms management. This includes any self-administered alternative or information that may help them make care decisions.
4. Recognize members (and/or their representatives) have the right to choose the final course of action among treatment options.
5. Collaborate with the plan care manager in developing a specific care plan for members enrolled in high-risk care management.

Provide official notice

Notify us in writing within 10 calendar days if any of the following events happen:

1. Bankruptcy or insolvency.
2. Indictment, arrest, felony conviction or any criminal charge related to your practice or profession.
3. Suspension, exclusion, debarment or other sanction from a state or federally funded health care program.
4. Loss or suspension of your license to practice.
5. Departure from your practice for any reason.
6. Closure of practice.

Visit UHCprovider.com/attestation to view ways to update and verify your provider demographic data.

Transition member care following termination of your participation

If your network participation ends, you must transition your UnitedHealthcare Community Plan members to timely and useful care. Until then, provide covered services to members based on your Agreement:

- Any member receiving inpatient care from you as of the date of termination will continue coverage until they are transferred or discharged
- Where it is medically necessary for the member to continue treatment with you, coverage shall continue for up to 4 months
- Pregnant members may receive medically necessary postpartum care for up to 6 weeks after delivery
- You must provide post-operative care for our members for up to 6 months
- Coverage for oncology treatment shall continue for up to 1 year
- Coverage for psychiatric treatment shall continue for up to 1 year
- In the case of a hospital care provider whose contract is not renewed or terminated by either party, you must adhere to the contract terms for up to 4 months from the contract termination date, or some other mutually agreed upon date. UnitedHealthcare Community Plan members must be able to receive non-emergency services from the hospital during the 4 month period. Emergency services will continue to be available after the 4 month period ends.

We are not required to continue coverage by the care provider if the reason for termination was:

- That the care provider is a danger to members or public health, safety, and welfare
- A determination of fraud
- The care provider is subject to disciplinary action by the State Board of Medical Examiners

Arrange substitute coverage

If you cannot provide care and must find a substitute, arrange for care from other UnitedHealthcare Community Plan care providers and care professionals.

For the most current list of network professionals, review our Provider Directory at UHCprovider.com/findprovider.

Administrative terminations for inactivity

Up-to-date directories are a critical part of providing our members with the information they need to take care of their health. To accurately list care providers who treat UnitedHealthcare Community Plan members, we have the right to and may:

- End agreements with care providers who have not submitted claims for UnitedHealthcare Community Plan members for 1 year and have voluntarily stopped participation in our network
- Inactivate any tax identification numbers (TINs) with no claims submitted for 1 year. This is not a termination of the Provider Agreement. Call UnitedHealthcare Community Plan to reactivate a TIN.

Changing an existing TIN or adding a care provider

Visit UHCprovider.com/attestation to view ways to update and verify your provider demographic data.

Updating your practice or facility information

You can update your practice information through the Provider Data Management application on UHCprovider.com > Sign In > My Practice Profile. Or submit your change by:

- Visiting UHCprovider.com/attestation to view ways to update and verify your provider demographic data
- Calling our general provider assistance line at **1-877-842-3210**
- For MLTSS providers, email your requests to nj_mltss_cred@uhc.com

Participate in quality initiatives

You must help our quality assessment and improvement activities. You must also follow our clinical guidelines, member safety (risk reduction) efforts and data confidentiality procedures.

UnitedHealthcare Community Plan clinical quality initiatives are based on optimal delivery of health care for diseases and conditions. This is determined by United States government agencies and professional specialty societies. See **Chapter 13** for more details on the initiatives.

Provide access to your records

You must provide access to any medical, financial or administrative records related to services you provide to UnitedHealthcare Community Plan members within 14 calendar days of our request. We may request that you respond sooner for cases involving alleged fraud and abuse, a member grievance/appeal or a regulatory or accreditation agency requirement. Maintain these records for 6 years or longer if required by applicable statutes or regulations.

Performance data

You must allow the plan to use care provider performance data.

Comply with protocols

You must comply with UnitedHealthcare Community Plan's and payer's protocols, including those contained in this manual.

You must also use the most current diagnosis and treatment protocols and standards established by the DHSS and the medical community. This means you must follow evidence-based treatment guidelines for treatment and diagnosis where available. Such guidelines are available from professional societies (e.g., American College of Cardiology, American College of Physicians), government funded agencies (e.g., National Institute of Health, U.S. Preventive Services Task Force, National Guideline Clearinghouse).

You may view protocols at **UHCprovider.com** > Resources > Health Plans, Policies, Protocols and Guides > **For Community Plans.**

Background check requirements

You must comply with N.J.S.A. 45:1-30 et seq. This requires a criminal history background check for every person with a license or certificate as a health care professional.

All care providers who provide direct support and/or services to members must have policies and procedures that show compliance with state requirements to have a pre-employment criminal history check and/or background investigation on all staff members. All employees and/or agents of a care provider or subcontractor and all care providers who provide direct care must have a criminal background check as required by federal and state law.

Nursing facilities (NFs) should perform background checks based on CMS survey requirements.

Office hours

You must provide the same office hours of operation to UnitedHealthcare Community Plan members as those offered to commercial members.

Protect confidentiality of member data

UnitedHealthcare Community Plan members have a right to privacy and confidentiality of all health care data. We only give confidential information to business associates and affiliates who need that information to improve our members' health care experience. We require our associates to protect privacy and abide by privacy law. If a member requests specific medical record information, we will refer the member to you. You agree to comply with the requirements of the Health Insurance Portability and Accountability Act of 1996 ("HIPAA") and associated regulations. In addition, you will comply with applicable state laws and regulations.

UnitedHealthcare Community Plan uses member information for treatment, operations and payment. UnitedHealthcare Community Plan has safeguards to stop unintentional disclosure of protected health information (PHI). This includes passwords, screen savers, firewalls and other computer protection. It also includes shredding information with PHI and all confidential conversations. All staff is trained on HIPAA and confidentiality requirements.

Follow medical record standards

See Chapter 12: Medical records for medical record standards.

Advance Directives

Members have the right to make health care decisions for themselves. This includes the right to accept or refuse treatment and to execute an advance directive. An advance directive is a written instruction, such as a living will or a durable power of attorney, for health care recognized under state law and relates to the provision of health care when an individual is incapacitated. Several types of advance directives may be available to a member. You must comply with state law requirements regarding advance directives in your state.

Members are not required to have an advance directive. If a member does have one, document that in their medical record and keep a copy of it in that record. The member (or the member's designee) should keep the original. Do not send us a copy. You cannot condition the provision of care or otherwise discriminate against a member based on whether they have executed an advance directive.

Under the federal Patient Self-Determination Act (PSDA), you must provide written information to members on state laws about advance treatment directives, their rights and your own policies regarding advance directives. To comply with this requirement, we inform members of state laws on advance directives through the NJ FamilyCare Member Handbook found on [UHCCommunityPlan.com/new-jersey](https://www.uhc.com/new-jersey) > NJ FamilyCare > Member handbook - English.

Your Agreement

If you have a concern about your Agreement with us, send a letter with the details to the address in your contract. A representative will look into your complaint. If you disagree with the outcome, you may file for arbitration. If your concern relates to certain UnitedHealthcare Community Plan procedures, such as the credentialing or care management process, follow the dispute procedures in your Agreement. After following those procedures, if one of us remains dissatisfied, you may file for arbitration.

If we have a concern about your Agreement, we'll send you a letter containing the details. If we can't resolve the complaint through informal discussions, you may file an arbitration proceeding as described in your Agreement. Your Agreement describes where arbitration proceedings are held.

If a member asks to appeal a clinical or coverage determination on their behalf, follow the appeal process in the member's benefit contract or handbook. You may locate the Member Handbook at [UHCCommunityPlan.com/new-jersey](https://www.uhc.com/new-jersey).

Also read Chapter 15: Claims, reconsiderations and appeals of this manual for information on care provider claim reconsiderations, appeals, and grievances.

Mutual obligations- UnitedHealthcare and provider professional conduct

Professional conduct

When we conduct business together, you will work with us to ensure that your employees, agents, and any personnel operating in our facilities or yours comply with the following:

- **Collaborate for member outcomes:** Work collaboratively to achieve the best outcomes for members, including coordinating care and sharing necessary information.
- **Respect and professionalism:** At all times, treat other providers, UnitedHealthcare members, and UnitedHealthcare and your employees with respect and professionalism.

- **Prohibit threats and harassment:** Create a safe and respectful environment. Any form of threats, harassment, or intimidation is strictly prohibited, including verbal, physical, and written forms.
- **Prohibit violence:** Prohibit acts of violence against other providers, UnitedHealthcare members, and UnitedHealthcare and your employees.
- **Protect confidential employee information:** Not publicly disclose any confidential personal information about UnitedHealth Group's or your employees, including home address, personal telephone numbers, personal and professional email addresses, medical, or employment-related details, to any third party without express written consent from the other party, unless legally required to do so.
- **Inaccurate statements:** Not make any misleading, inaccurate or untrue statements, whether oral or written, that disparage or intentionally harm the reputation or safety of the other party, its affiliates, or its employees. This includes statements made on social media, in public forums, or any other medium of communication.

If the requirements above are not met, we will collaborate and fully cooperate to address the matters. If you fail to fully cooperate with UnitedHealthcare to address any violation of these requirements, such conduct is a material breach under the Agreement. UnitedHealthcare may:

- Refuse to interact with any individual engaging in such conduct;
- Terminate any professional's participation in UnitedHealthcare's network, without terminating the Agreement between the parties;
- Terminate the Agreement between the parties upon 30 days' prior written notice; and
- Any other remedies available to the parties under the participation agreement or at law.

Any threat, attempted violence, or acts of violence will be reported to the appropriate authorities including, but not limited to, UnitedHealth Group Corporate Security, appropriate provider security, law enforcement, state and federal regulatory bodies.

Education

You must supply a copy of your own code of conduct, which must be consistent with these requirements, or if you do not have a code of conduct, comply with the above and provide the UnitedHealth Group Code of Conduct at [unitedhealthgroup.com](https://www.unitedhealthgroup.com) > Suppliers > **Compliance Program** > Code of Conduct to your employees. You must provide the materials annually to your employees and within 90 days of hire for new employees.

We may request documentation to verify compliance.

New Jersey timeliness standards for appointment scheduling

Comply with the following appointment availability standards:

Primary care

PCPs should arrange appointments for:

- After-hours care – at any time
- Emergency care – immediately upon presentation at a service delivery site or referred to an emergency facility
- Urgent care – within 24 hours of member appointment request. An urgent, symptomatic visit is an encounter with a health care provider associated with the presentation of medical signs that require immediate attention, but are not life-threatening.
- Routine care – within 28 days of member appointment request. A non-urgent, symptomatic office visit is an encounter with a health care provider associated with the presentation of medical signs, but not requiring immediate attention.
- Preventive care – within 28 days of member appointment request. Non-symptomatic office visits shall include but shall not be limited to: well/preventive care appointments such as annual gynecological examinations or pediatric and adult immunization visits.
- Baseline physicals for new adult enrollees – within 180 days of member appointment request
- Baseline physicals for new children enrollees – within 90 days of member appointment request

- Baseline physicals for adult clients of Division of Developmental Disabilities (DDD) – within 90 days of member appointment request
- Routine physicals for school, sports, camp, or work – within 4 weeks of member appointment request

Specialty care

Specialists should arrange appointments for:

- Urgent care (with PCP referral) – within 24 hours of member appointment request
- Non-emergent or routine care visit (with PCP referral) – within 4 weeks of member appointment request. A specialty referral visit is an encounter with a medical specialist that is required by the enrollee's medical condition as determined by the enrollee's Primary Care Provider (PCP). Emergency appointments must be provided within 24 hours of referral.

Behavioral health (mental health and substance use)

Behavioral and MLTSS health providers should arrange appointments for DDD members for:

- Urgent care – within 24 hours of member appointment request
- Routine – within 10 days of member appointment request

Prenatal care

Prenatal care providers should arrange appointments for:

- First trimester – within 3 weeks of member appointment request after a positive pregnancy test (home or laboratory)
- High-risk – within 3 days of member appointment request after identification of high-risk
- Second trimester – within 7 days of member appointment request
- Third trimester – within 3 days of member appointment request
- Postpartum – between 21-56 days after delivery

Dental care

Dental providers should arrange appointments for:

- Emergency dental care – which is the immediate care, treatment and/or referral for emergent dental conditions, and defined previously as serious orofacial conditions which require immediate medical intervention, to avoid placing the health of the individual in jeopardy
- Urgent dental care – which is defined as oral and/or dental conditions which require timely treatment to alleviate pain, address infection risk and avoid additional degradation of the teeth and/or other oral structures – within 24 hours of member appointment request or PCP referral
- Preventive, routine or non-asymptomatic care visit – within 28 days of member appointment request or PCP referral

Within the care provider's service area, dental providers also help ensure members:

- Have access to emergency dental services at any time
- Get access to a backup provider if an on-call provider is unavailable

UnitedHealthcare Community Plan of New Jersey must help members get emergency dental services from a licensed dental provider without the need for prior authorization from the provider while members are outside the service area (including out-of-state services covered by the Medicaid program). Call Member Services at **1-800-941-4647** for assistance in finding a dental provider.

Lab and radiology

Care providers should arrange appointments for:

- Routine appointment – within 3 weeks of member appointment request
- Urgent appointment – within 48 hours of member appointment request

24-hour, 7-days-a-week coverage

PCPs and obstetric specialists must be available to members by phone 24 hours a day, 7 days a week. Or they must have arrangements for phone coverage by another network care provider.

PCPs and obstetric specialists are expected to respond to after-hour patient calls within 30-45 minutes for non-emergent symptomatic conditions and within 15 minutes for crisis situations.

We track and follow up on all instances of unavailability.

The following are examples of acceptable and unacceptable responses as defined by UnitedHealthcare Community Plan of New Jersey, per state requirements.

Acceptable:

- Your phone is answered by care provider, office staff, answering service or voice mail permitting immediate contact
- The answering service you use either:
 - Connects the caller directly to the care provider
 - Contacts the care provider on behalf of the caller and the provider returns the call
 - Provides a phone number where the care provider or covering provider can be reached
- Your answering machine message provides a phone number to contact the care provider responsible for maintaining care provider coverage
- Your answering machine instructs the caller to dial 911 for life-threatening emergencies at the beginning of the call, or to go to the ER if needed

Unacceptable care provider responses include:

- Office/answering service hangs up
- Answering machine message:
 - Instructs the caller to go to the ER for nonemergent situations
 - Instructs the caller to leave a message for the care provider for any urgent situation
 - There is no answer
 - The caller is placed on hold for longer than 5 minutes
 - The phone lines are busy despite multiple attempts to contact the care provider

Unacceptable:

- Office/answering service hangs up
- The care provider's answering machine message:
 - Instructs the caller to go to the ER for nonemergent situations
 - Instructs the caller to leave a message for the care provider for any urgent situation
 - There is no answer
 - The caller is placed on hold for longer than 5 minutes
 - The phone lines are persistently busy despite multiple attempts to contact the care provider

Surveys for appointment scheduling

We periodically survey care providers about these timeliness standards for appointment scheduling. A surveyor calls your practice and asks the front desk personnel appointment availability questions from the view of the member.

We notify care providers by mail, email or phone if they do not meet one or more of the timeliness standards. We then survey them again within 90 days. PCPs are required to participate in all activities related to these surveys.

We also conduct an annual after-hours availability audit. We contact care providers after business hours or on weekends to determine their availability and phone coverage.

Allowable office waiting times

Members with appointments should not wait longer than 45 minutes. The maximum number of intermediate/limited patient encounters should be 4 per hour.

Provider Directory

You are required to tell us, within 5 business days, if there are any changes to your ability to accept new patients. If a member, or potential member, contacts you, and you are no longer accepting new patients, report any inaccuracy. Ask the potential new patient to contact UnitedHealthcare Community Plan for assistance finding a care provider.

We are required to contact all participating care providers annually and independent physicians every 6 months. We require you to confirm your information is accurate or provide us with applicable changes.

If we do not receive a response from you within 30 business days, we have an additional 15 business days to contact you. If these attempts are unsuccessful, we notify you that if you continue to be non-responsive, we will remove you from our care provider directory after 10 business days.

If we receive notification the directory information is inaccurate, you may be subject to corrective action.

In addition to outreach for annual or bi-annual attestations, we are required to reach out if we receive a report of incorrect care provider information. We are required to confirm your information. To help ensure we have your most current provider directory information, visit UHCprovider.com/attestation to view ways to update and verify your provider demographic data.

The medical, dental and mental health care provider directory is located at UHCprovider.com/findprovider.

Use the following table to look up different types of providers.

Provider type	Online directory
Doctors, medical groups, other professionals by specialty, hospitals, clinics, medical suppliers	UHCprovider.com/findprovider > Medical Care Directory > Medicaid Plans > New Jersey > (select plan)
Dental	UHCprovider.com/findprovider > Medical Care Directory > Medicaid Plans > New Jersey > (select plan) > Under Looking for Dental Providers? Click on Dental Provider Directory - NJ FamilyCare / LTC
Mobile dental services	UHCCommunityPlan.com/new-jersey > NJ FamilyCare > Find a Dentist > New Jersey Directory of Mobile Dental Services

Provider type	Online directory
Dentists treating members with intellectual and developmental disabilities	UHCCommunityPlan.com/nj > NJ FamilyCare > Find a Dentist > New Jersey Directory of Dentists Treating Members with Intellectual and Developmental Disabilities There are separate directories for adults and children.
Dentists treating children younger than 6 years	UHCCommunityPlan.com/nj > NJ FamilyCare > Find a Dentist > The NJFC Directory of Dentists Treating Children under the Age of 6

Doula	UHCCommunityPlan.com/nj > NJ FamilyCare > Doula Providers

Provider attestation

Confirm your provider data every quarter through the UnitedHealthcare Provider Portal on UHCprovider.com. If you have received the upgraded My Practice Profile and have editing rights, access the My Practice Profile App to make many of the updates required in this section.

When you submit demographic updates, list only those addresses where a member may make an appointment and see the health care provider. On-call and substitute health care providers who are not regularly available to provide covered services at an office or practice location should not be listed at that address.

Prior authorization request

The prior authorization request process involves getting approval from UnitedHealthcare Community Plan to cover costs. Prior authorization requests may include procedures, services, and/or medication.

Coverage may only be provided if the service or medication is deemed medically necessary, or meets specific requirements provided in the benefit plan. For more information about requirements or submission, visit UHCprovider.com/priorauth.

Take the following steps before providing medical services and/or medication to UnitedHealthcare Community Plan members:

- Verify eligibility at UHCprovider.com/eligibility by calling Provider Services at **1-888-362-3368**. Not doing so may result in claim denial.
- Check the member's ID card each time they visit. Verify against photo identification if this is your office practice. Verify UHC Dual Complete NJ-Y001 (HMO D-SNP) member eligibility using their Medicare number.
- Get prior authorization:
 - To access the Prior Authorization app, go to UHCprovider.com, then Sign In
 - Select the Prior Authorization and Notification app
 - View notification requirements
- Call Provider Services at **1-888-362-3368**

If you have questions, please call UnitedHealthcare Online Help Desk at **1-866-842-3278**, option 3, 8 a.m.–8 p.m. ET, Monday–Friday.

Timeliness standards for notifying members of test results

- Urgent or emergent cases – within 24 hours of receipt of results. Arranging an appointment to discuss the laboratory and/or radiology results is acceptable.
- Rapid strep test – within 24 hours of the test
- Routine results (non-urgent or non-emergent) – within 5 business days of receipt

Requirements for primary care provider and specialists serving in primary care provider role

Specialties include internal medicine, pediatrics or obstetrics/gynecology

The PCP is the point of entry into the delivery system. The exceptions are services allowing self-referral, emergencies and out-of-area urgent care. We expect PCPs to communicate with specialists about referrals, including the reason for the referral. Note this in the member's medical record.

PCPs are an important partner in the delivery of care, and UnitedHealthcare Community Plan members may seek services from any participating care provider. The New Jersey DHS program requires members be assigned to PCPs.

We encourage members to develop a relationship with a PCP who can maintain all their medical records and provide overall medical management. These relationships help coordinate care and provide the member a “medical home.” UnitedHealthcare Community Plan expects specialists to communicate with the PCP by having consultations, reporting significant findings, and offering recommendations for continuing care. A specialist may refer the patient directly to another specialist; however, a separate referral must be generated from the patient's PCP for that specialist.

The PCP plays a vital role as a case manager in the UnitedHealthcare Community Plan system by improving health care delivery in 4 critical areas: access, coordination, continuity and prevention.

As such, the PCP manages initial and basic care to members, makes recommendations for specialty and ancillary care and coordinates all primary care services delivered to our members. The PCP must provide anytime coverage and backup coverage when they are not available.

If a member has a life-threatening or disabling condition that requires prolonged specialized care, we may authorize the member's specialist to also serve as the PCP. In these cases, a medical director must approve a treatment plan created by all parties. We will approve only in-network specialists unless no qualified specialist can be identified in our network.

Medical doctors (MDs), doctors of osteopathy (DOs), nurse practitioners (NPs) and physician assistants (PAs) from any of the following practice areas can be PCPs:

- General practice
- Internal medicine
- Family practice
- Pediatrics
- Specialist physicians

PCPs may employ NPs and PAs to see UnitedHealthcare Community Plan members, subject to their scope of practice limitations under New Jersey State law. The use of NPs and PAs does not relieve the PCP of their obligations for member access and availability.

NPs may enroll with the state as solo providers, but PAs cannot. PAs must be part of a group practice.

Members may change their assigned PCP by contacting **Member Services** at any time during the month. Member Services is available at any time.

Females have direct access (without a referral or authorization) to any OB/GYNs, midwives, PAs, or NPs for women's health care services and any non-women's health care issues discovered and treated in the course of receiving women's health care services. This includes access to ancillary services ordered by women's health care providers (lab, radiology, etc.) in the same way these services would be ordered by a PCP.

UnitedHealthcare Community Plan works with members and care providers to help ensure all members understand, support, and benefit from the primary care case management system.

During non-office hours, access by phone to a live voice (i.e., an answering service, care provider on-call, hospital switchboard, PCP's nurse triage) will immediately page an on-call medical professional so referrals can be made for nonemergency services.

Recorded messages are not acceptable.

Consult with appropriate care providers to develop personalized treatment plans for members with special health care needs.

- Use lists supplied by the UnitedHealthcare Community Plan identifying members who may be due preventive health procedures or testing
- Submit all accurately coded claims or encounters timely
- Provide all EPSDT services to NJ FamilyCare members younger than 21 years
 - Screen all children ages 0 months to 6 years for lead toxicity
 - Screen members for behavioral health problems using the Screening Tool for Substance Use and Mental Health. File the completed screening tool in the member's medical record.
- Coordinate each member's overall course of care
- Identify and reschedule broken and no-show appointments
- Document procedures for monitoring patients' missed appointments as well as outreach attempts to reschedule missed appointments. You must reach out to the member at least 3 times, one of which must be in writing. You may try to reach the member by phone or through New Jersey's MEDM System, the Medical Assistance Customer Center (MACC), DDD, or DYFS/DCF regional offices.
- Triage medical and dental conditions and special behavioral needs for non-compliant individuals with intellectual and developmental disabilities
- Contact members at least 5 days, but not later than 48 hours, before admission or surgery
- Inform our Care Management team by calling Provider Services at **1-888-362-3368** if any member shows signs of end-stage renal disease or who requires a referral to a Medicare-certified hospice
- Refer women ages 35–39 for a baseline mammogram and women 40 and older for an annual mammogram
- Refer men ages 65–75 to prostate cancer screening every 2 years
- Refer members to PCD providers using the Dental link on UHCprovider.com/findprovider > **Dental Directory** > **Medicaid Plans**

- Refer pediatric members to a dentist by age 1 or soon after the eruption of the first tooth
- Admit members to the hospital when necessary and coordinate their medical care
- Help the UnitedHealthcare Community Plan Care Manager assess a member's needs and develop a plan for continuing care beyond discharge, if medically necessary
- Accept UnitedHealthcare Community Plan members at your primary office location at least 20 hours a week for a 1-MD practice and at least 30 hours per week for a 2 or more MD practice
- Be available to members by phone or phone service any time
- Tell members about appropriate use of hospital-based emergency services
- Discuss available treatment options with members
- Document in the member's medical record the reason for a specialist referral and the outcome of the specialist intervention
- Refer to participating specialists for health problems the PCP doesn't manage. The PCP should complete a referral using the referral link.
- Refer services requiring prior authorization to Provider Services, Clinical, or Pharmacy (Optum Rx) departments as appropriate
- Admit members to the hospital when necessary. Coordinate their medical care while they are hospitalized.
- Respect members' advance directives. Document in a prominent place in the medical record whether a member has an advance directive form.
- Provide covered benefits consistently with professionally recognized health care standards and UnitedHealthcare Community Plan's. Document procedures for monitoring members' missed appointments as well as outreach attempts to reschedule missed appointments.
- Transfer medical records upon request. Provide copies of medical records to members upon request at no charge.
- Allow timely access to member medical records per contract requirements. Purposes include record keeping audits, HEDIS or other quality measure reporting and quality of care investigations. Such access does not violate HIPAA. Maintain a clean and structurally sound office that meets applicable Occupational Safety and Health Administration (OSHA) and Americans with Disabilities (ADA) standards. Visit adachecklist.org for more about facility requirements.
- Comply with the New Jersey Timeliness Standards for Appointment Scheduling for emergency, urgent care and routine visits.
- Maintain staff privileges with at least 1 participating hospital.
- Report infectious diseases, lead toxicity and other conditions as required by state and local laws and regulations.

Responsibilities of primary care providers and specialists serving in primary care provider role

Specialties include internal medicine, pediatrics or obstetrics/gynecology

In addition to meeting the requirements for all care providers, PCPs and obstetricians must:

- Offer office visits on a timely basis, based on the standards outlined in the **Timeliness standards for appointment scheduling section** of this chapter.
- Conduct a baseline exam during the member's first appointment. This should occur within 90 days of enrollment for children and DDD clients and within 180 days for adult NJ Family Care members. Schedule this appointment if the member does not treat members' general health care needs. Use nationally recognized clinical practice guidelines (CPGs). See the CPGs at UHCprovider.com/njcommunityplan > Policies and Clinical Guidelines > Clinical Guidelines.

Primary care provider checklist

- Verify eligibility and benefits on the **UnitedHealthcare Provider Portal**, or call Provider Services at **1-888-362-3368**
- Check the member's ID card at the time of service. Verify member with photo identification. Plan participating specialists when needed.
- Get prior authorization from UnitedHealthcare Community Plan, if required. Visit UHCprovider.com/priorauth.
- Refer patients to UnitedHealthcare Community Plan care providers

- Identify and bill other insurance carriers when appropriate
- Bill all services provided to a UnitedHealthcare Community Plan member either electronically or on a CMS 1500 claim form

Rural health clinic, federally qualified health clinic and primary care clinic

Members may choose a care provider who meets the PCP requirements and performs PCP-type services within a rural health clinic (RHC) or federally qualified Health Center (FQHC) as their PCP.

- **Rural Health Clinic (RHC)**

The RHC program helps increase access to primary care services for Medicaid and Medicare members in rural communities. RHCs can be public, nonprofit or for-profit health care facilities. They must be in underserved areas.

- **Federally Qualified Health Center (FQHC)**

An FQHC is a center or clinic that provides primary care and other services. These services include:

- Preventive (wellness) health services from a care provider, PA, NP and/or social worker
- Mental health services
- Immunizations (shots)
- Home nurse visits

- **Primary Care Clinic (PCC)**

A PCC is a medical facility focusing on the initial treatment of medical ailments. In most cases, the conditions seen at the clinic are not serious or life threatening. If a condition is discovered at a PCC that may be dangerous, the PCC may refer the member to a specialist. Doctors at these clinics are usually internists, family physicians and pediatricians.

Specialist responsibilities

In addition to applicable requirements for all care providers, specialists must:

- Contact the PCP to coordinate the care/services
- Provide specialty care medical services to members recommended by their PCP or who self-refer
- Verify the member's eligibility before providing covered specialty care services
- Provide only those covered specialty care services, unless otherwise authorized

- Provide the PCP copies of all medical data, reports and discharge summaries resulting from the specialist's care
- Note all findings and recommendations in the member's medical record. Share this information in writing with the PCP.
- Maintain staff privileges at one participating hospital at a minimum
- Report infectious diseases, lead toxicity and other conditions as required by state and local laws
- Comply with the **New Jersey Timeliness Standards for Appointment Scheduling**
- Provide anytime coverage. PCPs and specialists serving in the PCP role must be available to members by phone at any time. Or they must have arrangements for phone coverage by another participating PCP or obstetrician. We track and follow up on all instances of PCP or obstetrician unavailability. Communicate to the PCP significant findings and recommendations for continuing care. A specialist may refer the member directly to another specialist. Specialists may use medical residents in all specialty care settings under the supervision of fully credentialed UnitedHealthcare Community Plan specialty attending care providers.

Ancillary care provider responsibilities

Ancillary care providers include:

- Freestanding radiology and clinical labs
- Home health
- Hospice
- Dialysis
- Durable medical equipment
- Infusion care
- Therapy
- Ambulatory surgery centers
- Freestanding sleep centers
- Other non-care providers

PCPs and specialists must use the UnitedHealthcare Community Plan ancillary network.

UnitedHealthcare Community Plan participating ancillary providers should maintain sufficient facilities, equipment and personnel to provide timely access to medically necessary covered services.

Ancillary care provider checklist

- Verify eligibility and benefits on the **UnitedHealthcare Provider Portal**, or call Provider Services at **1-888-362-3368**
- Check the member's ID card at the time of service. Verify member with photo identification
- Get prior authorization from UnitedHealthcare Community Plan, if required. Visit **UHCprovider.com/priorauth**.
- Identify and bill other insurance carriers when appropriate

Interacting with capitated/delegated groups

In your market, you may work with entities that have capitated or delegated arrangements with UnitedHealthcare ("capitated organization"). If your patient is assigned to one of these capitated organizations, specific utilization management or claims processing rules may apply.

What is capitation?

Capitation is a payment model in which providers receive a fixed per-member, per-period payment, regardless of services rendered. Common capitated entities include Independent Practice Associations (IPAs), medical groups, and occasionally hospital systems or ancillary providers.

What is delegation?

Delegation is the transfer of authority to perform specific functions on our behalf.

We may delegate:

- Medical management
- Credentialing
- Utilization management
- Claims processing and payment
- Complex case management
- Other clinical and administrative functions

When responsibilities are delegated to a provider, they become a "delegated entity" or "delegate." UnitedHealthcare retains accountability to regulators for all delegated activities.

Delegated entities may contract with other providers, but those agreements must follow UnitedHealthcare's product-specific regulations. To obtain and maintain delegation, providers must comply with our standards and best practices. Non-compliance may result in revocation of delegated responsibilities.

Capitated organizations are often also delegated entities, making them responsible for both delivering care and administering delegated functions, such as processing and paying claims for other providers.

What does it mean for you if you are not a capitated/delegated provider?

You may enter into direct agreements with capitated or delegated organizations. These agreements may differ from your Participation Agreement with UnitedHealthcare and should clearly define applicable protocols and procedures.

Key principles:

- **If you participate with both UnitedHealthcare and a capitated organization, and provide designated covered services to a capitated member:**
The capitated organization is solely responsible for payment, based on your agreement with them.
- **If you participate with UnitedHealthcare but not with the capitated organization, and provide designated covered services to a capitated member:**
The capitated organization remains solely responsible for payment. Reimbursement follows your UnitedHealthcare Participation Agreement.
- **If you participate with both UnitedHealthcare and a capitated organization, and provide services to a non-capitated member:**
UnitedHealthcare (or the financially responsible entity) is solely responsible for payment, per your UnitedHealthcare Participation Agreement.

NJ FamilyCare/Medicaid behavioral health

UnitedHealthcare Community Plan of New Jersey covers a number of behavioral health benefits. Behavioral health includes both mental health services and substance use disorder treatment services. Some services are covered by UnitedHealthcare Community Plan of New Jersey, while some are paid for directly by Medicaid Fee-for-Service (FFS). Please find details in the chart below. When requesting prior authorization, or making arrangements to receive a Behavioral Health service, members and providers should call the Interim Managing Entity (IME), at 1-844-276-2777 and the provider should call UnitedHealthcare for all services covered by UnitedHealthcare.

Please note: Autism services are detailed in the NJ FamilyCare/Medicaid benefits chart.

Managed long term services support- benefit grid	
Assisted living services	Assisted living services - a coordinated array of supportive personal and health services, medication administration, available 24 hours per day, to residents who have been assessed to need these services including persons who require a nursing home level of care. Assisted living services include personal care, and medication oversight and administration throughout the day.
• Assisted Living Program (ALP) (eligible for MFP 25%)	ALP provision of assisted living services to the tenants/residents of certain publicly subsidized housing buildings. ALP provider must be capable of providing or arranging for the provision of assistance with personal care, and of nursing, pharmaceutical, dietary and social work services to meet the individual needs of each resident.
• Assisted Living Residence (ALR)	ALR is a facility which is licensed by the Department of Health to provide apartment-style housing and congregate dining and to ensure that assisted living services are available when needed, for 4 or more adult persons unrelated to the proprietor.
• Comprehensive Personal Care Home (CPCH)	CPCH is a facility which is licensed by the Department of Health to provide room and board and to ensure that assisted living services are available when needed, to 4 or more adults unrelated to the proprietor. Residential units in comprehensive personal care homes house no more than 2 residents and have a lockable door on the unit entrance. Residents in CPCHs have access to facility food and beverages 24/7 and, if equipped, access to their own unit's food preparation area.

Managed long term services support- benefit grid	
Behavioral management - TBI (group and individual) (eligible for MFP 25%)	A daily program provided by, and under the supervision of, a licensed psychologist or board-certified/board-eligible psychiatrist and by trained behavioral aides designed to service recipients who display severe maladaptive or aggressive behavior which is potentially destructive to self or others. The program, provided in the home or out of the home, is time-limited and designed to treat the individual and caregivers, if appropriate, on a short-term basis. Behavioral programming includes a complete assessment of the maladaptive behavior(s); development of a structured behavioral modification plan, implementation of the plan, ongoing training and supervision of caregivers and behavioral aides, and periodic reassessment of the plan. The goal of the program is to return the individual to the prior level of functioning which is safe for him/her and others.
Caregiver/participant training	Instruction provided to a client and/or caregiver in either a one-to-one or group situation to teach a variety of skills necessary for independent living, including but not limited to: coping skills to assist the individual in dealing with disability; coping skills for the caretaker to deal with supporting someone with long term care needs; skills to deal with care providers and attendants. Examples include seminars on supporting someone with dementia, seminars to support someone with mobility difficulties. Training needs must be identified through the comprehensive evaluation, re-evaluation, or in a professional evaluation and must be identified in the approved plan of care as a required service.
Chore services	Services needed to maintain the home in a clean, sanitary and safe environment. The chores are non-continuous, non-routine heavy household maintenance tasks intended to increase the safety of the individual. Chore services include cleaning appliances, cleaning and securing rugs and carpets, washing walls, windows, and scrubbing floors, cleaning attics and basements to remove fire and health hazards, clearing walkways of ice, snow, leaves, trimming overhanging tree branches, replacing fuses, light bulbs, electric plugs, frayed cords, replacing door locks, window catches, replacing faucet washers, installing safety equipment, seasonal changes of screens and storm windows, weather stripping around doors, and caulking windows. (Not available to AL or NF residents)

Managed long term services support- benefit grid	
Cognitive rehabilitation therapy (group and individual) (eligible for MFP 25%)	Therapeutic interventions for maintenance and prevention of deterioration which include direct retraining, use of compensatory strategies, use of cognitive orthotics and prostheses, etc. Activity type and frequency are determined by assessment of the participant, the development of a treatment plan based on recognized deficits, and periodic reassessments. Cognitive rehabilitation therapy can be provided in various settings, including but not limited to the individual's own home and community, outpatient rehabilitation facilities, or residential programs. This service may be provided by professionals with the credentials, training, experience, and supervision noted in provider specifications. MLTSS cognitive rehabilitation therapy services may be considered medically necessary when the following conditions are met: 1. The therapy is for a condition that requires a provider with the unique knowledge and skills in the provision of cognitive rehabilitation therapy as delineated in the provider specifications noted below, and is a part of the beneficiary's skilled treatment plan; and 2. There is an expectation that the therapy will incrementally (minimal unpredictable changes over longer lengths of time) improve and/or prevent the loss of previously achieved/attained progress; and 3. An individual would either not be expected to develop the function or would be expected to permanently lose the function without the MLTSS cognitive rehabilitation therapy service (not merely fluctuate); and 4. The MLTSS cognitive rehabilitation Therapy on-going clinical documentation objectively continues to verify that, at a minimum, functional status is preserved while continued pursuit of incremental progress toward further development; and 5. The services are delivered by a qualified provider of cognitive rehabilitation therapy services who has experience in delivery of therapy services to individuals with TBI.
Community Residential Services (CRS) (eligible for MFP 25%)	A package of services provided to a participant living in the community, residence-owned, rented, or supervised by a CRS provider. The services include personal care, companion services, chore services, transportation, night supervision, and recreational activities. A CRS is a participant's home. The CRS provider is responsible for coordinating the service to ensure the participant's safety and access to services as determined by the participant and care manager. Participants are assigned one of three levels of supervision. These levels are determined by the dependency of the participant. The care manager, in conjunction with CRS staff, evaluate participant, using the "LEVEL OF CARE GUIDELINES FOR CRS" form as a guide.

Managed long term services support- benefit grid	
Community transition services (eligible for MFP 25%)	Services for members to aid in the transitioning from institutional settings to his/her own home in the community through coverage of non-recurring, one-time transitional expenses, limited to \$10,000 per lifetime. This service is provided to support the health, safety and welfare of the participant. Allowable expenses are those necessary to enable a person to establish a basic household that do not constitute room and board and may include: • Security deposits and necessary application fees that are required to obtain a lease on an apartment or home • Essential household furnishings and moving expenses required to occupy and use a community domicile, including furniture, window coverings, food preparation items, and bed/bath linens; if applicable the MCO is to make arrangements to deliver and assist in setting up all essential household items for the member no later than day of discharge. • Set-up fees or deposits for utility or service access, including telephone, electricity, heating and water • Services necessary for the individual's health and safety such as pest eradication and one-time cleaning prior to occupancy • Necessary accessibility adaptations to promote safety and independence • Activities to assess need, arrange for and procure needed resources (Not available to MLTSS members also receiving move-in support through the housing supports program)
Home based supportive care (HBSC) (eligible for MFP 25%)	HBSC services are designed to assist MLTSS participants with their Instrumental Activities of Daily Living (IADL) needs. HBSC are available to individuals whose Activities of Daily Living (ADL) needs are provided by non-paid caregivers such as a family member or as a wrap-around service to non-Medicaid programs such as Veterans Health Care System that are assisting participants with their ADL health related tasks. HBSC services must address IADL deficits identified through the NJ Choice comprehensive assessment process and go beyond "health-related" services.

Managed long term services support- benefit grid	
Home-delivered meals (eligible for MFP 25%)	Nutritionally balanced meals delivered to the participant's home delivered daily or in bulk. These meals do not constitute a full nutritional regimen, but each meal must provide at least 1/3 of the current Dietary Reference Intakes (DRIs) established by the Food & Nutrition Board of the National Academy of Sciences, and National Research Council. Criteria: Home-delivered meals are provided to an individual residing in an unlicensed residence, only when the participant is unable to prepare the meal, unable to leave the home independently, and there is no other caregiver, paid or unpaid, to prepare the meal. No more than 1 meal per day will be provided through the MLTSS benefit. Persons eligible for home delivered meals are those individuals: • Who are home-bound; refer to Article 1 definitions • Are 18 years of age and older • Incapacitated due to accident, illness, or frailty • Unable to prepare meals because of lack of facilities, inability to shop or cook for self, unable to prepare meals safely, or lack knowledge and skills to prepare meals • Lacking support from family, friends, neighbors or other caregivers to help secure meals • Receives PCA services in the home less than 5 hours a day • Individuals attending Adult Medical Day Care are eligible for home-delivered meals if they meet the above criteria when at home Menus for home delivered nutrition programs must be certified and documented as meeting DRI standards by a qualified nutritionist.
Medication dispensing device: Set up (eligible for MFP 25%)	This may include an electronic medication-dispensing device that allows for a set amount of medications to be dispensed as per the dosage instructions. If the medication is not removed from the unit in a timely manner the unit will "lock" that dosage, not allowing the participant access to the missed medication. Before locking, the unit will use a series of verbal and/or auditory reminders that the participant is to take his or her medication. If there is no response, a telephone call will be made to the participant, participant's contact person, and care management site in that order until a "live" person is reached. Installation, upkeep and maintenance of device/systems are provided.
Non-medical transportation (eligible for MFP 25%)	Service offered to enable individuals to gain access to community services, activities and resources specified in the plan of care. This service is offered in addition to medical transportation required under 42 Code of Federal Regulations 431.53 and transportation services under the state plan, defined at 42 Code of Federal Regulations 440.170(a) (if applicable), and shall not replace them. Transportation services shall be offered during options counseling and in accordance with the individual's plan of care. Non-medical transportation is a service that enhances the individual's quality of life. Non-medical transportation shall be used when resources listed in the service limitations are unavailable or are at risk of being over-taxed due to caregiver stress. In circumstances where alternate methods of non-medical transportation are less feasible than contractor coordination, the contractor shall ensure the MLTSS service is utilized.

Managed long term services support- benefit grid	
Nursing facility and special care nursing facility services (custodial)	A facility that is licensed (per N.J.A.C 8:39 and 8:85) to provide health care under medical supervision and continuous nursing care for 24 or more consecutive hours to 2 or more patients who do not require the degree of care and treatment which a hospital provides and who, because of their physical or mental condition, require continuous nursing care and services above the level of room and board. NF/SCNF residents are those individuals who require services which address the medical, nursing, dietary and psychosocial needs that are essential to obtaining and maintaining the highest physical, mental, emotional and functional status of the individual. Care and treatment shall be directed toward development, restoration, maintenance, or the prevention of deterioration. Care shall be delivered in a therapeutic health care environment with the goal of improving or maintaining overall function and health status. The therapeutic environment shall ensure that the individual does not decline (within the confines of the individual's right to refuse treatment) unless the individual's clinical condition demonstrates that deterioration was unavoidable. All Medicaid participating NFs and SCNFs shall provide or arrange for services in accordance with statutory and regulatory requirements under 42 CFR 483 and Department of Health licensing rules at N.J.A.C. 8:39. Reimbursement of NF services is discussed in N.J.A.C. 8:85-3.
Nutrition support services	Nutrition counseling and education: Provides access to tailored advice to improve eating habits and overall nutrition. Experts will evaluate members' current diet, suggest healthier food choices, and help members adopt strategies for lasting nutritional well-being. Additionally, members will be guided on accessing programs like SNAP and WIC for ongoing support. Transitional pantry stocking: For members moving from an institutional setting to a community home, this service offers a limited supply of essential pantry and household items to support a successful transition when members have limited family or community support. Short-term grocery provision in times of urgent need—such as during sudden health challenges: This service provides grocery delivery for up to 30 days, ensuring members have access to nutritious food when they need it most.
Occupational therapy (group and individual) (eligible for MFP 25%)	MLTSS occupational therapy services are intended to incrementally (minimal unpredictable changes over longer lengths of time) develop or improve skills or prevent the loss of previously achieved/attained progress which is at risk of being lost as a result of a traumatic or acquired non-degenerative brain injury (TBI/ABI). MLTSS occupational therapy is also intended to allow a member to acquire new skills that will allow them to function optimally in their current or future least restrictive environment.
Personal Emergency Response System (PERS): Set up (eligible for MFP 25%)	PERS is an electronic device which enables participants at high risk of institutionalization to secure help in an emergency. The individual may also wear a portable "help" button to allow for mobility. The system is connected to the person's phone and is programmed to signal a response center once a "help" button is activated. The response center is staffed by trained professionals. The service consists of 2 components both of which are managed by the PERS contractor; first is the initial installation of the equipment and the second is the monitoring of the service by staff at the response center.

Managed long term services support- benefit grid	
Personal Emergency Response System (PERS): Monitoring (eligible for MFP 25%)	PERS is an electronic device which enables participants at high risk of institutionalization to secure help in an emergency. The individual may also wear a portable “help” button to allow for mobility. The system is connected to the person’s phone and is programmed to signal a response center once a “help” button is activated. The response center is staffed by trained professionals. The service consists of 2 components both of which are managed by the PERS contractor; first is the initial installation of the equipment and the second is the monitoring of the service by staff at the response center. The addition of the fiscal intermediary is the modification to the provider specifications. Previously the provider of the specific service was required to execute a purchase agreement with the case management agency; now that agreement is between the fiscal intermediary and the service provider.
Physical therapy (group and individual) (eligible for MFP 25%)	MLTSS physical therapy services are intended to incrementally (minimal unpredictable changes over longer lengths of time) develop or improve skills, or prevent the loss of previously achieved/attained progress which is at risk of being lost as a result of a traumatic or acquired, non degenerative brain injury (TBI/ABI). MLTSS physical therapy is also intended to allow a member to acquire new skills that will allow them to function optimally in their current or future least restrictive environment.
Private duty nursing (PDN) (eligible for MFP 25%)	PDN shall be a covered service only for those beneficiaries enrolled in MLTSS and the DDD Supports Plus PDN program operated by DDD. When payment for private duty nursing services is being provided or paid for by another source, the benefit of private duty nursing hours shall supplement the other source up to a maximum of 16 hours per day, including services provided or paid for by the other sources, if medically necessary, and if cost of service provided is less than institutional care. The 16 hours per day limitation for PDN services noted above and below shall not apply to children under the age of 21 years who are eligible for Medicaid/NJ FamilyCare EPSDT services.
Residential modifications and remediation (eligible for MFP 25%)	Physical modifications, adaptations, or remediation services to a member’s private, primary residence required by their plan of care, or otherwise approved by the MCO, which are necessary to ensure the health, welfare and safety of the member, or which enable the member to function with greater independence in the home or community.
Respite (daily and hourly) (eligible for MFP 25%)	Services provided to participants unable to care for themselves that are furnished on a short-term basis because of the absence or need for relief of an unpaid, informal caregiver (those persons who normally provide unpaid care) for the participant. In the case where a person is in the personal preference program or is self-directing services, respite may be used to provide relief for the temporary absence of the primary paid care giver. Federal financial participation is not claimed for the cost of room and board except when provided as part of respite care furnished in a facility approved by the state that is not a private residence.

Managed long term services support- benefit grid	
Social Adult Day Care (SADC) (eligible for MFP 25%)	SADC is a community-based group program designed to meet the non-medical needs of adults with functional impairments through an individualized plan of care. SADC is a structured comprehensive program that provides a variety of health, social and related support services in a protective setting during any part of a day but less than 24-hour care. Individuals who participate in SADC attend on a planned basis during specified hours. SADC assists its participants to remain in the community, enabling families and other caregivers to continue caring at home for a family member with impairment.
Speech, language and hearing therapy (group and individual) (eligible for MFP 25%)	MLTSS speech, language and hearing therapy services are intended to incrementally (minimal unpredictable changes over longer lengths of time) develop or improve skills or prevent the loss of previously achieved/attained progress which is at risk of being lost because of a traumatic or acquired, non-degenerative brain injury (TBI/ABI). MLTSS speech, language and hearing therapy is also intended to allow a member to acquire new skills that will allow them to function optimally in their current or future least restrictive environment.
Structured day program (eligible for MFP 25%)	A program of productive supervised activities, directed at the development and maintenance of independent and community living skills. Services will be provided in a setting separate from the home in which the participant lives. Services may include group or individualized life skills training that will prepare the participant for community reintegration, such as attention skills, task completion, problem solving, money management, and safety. This service will include nutritional supervision, health monitoring, and recreation as appropriate to the individualized care plan.
Supported day services (eligible for MFP 25%)	A program of individual activities directed at the development of productive activity patterns, requiring initial and periodic oversight, at least monthly. The supported day service is intended to be a home and community based service, not provided in an outpatient setting or within a community residential service day program, although it may be provided by staff that work in either of these settings. The service supports a person's plan of care in a community setting, like volunteering, shopping, recreation, building social supports, etc.
Vehicle modifications (eligible for MFP 25%)	The service includes needed vehicle modification (such as electronic monitoring systems to enhance beneficiary safety, mechanical lifts to make access possible) to a participant or family vehicle as defined in an approved plan of care. Modifications must be needed to ensure the health, welfare and safety of a participant which enable the individual to function more independently in the home or community. All services shall be provided in accordance with applicable state motor vehicle codes.

Choosing a primary care provider

Every UnitedHealthcare Community Plan of New Jersey member must select a participating PCP. If a new member does not select a PCP, we assign the member to a PCP, based on geographic location.

Member-initiated transfers

We encourage members to select a PCP they intend to remain with for a long time. However, members may change their PCP at any time by calling the Member Services phone number listed on the back of their ID card. Clients of the Division of Youth and Family Services (DYFS) may have a limit on PCP changes.

Member requests for PCP changes will take effect on the first day of the following month. If there is a need for immediate member care, such as authorization, referral, or specialist care, the change will be effective immediately. Please indicate the specific care need when contacting member services. Capitated providers' payments will be prorated and paid retroactively based on the day of the month the change occurred.

UHC Dual Complete NJ-Y001 (HMO D-SNP) member requests for PCP changes are effective within 24 hours. It typically takes 1–2 weeks for the member to receive a new ID card.

We monitor the member transfer rates for each PCP and PCP site by recording the member's reason for the transfer. Our Quality Management Department investigates quality-related transfer requests.

Member assignment

Assignment to UnitedHealthcare Community Plan

New Jersey DHS assigns eligible members to UnitedHealthcare Community Plan daily. We manage the member's care on the date the member is enrolled until the member is disenrolled from UnitedHealthcare Community Plan. New Jersey DHS makes disenrollment decisions, not UnitedHealthcare Community Plan. Disenrollment usually takes effect at month's end, but at times may occur mid-month.

At enrollment time, each member receives a welcome packet that includes a copy of the UnitedHealthcare Community Plan Member Handbook. The handbook explains members' health care rights and responsibilities through UnitedHealthcare Community Plan.

Download a copy of the Member Handbook online by visiting **UHCCommunityPlan.com/nj > NJ FamilyCare > Member Handbook.**

Immediate enrollment changes

Immediate enrollment into managed care means the responsible payer for members, including newborns, may change from FFS to Medicaid Managed Care during hospitalization. To avoid delays in claims processing and payment, have the payer assignment of newborns checked daily.

Get eligibility information by calling Provider Services at **1-888-362-3368.**

Unborn enrollment changes

Encourage members to notify NJ FamilyCare when they know they are expecting. NJ FamilyCare notifies us daily of an unborn when they learn a woman enrolled with us is expecting. The online change report through the New Jersey website indicates the baby's birth. With that information, NJ FamilyCare verifies the birth through the mother. To help speed up the process, the mother should notify NJ FamilyCare when the baby is born.

Members may call NJ FamilyCare at **1-800-701-0710.**

Newborns may get covered health services beginning on their date of birth. Check eligibility daily until the mother has enrolled her baby in a managed care plan.

Primary care provider selection

Although unborn children cannot be enrolled with a health coverage plan until birth, ask your members to select and contact a PCP for their baby prior to delivery. This will help avoid the delays and confusion that can occur with deferred PCP selections.

Members can go to myuhc.com/njcommunityplan > **Find a Provider** to look up a care provider.

Primary care provider panel rosters

Once a member has been assigned to a PCP, panel rosters can be viewed electronically on the UnitedHealthcare Provider Portal at UHCprovider.com:

1. Go to UHCprovider.com.
2. Select “Sign in” on the top right.
3. Log in.
4. Select Clinical & Pharmacy tab.
5. Select UnitedHealthcare Community Care.

The Community Care Roster has member contact information, clinical information to include HEDIS® measures/Gaps in Care, is in an Excel format with customizable field export options and can be pulled at the individual practitioner or TIN level. You may also use Document Library for member contact information in a PDF at the individual practitioner level.

You may also use [Report Center](#) for member contact information in a PDF at the individual practitioner level.

View the [Report Center Interactive User Guide](#) to see the basic steps you’ll take to access letters and secure reports.

We send PCP member rosters to PCPs each month. The roster lists both UnitedHealthcare Community Plan members and UHC Dual Complete NJ-Y001 (HMO D-SNP) members. It includes each member’s name, Member ID number, address, phone number, date of birth, gender, the date of enrollment and a digit rate code associated with the member’s category (e.g., 0142 = AFDC Male 2–20 years, 0711 = SSI Aged with Medicare). In addition, it identifies the member’s line of business as either: C10, which is UnitedHealthcare Medicaid or C20, which is UHC Dual Complete NJ-Y001 (HMO D-SNP).

At the end of the roster is a statistical summary profiling the PCP’s members by line of business.

Deductibles/copayments

Members do not pay a deductible or copayments for covered benefits and services. Do not bill, charge, collect a deposit from, or reimbursement from, or have any recourse against any NJ FamilyCare/Medicaid or UHC Dual Complete NJ-Y001 (HMO D-SNP) member. UnitedHealthcare Community Plan members may not be balance billed for covered services.

Medically necessary service

UnitedHealthcare Community Plan only reimburses for medically necessary services. According to New Jersey, medically necessary services and supplies are necessary to:

- Prevent, evaluate, diagnose, correct, prevent the worsening of, alleviate, ameliorate or cure a physical or mental illness or condition
- Maintain health
- Prevent the onset of an illness, condition, or disability
- Prevent or treat a condition that endangers life or causes suffering or pain or results in illness or infirmity
- Promote the development or maintenance of maximal functioning capacity in performing daily activities, considering both the functional capacity of the individual and those functional capacities that are appropriate for individuals of the same age
- Prevent or treat a condition that threatens to cause or aggravate a handicap or cause physical deformity or malfunction. There is no other equally effective, more conservative, or substantially less costly course of treatment available or suitable for the enrollee.

The services provided, as well as the type of provider and setting, must be reflective of the level of services that can be safely provided. They must be consistent with the diagnosis and appropriate to the member’s specific medical needs. Services may not be delivered solely for the convenience of the enrollee or service provider. They must be based on good medical practice standards and be generally recognized by the medical scientific community as effective.

Treatment may include mere observation or, where appropriate, no treatment at all. Experimental services or services the medical community generally considers unacceptable are not considered medically necessary.

Medically necessary services provided must be based on peer-reviewed publications, expert pediatric, psychiatric and medical opinion, and medical/pediatric community acceptance.

For pediatric members, the services must be appropriate for their age and health status. The services must aid the member's overall physical and mental growth and development and help achieve or maintain functional capacity. They include those found to be needed as a result of a comprehensive screening visit or an interperiodic encounter whether they are ordinarily covered services for all other Medicaid enrollees.

Member eligibility

We serve members enrolled with New Jersey's Medicaid program. The New Jersey DHS determines program eligibility. An individual who becomes eligible for the program either chooses or is assigned to one of the New Jersey DHS-contracted health plans. Verify the UnitedHealthcare Community Plan member's Medicaid eligibility on day of service before treating them. View eligibility online on the Eligibility and Benefits application on the UnitedHealthcare Provider Portal at UHCprovider.com/eligibility.

UHC Dual Complete NJ-Y001 (HMO D-SNP) member eligibility

If a member has Medicare and Medicaid coverage, it doesn't mean they are automatically enrolled in a dual special needs (D-SNP) plan or have that coverage. However, the member may have UHC Dual Complete NJ-Y001 (HMO D-SNP) because they've signed an enrollment form stating that they agree to enroll in the plan. A D-SNP member must enroll in a private health insurance plan that offers integrated coverage for both Medicare and Medicaid. UHC Dual Complete NJ-Y001 (HMO D-SNP) members have their Medicare and Medicaid coverage with UnitedHealthcare Community Plan.

UHC Dual Complete NJ-Y001 (HMO D-SNP) members are issued a single ID card, which means they're:

- Entitled to Medicare Part A and are enrolled in Medicare Part B
- Entitled to full Medicaid
- Enrolled in the UHC Dual Complete NJ-Y001 (HMO D-SNP) plan because they've signed an enrollment form

- Familiar with the benefits of the plan because they reviewed them with a licensed UnitedHealthcare Community Plan representative

You may not need to ask a member with the UHC Dual Complete NJ-Y001 (HMO D-SNP) ID card for their Medicare and/or Medicaid ID card. The UHC Dual Complete NJ-Y001 (HMO D-SNP) ID card already represents that they have both Medicare and Medicaid coverage.

Member ID card

We issue an ID card to each member enrolled in the plan. When more than 1 family member enrolls, we issue a separate ID card to each family member.

Check the member's ID card at each visit and copy both sides for your files. Verify the identity of the person presenting the ID card against some form of photo ID, such as a driver's license, if this is your office practice.

If a fraud, waste and abuse event arises from a care provider or a member because of a member ID card, go to uhc.com/fraud. Or you may call Fraud Waste and Abuse at **1-844-359-7736** or **1-877-401-9430**.

The front of the ID card also shows the member's PCP assignment. If a member does not bring their ID card, call Provider Services at **1-888-362-3368**. Also document the call in the member's chart. You may not deny services because members do not have their member ID card at the time of service.

Member identification numbers

Each member receives a 9-digit UnitedHealthcare Community Plan member ID number. For UHC Dual Complete NJ-Y001 (HMO D-SNP), it is the 9-digit UnitedHealthcare Medicaid ID number. Use this number to communicate with us about a specific subscriber/member. The New Jersey DHS Medicaid Number is also on the member ID card.

Primary care provider or primary care dentist-initiated transfers

A PCP may transfer a member because they cannot start or maintain a professional relationship or if the member is non-compliant. The PCP must provide care for the member until a transfer is complete.

To start a transfer, send a request in writing to our medical director identifying the member and explaining the reason for the request. You can also call Member Services at the number on the back of the member's card. Only make the request after trying and documenting interventions. These include contacting the PCP's office and us to provide the member with education about their rights and responsibilities.

Documentation must also include:

- Member ID/Medicaid ID
- Date of birth
- Member address
- Care provider name
- Care provider NPI
- Care provider address
- Care provider tax ID
- Care provider phone number
- Dates of missed appointments

Email this documentation to uhccpnj@uhc.com with 'Provider-initiated transfer' in the subject line.

A PCP may not request a change because of the member's condition, degree of illness or amount of services required, unless the PCP can justify they cannot deliver quality care to the member. If the medical director approves the transfer, the PCP must continue providing services to the member for 30 days from the date of the letter.

We may contact the member to resolve the issue to help develop a satisfactory PCP-member relationship. If we cannot resolve the issue, we may work with the member to find another PCP. If we can't reach the member by phone, the health plan will notify the member in writing that they have 5 business days to select a new PCP by calling Member Services. If the member does not choose a new PCP within 5 business days, the health plan will choose one for them. A new member ID card will be mailed to the member reflecting the new PCP information. Provider-initiated transfers may also apply to PCDs.

Managing members' disruptive behaviors

For members who exhibit inappropriate, disruptive or threatening behaviors in a care provider's office, behavioral health/substance abuse intervention may be needed. These members may have special needs.

For any member who exhibits inappropriate behavior in a care provider's office, address the immediate need by using de-escalation techniques, as appropriate. If these techniques are not fit for the situation, call 911 or direct the member to their designated county screening center or nearest hospital ER.

Once the appropriate action is addressed, refer the member to Behavioral Health Care Management by calling the Special Needs Hotline toll-free at **1-877-704-8871** or **1-973-849-1663**. Our Care Management team will follow-up with the member to assess their needs and refer them to another care provider as appropriate. It will also continue care coordination as needed to help ensure that they have access to ongoing behavioral health services.

Verifying member enrollment

You must check the member's eligibility at the time of service. This includes eligibility with UnitedHealthcare, assignment to you as a PCP, or (if you are a specialist) assignment to the PCP who referred the member to you. Verify member eligibility prior to providing services. Determine eligibility in the following ways:

- UnitedHealthcare Provider Portal: access the portal through UHCprovider.com/eligibility
- Provider Services is available from 8 a.m.–6 p.m. ET, Monday–Friday
- NJ Hotline: Call 1-800-676-6562. UnitedHealthcare is identified as – 082II. NJ FamilyCare members use the Medicaid ID number (CIN).
- PCP Member Roster: Check your current roster for the appropriate UnitedHealthcare product

For UHC Dual Complete NJ-Y001 (HMO D-SNP) members, use the member's Medicare number to determine eligibility.

UHC Dual Complete NJ-Y001 (HMO D-SNP)

A Dual Eligible Special Needs Plan (D-SNP) is a Medicare Advantage plan for members who qualify for both Medicare and Medicaid. For more information about D-SNP, go to uhc.com/medicaid/dsnp.

For information about UHC Dual Complete NJ-Y001 (HMO D-SNP), please see the Medicare Products chapter of the Administrative Guide for Commercial, Medicare Advantage and D-SNP at UHCprovider.com/guides. For New Jersey-specific information, go to UHCprovider.com/njcommunityplan > **New Jersey UnitedHealthcare UHC Dual Complete NJ-Y001 (HMO D-SNP) Special Needs Plans**.

Members can learn more at UHCCommunityPlan.com/nj > Dual Special Needs Plans > **UHC Dual Complete NJ-Y001 (HMO D-SNP)**.

Medical management improves the quality and outcome of health care delivery. We offer the following services as part of our medical management process.

Hospital services

Ambulance services

Air ambulance

Air ambulance is covered only when the services are medically necessary and transportation by ground ambulance is not available. It is also only covered when:

- Great distances or other obstacles keep members from reaching the destination
- Immediate admission is essential
- The pickup point is inaccessible by land

Non-emergent air ambulance requires prior authorization.

For authorization, go to **UHCprovider.com/priorauth** or call Provider Services at **1-888-362-3368**.

Emergency ambulance transportation

An emergency is a serious, sudden medical or behavioral condition that may include severe pain.

Without immediate attention, the affected person could suffer major:

- Injury to their overall health
- Impairment to bodily functions
- Dysfunction of a bodily organ or part

Emergency transports (in- and out-of-network) are covered. They do not require an authorization.

Bill ambulance transport as a non-emergency transport when it doesn't meet the definition of an emergency transport. This includes all scheduled runs and transports to nursing facilities or the member's residence.

Ambulance services for a member receiving inpatient hospital services are not included in the payment to the hospital. They must be billed by the ambulance provider. This includes transporting the member to another facility for services (e.g., diagnostic testing) and returning them to the first hospital for more inpatient care.

Non-emergent ambulance transportation

UnitedHealthcare Community Plan members may get non-emergent transportation services through ModivCare for covered services. Members may get transportation when they are bed-confined before, during and after transport.

For non-urgent appointments, members must call at least 3 days before their appointment. Members can call Member Services to arrange transportation. They may also make reservations by calling ModivCare at **1-866-527-9933** Monday–Friday from 8 a.m.–4:30 p.m. Representatives can schedule urgent reservations at any time.

Non-emergency medical transportation

Non-emergency medical transportation (NEMT) services are available through ModivCare. Transportation is provided by taxi, van, bus or public transit, depending on a member's medical needs. Wheelchair service is provided if required by medical necessity.

Emergency/urgent care services

An emergency medical condition is a medical condition that manifests by acute symptoms of sufficient severity, including severe pain. A prudent layperson who possesses an average knowledge of health and medicine could reasonably expect in the absence of immediate medical attention to result in:

- Placing the health of the individual afflicted with such condition in serious jeopardy (or, with respect to a pregnant woman, the health of the woman or her unborn child)
- Serious impairment to the individual's bodily functions; or
- Serious dysfunction of any bodily organ or part

Emergency services do not require prior authorization. While UnitedHealthcare Community Plan covers emergency services, we ask that you tell members about appropriate emergency room use. A PCP should treat non-emergency services such as sprains/strains, stomachaches, earaches, fevers, coughs, colds and sore throats.

Covered services include:

- Hospital emergency department room, ancillary and other care service by in and out-of-network care providers
- Medical examination

- Stabilization services
- Access to designated level I and level II trauma centers or hospitals meeting the same levels of care for emergency services
- Emergency ground or air transportation

We pay out-of-network care providers for emergency services at the current program rates at the time of service. We try to negotiate acceptable payment rates with out-of-network care providers for covered post-stabilization care services for which we must pay.

Emergency room care

For an emergency, the member should seek immediate care at the closest ER. If the member needs help getting there, they may call 911. No referral is needed. Members have been told to call their PCP as soon as possible after receiving emergency care. They pay no out-of-pocket cost for ER or emergency ambulance services.

Before they are treated, UnitedHealthcare Community Plan members who visit an ER are screened to determine whether they have a medical emergency. Prior authorization is not required for the medical screening. UnitedHealthcare Community Plan covers these services regardless of the emergency care provider's relationship with UnitedHealthcare Community Plan.

After the member has received emergency care, the hospital must seek approval within 1 hour for pre-approval for more care to make sure the member remains stable. If the hospital needs to appeal the decision or if it does not receive a decision within 1 hour and/or the hospital needs to speak with a peer (medical director), call **1-800-955-7615**.

The treating care provider may continue with care until the health plan's medical care provider is reached, or when one of these guidelines is met:

1. A plan care provider with privileges at the treating hospital takes over the member's care.
2. A plan care provider takes over the member's care by sending them to another place of service.
3. A health plan representative and the treating care provider reach an agreement about the member's care.
4. The member is released.

Depending on the need, the member may be treated in the ER, an inpatient hospital room, or another setting. These are post-stabilization services. Members do not pay for them. This applies whether the member receives emergency services in or outside their service area.

Urgent care (non-emergent)

Urgent care services are covered.

For a list of urgent care centers, contact Provider Services at **1-888-362-3368**.

Emergency care resulting in admissions

Prior authorization is not required for emergency services.

Nurses in the Health Services Department review emergency admissions within 1 business day of notification.

Deliver emergency care without delay. Notify UnitedHealthcare Community Plan about admission within 24 hours, unless otherwise indicated. Use the Prior Authorization and Notification tool at **UHCprovider.com/priorauth**, EDI 278N transaction at **UHCprovider.com/edi**, or call Provider Services at **1-888-362-3368**.

Nurses in Health Services review emergency admissions within 1 working day of notification.

UnitedHealthcare uses InterQual guidelines for determinations of appropriateness of emergency care.

UnitedHealthcare Community Plan makes utilization management (UM) determinations based on appropriateness of care and benefit coverage existence using evidence-based, nationally recognized, or internally developed clinical criteria. UnitedHealthcare Community Plan does not reward you or reviewers for issuing coverage denials and does not financially incentivize UM staff to support service underutilization. Care determination criteria is available upon request by contacting Provider Services (UM Department, etc.)

The criteria are available in writing upon request or by calling Provider Services at **1-888-362-3368**.

For policies and protocols, go to **UHCprovider.com/njcommunityplan** > **Policies and Clinical Guidelines**.

If a member meets an acute inpatient level of stay, admission starts at the time you write the order.

Hospital care (non-emergency): elective admissions and same-day surgery

The PCP or specialist referring a member for an elective admission, or same-day surgery is responsible for contacting us for prior authorization. Please call at least 5 days, but not later than 48 hours, before the admission or surgery.

Once we receive the complete information to review the request, we make a determination. If we approve the request, the authorization is valid only if the patient is a UnitedHealthcare Community Plan member on the date of service. Cases that do not meet InterQual guidelines or are clinically questionable are referred to a medical director or physician advisor who renders a medical necessity determination.

Home care and all prior authorization services

The discharge planner ordering home care should call Provider Services at **1-888-362-3368** to arrange for home care.

Cardiology

We use the prior authorization process to help support compliance with evidence-based and professional society guidance for cardiology procedures.

You must obtain prior authorization for the following cardiology procedures:

- Diagnostic catheterizations
- Electrophysiology implant procedures
- Stress echocardiograms

Cardiology procedures do not require prior authorization if performed in the following places of service:

- Emergency rooms
- Hospital observation units
- Urgent care centers
- Inpatient settings

If you do not complete the entire prior authorization process before performing the procedure, we will reduce or deny the claim.

Do not bill the member for claims we deny for this reason.

Request prior authorization online or by phone:

- Online: [UHCprovider.com/cardiology](https://uhcprovider.com/cardiology) > Sign In
- Phone: **1-866-889-8054** from 7 a.m.–7 p.m. local time, Monday–Friday

Make sure the medical record is available.

For the most current listing of CPT codes that require prior authorization, a prior authorization crosswalk, and/or the evidence-based clinical guidelines, go to [UHCprovider.com/cardiology](https://uhcprovider.com/cardiology) > Sign In > Specific Cardiology Programs.

Care coordination/health education

Our care coordination program is led by our qualified, full-time care coordinators. Please work with us to help ensure members' care is coordinated. This program is a proactive approach to help members manage specific conditions and support them as they take responsibility for their health.

The program goals are to:

- Provide members with information to manage their condition and live a healthy lifestyle
- Improve members' quality of care, quality of life and health outcomes
- Help individuals understand and actively participate in the management of their condition, adherence to treatment plans, including medications and self-monitoring
- Reduce unnecessary hospital admissions and ER visits
- Prevent disease progression and illnesses related to poorly managed disease processes
- Support member empowerment and informed decision making
- Manage their condition and co-morbidities, including depression, cognitive deficits, physical limitations, health behaviors and psychosocial issues

Our program makes available population-based, condition-specific health education materials, websites, mobile apps and newsletters that include recommended routine appointment frequency, necessary testing, monitoring and self-care.

We send health education materials, based upon evidence-based guidelines or standards of care, directly to members that address topics that help members manage their condition. Our program provides personalized support to members in case management. The case manager collaborates with the member to identify educational opportunities, provides the appropriate health education, and monitors the member's progress toward management of the condition targeted by the care coordination program. Programs are based upon the findings from our Health Education, Cultural and Linguistic Group Needs Assessment (GNA) and will identify the health education, cultural and linguistic needs.

Durable medical equipment

Durable medical equipment (DME) is equipment that provides therapeutic benefits to a member because of certain medical conditions and/or illnesses. DME consists of items which are:

- Primarily used to serve a medical purpose
- Not useful to a person in the absence of illness, disability, or injury
- Ordered or prescribed by a care provider
- Reusable
- Repeatedly used
- Appropriate for home use
- Determined to be medically necessary

See our Coverage Determination Guidelines at [UHCprovider.com/njcommunityplan](https://uhcprovider.com/njcommunityplan) > Policies and Clinical Guidelines > UnitedHealthcare Community Plan Medical and Drug Policies and Coverage Determination Guidelines > **View Current Policies.**

Facility admission notification requirements

Facilities are responsible for admission notification for the following inpatient admissions (even if an advance notification was provided prior to the actual admission date):

- Planned/elective admissions for acute care
- Unplanned admissions for acute care
- Skilled nursing facility (SNF) admissions

- Admissions following outpatient surgery
- Admissions following observation

Hearing services

Routine hearing exams, diagnostic hearing exams and balance exams, otologic and hearing aid examinations prior to prescribing hearing aids, exams for the purpose of fitting hearing aids, follow-up exams and adjustments, and repairs after warranty expiration are covered. Hearing aids, as well as associated accessories and supplies, are also covered.

Hospice

UnitedHealthcare Community Plan provides in-home hospice and short-stay inpatient hospice. These services require prior authorization.

Home hospice

UnitedHealthcare Community Plan covers benefits for routine home care every day the member is at home, under hospice and not receiving continuous home care. We cover care provider hospice at the member's home during a medical crisis. A medical crisis is when a member requires continuous nursing care to manage symptoms.

Respite hospice

Inpatient hospital or nursing facility respite care is covered for the hospice care provider each day the member is in an inpatient facility and receiving respite care. Hospice inpatient respite care is short-term inpatient care provided to the member when necessary to relieve the caregiver. Hospice inpatient respite care is restricted to 5 days per month. This includes the day of admission but not the day of discharge.

Inpatient hospice

Inpatient care is covered during a sudden medical crisis. General inpatient care may be necessary for pain control or acute/chronic symptom management not provided in any other setting. Inpatient hospice care includes a hospital or an in-network hospice inpatient facility that meets the hospice standards for staffing and member care.

Inpatient care is short-term and restricted to 10 days per month.

Members receiving inpatient hospice services through a residential facility are not covered under Managed Medicaid. DHS covers residential inpatient hospice services. DHS will cover hospice care provider benefits for both the hospice services provided and the facility residential services.

Laboratory

The Preferred Lab Network webpage provides a full listing of eligible labs.

Use a network laboratory when referring members for lab services not covered in the office. Medically necessary laboratory services ordered by a PCP, other care providers or dentist in one of these laboratories do not require prior authorization except as noted on our prior authorization list.

For more information on our in-network labs, go to UHCprovider.com/findprovider > Preferred Lab Network.

When submitting claims, have a Clinical Laboratory Improvement Amendment number (CLIA #). Otherwise, claims will deny. CLIA standards are national and not Medicaid-exclusive. CLIA applies to all providers rendering clinical laboratory and certain other diagnostic services.

See the **Billing and submission** chapter for more information.

Oncology

To help ensure our member benefit coverage is medically appropriate, we regularly evaluate our medical policies, clinical programs and health benefits based on the latest scientific evidence, published clinical guidelines and specialty society guidance.

Prior authorization for chemotherapy and related cancer therapies

We require notification/prior authorization for injectable outpatient chemotherapy and related cancer therapies administered in an outpatient setting, including intravenous, intravesical and intrathecal for a cancer diagnosis.

Request prior authorization online or by phone:

- Online using UHCprovider.com > Prior Authorization > Prior Authorization and Notification. Once in the tool, select Radiology, Cardiology, Oncology and Radiation Oncology Transactions > Service Type of Oncology > Product Type of Medicaid > [member state].
- Phone: **1-866-889-8054** from 7 a.m.–7 p.m. local time, Monday–Friday

For a list of chemotherapy drugs requiring prior authorization, please refer to UHCprovider.com > **Prior Authorization > Oncology: See Requirements > Oral and Injectable Chemotherapy and Related Cancer Therapies.**

Physicians can submit clinical information during the authorization process for members with medical contraindications to an NCCN-recommended regimen and upload relevant documentation for the request during the submission process. Reviews are performed by medical oncologists.

Prior authorization for radiation therapy services

We require notification/prior authorization for radiation therapy treatments. For a list of radiation therapy treatments requiring prior authorization, please refer to UHCprovider.com.

Request prior authorization online or by phone:

- Online using UHCprovider.com/radiology > Sign In
- Phone: **1-866-889-8054** from 7 a.m.–7 p.m. local time, Monday–Friday

Physicians can submit clinical information during the authorization process for members with medical contraindications and upload relevant documentation for the request during the submission process. Reviews are performed by radiation oncologists.

Preventive health care

We work with you to help ensure members receive preventive care. Preventive health care standards and guidelines are available at UHCprovider.com > Resources > Health Plans, Policies, Protocols and Guides > For Community Plans > **Clinical Guidelines** > Preventive Services - Clinical Guideline. We monitor the provision of these services through chart reviews and analysis of encounter data.

Clinical practice guidelines for chronic conditions

UnitedHealthcare Community Plan supports evidence-based medicine and have identified sources that have received national recognition both from the government and the health care community. Visit UHCprovider.com/njcommunityplan > **Policies and Clinical Guidelines** > Clinical Guidelines > **View Clinical Practice Guidelines.**

Radiology

We use the prior authorization process to help support compliance with evidence-based and professional society guidance for radiology procedures. You must obtain prior authorization for the following advanced imaging procedures if you provide them in an office or outpatient setting.

- Computerized tomography (CT)
- Magnetic resonance imaging (MRI)
- Magnetic resonance angiography (MRA)
- Positron-emission tomography (PET)
- Nuclear cardiology

Request prior authorization online or by phone at:

- Online: UHCprovider.com/radiology > Sign In
- Phone: **1-866-889-8054** from 7 a.m.–7 p.m. local time, Monday–Friday.

Make sure the medical record is available. An authorization number is required for each CPT code.

For a list of CPT codes that require prior authorization, a prior authorization crosswalk, and/or the evidence-based clinical guidelines, use **UHCprovider.com**. Or use the search option at **UHCprovider.com/radiology** > Sign In > Specific Cardiology Programs.

Screening, brief interventions, and referral to treatment services

Screening, brief interventions, and referral to treatment (SBIRT) services are covered when:

- Provided by, or under the supervision of, a certified care provider or other certified licensed healthcare professional within the scope of their practice
- Determining risk factors related to alcohol and other drug use disorders, providing interventions to enhance patient motivation to change, and making appropriate referrals as needed
- SBIRT screening will occur during an Evaluation and Management (E/M) exam and is not billable with a separate code. You may provide a brief intervention on the same day as a full screen in addition to the E/M exam. You may also perform a brief intervention on subsequent days. Brief interventions are limited to 4 sessions per patient, per provider per calendar year.

What is included in screening, brief interventions, and referral to treatment?

Screening: With just a few questions on a questionnaire or in an interview, you can identify members who have alcohol or other drug (substance) use problems and determine how severe those problems already are. Three of the most widely used screening tools are the Alcohol Use Disorders Identification Test (AUDIT), the Alcohol, Smoking, and Substance Involvement Screening Test (ASSIST) and the Drug Abuse Screening Test (DAST).

Brief intervention: If screening results indicate at risk behavior, individuals receive brief interventions. The intervention educates them about their substance use, alerts them to possible consequences and motivates them to change their behavior.

Referral to treatment: Refer members whose screening indicates a severe problem or dependence to a licensed and certified behavioral health agency for assessment and treatment of a substance use disorder. This includes coordinating with the Alcohol and Drug Program in the county where the member resides for treatment.

SBIRT services are covered when all the following are met:

- The billing and servicing providers are SBIRT certified
- The billing provider has an appropriate taxonomy to bill for SBIRT
- The diagnosis code is Z71.41
- The treatment or brief intervention does not exceed the limit of 4 encounters per client, per provider, per year

The SBIRT assessment, intervention, or treatment takes place in one of the following places of service:

- Office
- Urgent care facility
- Outpatient hospital
- ER – hospital
- FQHC
- Community mental health center
- Indian health service-freestanding facility
- Tribal 638 freestanding facility
- Homeless shelter

For more information about E/M services and outreach, see the Department of Health and Human Services, **Evaluation & Management Visits** section on **cms.gov**.

Medication-assisted treatment

Medication-assisted treatment (MAT) combines behavioral therapy and medications to treat opioid use disorders (OUD). The FDA-approved medications for OUD include buprenorphine, methadone, and naltrexone.

As a medical care provider, you may provide MAT services even if you don't offer counseling or behavioral health therapy. However, you must refer your patients to a qualified care provider for those services.

If you need help finding a behavioral health provider, call the number on the back of the member’s health plan ID card. Or search UHCprovider.com/findprovider.

To find a medical MAT provider in New Jersey:

- 1. Visit UHCprovider.com/findprovider.
- 2. Click on “Medical Care Directory.”
- 3. Click on “Medicaid plans.”
- 4. Select “New Jersey.”
- 5. Click on the applicable plan name.
- 6. In the search field, type “Medication Assisted Treatment” and click “Search.”

If you have questions about MAT, please call Provider Services at **1-888-362-3368**.

Pharmacy

NJ FamilyCare members receive outpatient prescription drugs through us, with the following exceptions:

- Methadone used for substance use maintenance: cost and administration
- Generically equivalent drug products of the above

All UnitedHealthcare members must use their UnitedHealthcare member ID card to obtain covered prescription drugs at a network pharmacy. Find a network pharmacy at UHCprovider.com/findprovider > **Medical Care Directory** > **Medicaid Plans** > **New Jersey** > (choose plan) > Under Looking for a Pharmacy? choose **Pharmacy Directory - NJ Family Care / Long Term Care (LTC)**. Coverage for outpatient prescription drugs varies by UnitedHealthcare Community Plan of New Jersey product:

Product	Outpatient benefit
NJ FamilyCare A	Medicaid covers prescription and OTC drugs
NJ FamilyCare B	No cap or copay
NJ FamilyCare C	Medicaid covers prescription and OTC drugs
	Copay: \$1 generic, \$5 brand name
NJ FamilyCare D	Prescriptions covered. No cap.
	Copay: \$5 generic and brand; \$10 if more than a 34-day supply
	Most OTC drugs excluded

Product	Outpatient benefit
UHC Dual Complete NJ-Y001 (HMO D-SNP)	Prescriptions covered by Medicare Parts B and D and Medicaid-only drug coverage. No copay.

Generic drugs

Generic drugs are provided when available as required by state mandatory generic substitution regulations. Generic drugs are FDA-approved equivalents to their brand-name counterparts. If a generic drug is available, a brand-name drug will not be provided to the member. However, a physician can provide information that documents why a brand-name drug is medically necessary through a prior authorization.

No generic substitutions will be made for mental health/substance use prescriptions written by psychiatrists or mental health/substance use providers.

To submit a request for prior authorization for brand name drugs, call Pharmacy Prior Authorization at **1-800-310-6826**.

Pharmacy preferred drug list

UnitedHealthcare Community Plan determines and maintains its preferred drug list (PDL) of covered medications. This list applies to all UnitedHealthcare Community Plan of New Jersey members. Specialty drugs on the PDL are identified by a “SP” in the “Requirements and Limits” section of each page.

You must prescribe Medicaid members drugs listed on the PDL. We may not cover brand-name drugs not on the PDL if an equally effective generic drug is available and is less costly unless prior authorization is followed.

If a member requires a non-preferred medication, call the Pharmacy Prior Authorization department at **1-800-310-6826** or use the Prior Authorization and Notification tool on the UnitedHealthcare Provider Portal at UHCprovider.com.

For Pharmacy Prior Authorization, visit UHCprovider.com/njcommunityplan > **Pharmacy Resources and Physician Administered Drugs** > Pharmacy Prior Authorization.

We provide you with PDL updates before the changes go into effect. Find these updates on [UHCprovider.com/njcommunityplan](https://uhcprovider.com/njcommunityplan) > **Pharmacy Resources and Physician Administered Drugs** > Prescription Drug and Vendor List, Drug Search, Updates. Locate the PDL and Pharmacy Prior Notification Request form at Pharmacy Resources and Physician Administered Drugs.

Find the UHC Dual Complete NJ-Y001 (HMO D-SNP) formulary or PDL on [UHCprovider.com/njcommunityplan](https://uhcprovider.com/njcommunityplan) > Pharmacy Resources and Physician Administered Drugs > Prescription Drug and Vendor List, Drug Search, Updates > **Pharmacy Formulary** under UnitedHealthcare Dual Complete Medicare Advantage.

Excluded drugs

We do not cover drugs used for:

- Weight loss or appetite suppression
- Cosmetic purposes
- Infertility
- Hair growth or prevent hair loss
- Investigations and experiments drugs, unless a medical director gives prior authorization
- DESI

Members may continue taking a medication that has been removed from the PDL for as long as they are a member with approval from the prescribing care provider. Members new to therapy must use a PDL medication unless otherwise authorized.

Supply limit for opioids

We implemented a 90 morphine equivalent doses (MED) supply limit for the long-acting opioid class. We updated prior authorization criteria to match the CDC's recommendations for the treatment of chronic non-cancer pain. Prior authorization applies to all long-acting opioids. The CDC guidelines on long-acting opioids are available online at [cdc.gov](https://www.cdc.gov) > Injury, Violence, & Safety > Drug Overdose > Opioids > Information for Clinicians and Healthcare Professionals > Opioid Prescribing Resources. For more information, visit liveandworkwell.com.

For short-acting opioids, we implemented a supply limit of 7 days and less than 50 MED per day for patients new to opioid therapy.

For patients age 19 or younger, there is a supply limit of 3 days. Requests for opioids beyond these limits require prior authorization. For more information, call Provider Services at **1-888-362-3368**.

Pharmacy lock-in

Pharmacy lock-ins minimize drug abuse. Pharmacy lock-ins identify and manage members who meet criteria indicative of potential prescription medication misuse or abuse, and specific therapeutic categories with the potential for high abuse, (e.g., narcotic analgesics, narcotic containing cough and cold preparations, sedative hypnotics, central nervous system stimulants, muscle relaxants, controlled substances). When lock-in is determined appropriate, a member is placed into a lock-in where they can only receive prescriptions from a single pharmacy for at least 1 year.

Pharmacy prior authorization

Medications can be dispensed as an emergency 72-hour supply when drug therapy must start before prior authorization is secured and the prescriber cannot be reached. The rules apply to non-PDL drugs and to those affected by a clinical prior authorization edit.

To request pharmacy prior authorization, call Pharmacy Prior Authorization at **1-800-310-6826**. We provide notification for prior authorization requests within 24 hours of request receipt.

Submit the following with your request:

- Member's name and UnitedHealthcare ID number
- PCP's name and UnitedHealthcare provider ID number
- Attending provider's name and UnitedHealthcare provider ID number
- Facility name
- Expected date of admission or service
- Diagnosis(es) or reason for treatment
- Planned procedures, services, or medications
- Other insurance information for Coordination of benefits (COB)

For a list of Pharmacy Prior Authorization Forms, visit [UHCprovider.com/njcommunityplan](https://uhcprovider.com/njcommunityplan) > **Pharmacy Resources and Physician Administered Drugs**.

Specialty pharmacy medications

The Specialty Pharmacy Management Program provides high-quality, cost-effective care for our members. A specialty pharmacy medication is a high-cost drug that generally has one or more of the following characteristics:

- Used by a small number of people
- Treats rare, chronic, and/or potentially life threatening diseases
- Has special storage or handling requirements such as needing to be refrigerated
- May need close monitoring, ongoing clinical support and management, and complete patient education and engagement
- May not be available at retail pharmacies
- May be oral, injectable or inhaled

Specialty medications are available through our specialty pharmacy network. For more information about specialty pharmacy medications, go to UHCprovider.com/priorauth > **Clinical and specialty pharmacy**.

Tuberculosis screening and treatment; direct observation therapy

Guidelines for tuberculosis (TB) screening and treatment; direct observation therapy (DOT) should follow the recommendations of the American Thoracic Society (ATS) and the Centers for Disease Control and Prevention (CDC).

Responsibilities

The PCP determines the risk for developing TB as part of the initial health assessment. Testing is offered to all members at increased risk unless they have documentation of prior positive test results or currently have active TB under treatment. You will coordinate and collaborate with local health departments (LHDs) for TB screening, diagnosis, treatment, compliance, and follow-up of members. PCPs must comply with all applicable state laws and regulations relating to the reporting of confirmed and suspected TB cases to the LHD. The PCP must report known or suspected cases of TB to the LHD TB Control Program within 1 day of identification.

Vision

Vision services are covered by MARCH Vision Care. Please refer to their website at marchvisioncare.com for information such as compliance, electronic payment information, safety resources and training or call **1-844-686-2724**.

Medical management guidelines

Admission authorization and prior authorization guidelines

All prior authorizations must have the following:

- Patient name and ID number
- Ordering health care professional name and TIN/ NPI
- Rendering health care professional and TIN/NPI
- ICD clinical modification (CM)
- Anticipated date(s) of service
- Type of service (primary and secondary) procedure code(s) and volume of service, when applicable
- Service setting
- Facility name and TIN/NPI, when applicable

For behavioral health and substance use disorder authorizations, contact Provider Services at **1-888-362-3368**.

If you have questions, go to your state's prior authorization page: **UHCprovider.com/njcommunityplan** > **Prior Authorization and Notification**.

Prior authorization turnaround times

The following table shows the standard determination response time(s):

Type of request	Decision turnaround time (TAT)	Practitioner notification of approval	Written practitioner/ member notification of denial
Non-urgent pre-service	Within 14 calendar days from the receipt of the request.	Notification of decision (notice of determination) within 14 calendar days.	Standard notice of action (denial letter) sent within 14 calendar days (contract/NCQA) from receipt of the service request (notification date/ time).
Urgent/expedited pre-service	Within 24 hours of receipt of the necessary information, but no later than 72 hours after receipt.	Within 72 hours of receipt.	Within 72 hours of receipt.
Concurrent review	Within 24 hours or next business day following.	Notified within 24 hours of determination.	Notified within 24 hours of determination and member notification within 2 business days.
Retrospective review	Within 30 calendar days of receiving all pertinent clinical information.	Within 24 hours of determination.	Within 24 hours of determination and member notification within 2 business days.

Concurrent review guidelines

UnitedHealthcare Community Plan requires you to chart progress notes for each day of an inpatient stay. This includes acute and sub-acute medical, long-term acute care, acute rehabilitation, skilled nursing facilities, home health care and ambulatory facilities. We perform a record review or phone review for each day’s stay using InterQual, CMS or other nationally recognized guidelines to help clinicians make informed decisions in many health care settings.

You must work with UnitedHealthcare Community Plan for all information, documents or discussion requests. This includes gathering clinical information on a member’s status for concurrent review and discharge planning. When criteria are not met, the case is sent to a medical director.

UnitedHealthcare Community Plan denies payment for days that do not have a documented need for acute care services. Failure to document results in payment denial to the facility and you.

Concurrent review details

Concurrent Review is notification within 24 hours or 1 business day of admission. It finds medical necessity clinical information for a continued inpatient stay, including review for extending a previously approved admission. Concurrent review may be done by phone or record review.

Your cooperation is required with all UnitedHealthcare Community Plan requests for information, documents or discussions related to concurrent review and discharge planning including primary and secondary diagnosis, clinical information, care plan, admission order, member status, discharge planning needs, barriers to discharge and discharge date.

When available, provide clinical information by access to Electronic Medical Records (EMR).

Your cooperation is required with all UnitedHealthcare Community Plan requests from our interdisciplinary care coordination team and/or medical director to support requirements to engage our members directly face-to-face or by phone. You must return/respond to inquiries from our interdisciplinary care coordination team and/or medical director.

UnitedHealthcare Community Plan uses InterQual, CMS or other nationally recognized guidelines to assist clinicians in making informed decisions in many health care settings. This includes acute and sub-acute medical, long-term acute care, acute rehabilitation, SNFs, home health care and ambulatory facilities.

Determination of medical necessity

Medically necessary services or supplies are those necessary to:

- Prevent, diagnose, alleviate or cure a physical or mental illness or condition
- Maintain health
- Prevent the onset of an illness, condition or disability
- Prevent or treat a condition that endangers life, causes suffering or pain or results in illness or infirmity
- Prevent the deterioration of a condition
- Promote daily activities; remember the member's functional capacity and capabilities appropriate for individuals of the same age
- Prevent or treat a condition that threatens to cause or worsen a handicap, physical deformity, or malfunction; there is no other equally effective, more conservative or substantially less costly treatment available to the member

We don't consider experimental treatments medically necessary.

Determination process

Benefit coverage for health services is determined by the member's specific benefit plan document, such as a Certificate of Coverage, Schedule of Benefits, or Summary Plan Description, and applicable laws. You may freely communicate with members about their treatment, regardless of benefit coverage limitations.

Clinical practice guidelines for chronic conditions

Because we support evidence-based medicine, we have identified sources that have received national recognition both from the government and the health care community. Please review our resulting clinical practice guidelines (CPGs) at: UHCprovider.com/njcommunityplan > **Current Policies and Clinical Guidelines** > Clinical Guidelines > View Clinical Practice Guidelines. They can serve as a resource to guide your clinical decision-making.

For information on diabetes clinical guidelines, visit UHCprovider.com/njcommunityplan > **Policies and Clinical Guidelines** > View Clinical Guidelines.

Medical and drug policies

Find medical policies and drug policies at UHCprovider.com > Resources > Health Plans, Policies, Protocols and Guides > For Community Plans > **Medical and Drug Policies for Community Plan**.

Referral guidelines

You must coordinate member referrals for medically necessary services beyond the scope of your practice. Monitor the referred member's progress and help ensure they are returned to your care as soon as appropriate. Include in your referrals the frequency and duration of each service request. We typically approve 2 visits for initial referrals and 3 visits for further referrals. For chronic dialysis, referrals are valid for 6 months.

- Referrals to non-participating specialists require prior authorization. The PCP must request the authorization.
- For chronic dialysis, referrals will be valid for 6 months. Referrals are not required for out-of-area dialysis for ESRD.
- Referrals should indicate all services requested, including frequency and duration of each service. In addition to clearly noting that the patient is a UnitedHealthcare Community Plan member, include the following and record the referral in the member's medical record:
 - Member name, address, date of birth
 - PCP name, UnitedHealthcare Provider ID number, and phone number

- Specialist/ancillary provider name, UnitedHealthcare Provider ID number, address, and phone number

Referrals and standing referrals must be submitted through one of the following methods before the specialist visit. Retroactive referrals are not accepted. Online referrals are highly recommended for quicker confirmations.

Online: Referrals are entered electronically through UHCprovider.com by signing in to your One Healthcare ID account and choosing the Referrals tab. Choose Payer ID 86047 from the dropdown menu. Electronic submissions may also be accepted through the Authorization and Referral Request (278) transaction.

Fax: Send fax referrals to 1-844-881-1937. Use the referral form found on UHCprovider.com/njcommunityplan > Provider Forms and References > Provider Forms > **Specialist Referral Form**.

Mail: Send a completed referral form available at UHCprovider.com/njcommunityplan > Provider Forms and References > Provider Forms > **Specialist Referral Form** to:

UnitedHealthcare Community Plan of New Jersey

Attn: Referrals

P.O. Box 31365

Salt Lake City, UT 84131-1362

The online electronic referral submission process is strongly recommended. Providers must register by visiting UHCprovider.com > Sign In > Referrals. There is also a print option for online electronic referral submissions within the Referrals page after signing in to UHCprovider.com. The print icon is located at the top of the screen after clicking on Referrals. Mailed and faxed referrals are accommodated.

The referral will be based on the specialist's Tax ID, regardless of the displayed location. We recommend that PCPs should contact the specialist directly to confirm the specialist's address and Tax ID.

The submitting provider would need to include the member information, the specialist information, diagnosis code and the visit/date information. Physician practices or facilities can search for participating physicians, facilities, or other health care professionals in the UnitedHealthcare Community Plan network by looking up the most up-to-date list of contracted providers and facilities which can be found at UHCprovider.com/findprovider > Medical Care Directory > Medicaid Plans > New Jersey > (choose plan).

Enter a street address, city, and state, or 5-digit ZIP code of the member's desired location for a specialist. Type in a provider name, service or condition and click Search. Or, under Find Health Care by Category, choose from People, Places, Services and Treatments or Care by Condition to find a list of contracted specialist providers.

Each referral is valid for 1–6 visits over a maximum of 6 months. If the PCP does not indicate number of visits, the referral is valid for 1 visit only for a maximum of 6 months from the date it is signed or electronically filed.

Standing referrals

A standing referral can be submitted by the PCP for certain medical diagnoses. The standing referral allows members to visit a specialist for up to 6 months for up to 99 visits. The standing referral process is valid for diagnoses such as:

- Myasthenia gravis
- Allergies
- Parkinson's disease
- Amyotrophic lateral sclerosis
- Cancer
- Epileptic seizures
- Cystic fibrosis
- Anemia
- Renal failure
- Seizures
- Multiple sclerosis
- Thrombotic thrombocytopenic purpura
- Cerebral palsy

Referral submission requirement

UnitedHealthcare Community Plan of New Jersey has a referral process in place for members who need specialty care. This requires primary care providers (PCPs) to generate a referral for members to see network specialists. The term referrals also applies to standing referrals. PCPs should use this referral process for specialist visits for all in-network providers and UnitedHealthcare Community Plan NJ FamilyCare/Medicaid members, including members who receive managed long-term services and supports (MLTSS). As of 2023, the referral requirement does not apply to UHC Dual Complete NJ-Y001 (HMO D-SNP) members.

The goal of this referral process is to increase the PCP's engagement with their patients and help foster collaborative relationships between PCPs and specialists. Facilitating this enhanced engagement and collaboration is also a response to feedback from PCPs asking for support related to network care coordination. Care coordination can increase the overall quality of care for our members through appropriate resource stewardship, and we anticipate improved Healthcare Effectiveness and Data Information Set (HEDIS®) and Consumer Assessment of Healthcare Providers and Systems (CAHPS®) scores over the long term.

Additionally, care coordination is a key tenet, and often a requirement, for value-based care programs like the National Committee for Quality Assurance's (NCQA) Patient-Centered Medical Home (PCMH) program.

The member's assigned PCP is responsible for generating referrals to network specialists and coordinating care prior to the member seeking care with any network specialist. The PCP practice listed under the same tax ID number (TIN) as the assigned PCP may also generate the referral when it is deemed necessary for that member's care and approved by the member's assigned PCP. PCPs who are not assigned to the member will not be able to generate a valid referral. A referral is not required for a member to see a specialist within the same Federally Qualified Health Center (FQHC).

If a member requires the services of a non-participating provider, the member's PCP can submit a prior authorization request for in-network coverage for services provided by out-of-network providers. UnitedHealthcare Community Plan, in accordance with member benefits and state regulations, will determine whether an in-network provider is available to treat the patient's condition. If one is not, we will assess whether in-network benefits will be granted for such services from an out-of-network provider.

Specialists are expected to confirm if a referral exists when UnitedHealthcare Community Plan of New Jersey members are scheduling appointments. You may confirm if a referral exists for a member by calling Provider Services at **1-888-362-3368**, 8 a.m.–6 p.m. ET, Monday–Friday, or by visiting UHCprovider.com > Sign In > Referrals to check on the status of a referral. Providers without a One Healthcare ID will need to create one to view referrals on UHCprovider.com. Referrals submitted by phone or fax will also appear online within the Referrals section after signing in to UHCprovider.com.

A specialist can accept a faxed referral form or receive the paper referral from the member.

If a network specialist to whom the member has been referred identifies the need for the member to see another specialist or for the member to return for additional visits, the member's PCP must be contacted for consideration of submission of an additional referral.

How to submit a referral

The PCP must generate a referral for the member to receive specialty care. If the PCP is non-responsive, the specialist may have the member contact Member Services for UnitedHealthcare Community Plan of New Jersey to change the assigned PCP by calling the number on the back of their ID card. The specialist may also contact Provider Services at **1-888-362-3368**, Monday–Friday, 8 a.m.–6 p.m. ET to inform the health plan of follow-up action with the PCP at the discretion of the health plan. Specialists may also receive approval to serve as the member's PCP. Once approved, a specialist acting as a PCP will be required to issue referrals to other specialists, as required.

A referral is not required when UnitedHealthcare Community Plan of New Jersey is the secondary insurance carrier.

Visit UHCprovider.com/training > Digital Solutions Training and Guides > UnitedHealthcare Provider Portal Tools > **Referrals Interactive Guide**.

You can submit new referral requests and check the status of referral submissions online. Go to UHCprovider.com/referrals. For training on how to navigate this, see the virtual **self-paced user guide**.

Continuation of existing relationships with non-par care providers

UnitedHealthcare Community Plan monitors out-of-network referrals on an individual basis. Care provider or geographical location trends are reported to Network Management to assess root causes for action planning.

We provide access to specialty care, diagnostic, and interventional strategies, as well as long-term management of medical conditions and continuation of non-network care providers when considered to be in the member's best medical interest, or in the case of emergency or urgent care the services cannot be provided in a timely manner.

However, try to refer participating specialists and laboratories. Referrals to non-participating specialists require prior authorization. If you need to verify a care provider's network status, call Provider Services at **1-888-362-3368**, or in the case of emergency or urgent care the services cannot be provided in a timely manner.

Otherwise, we may approve out-of-network referrals for the following:

- Continuity of care issues
- Necessary services that are not available within network
- Dialysis for end stage renal disease

UnitedHealthcare Community Plan monitors out-of-network referrals on an individual basis. Care provider or geographical location trends are reported to Network Management to assess root causes for action planning.

Types of care services in which referrals are not required

A UnitedHealthcare Community Plan member does not need a referral from their PCP for OB/GYN care. Perinatal home care services are available for UnitedHealthcare Community Plan members when medically necessary.

Additionally, referrals are not required for the following services or conditions:

- Emergency services
- Women's health care, including midwife
- Audiology
- Family planning
- HIV and STI screenings
- Pregnant members
- Members with an HIV/AIDS diagnosis
- Eye care when performed by a participating optometrist
- Dental care
- Behavioral health (mental health and substance use)
- Smoking cessation
- Maternal depression screening
- Services rendered in any emergency room or network urgent care center
- Physician services for emergency/unscheduled admissions
- Provider's part of inpatient hospital care or inpatient surgical teams
- Chiropractic services

- Laboratory services: However, per the laboratory policy, please refer UnitedHealthcare Community Plan members only to the outpatient laboratory service providers that appear on the most current list of participating laboratories at UHCprovider.com/findprovider > Preferred Lab Network.
- Please refer to the **Policies and Clinical Guidelines** for physical therapy, occupational therapy and speech therapy. Therapies continue to be subject to any existing policies and prior authorization requirements.
- Postoperative care: Services related to a surgical procedure during the postoperative period are included in the Global Fee if performed by the same physician practice. The PCP must write a new referral if the member needs to be seen by the same physician for a new issue or for a new physician for services related to the surgical procedure.
- Routine radiology services. Advanced radiology services, like computed tomography (CT) scan, magnetic resonance imaging (MRI), etc., require prior authorization.
- Any other services for which applicable laws and regulations do not allow us to impose a referral requirement.
- Any services from inpatient consulting physicians (i.e., radiologist, pathologist, anesthesia, etc.)
- A specialist who has arranged to act as the member's PCP does not need a referral for themselves. Specialists should review the provider manual to learn how to become approved to serve as the member's PCP. Once approved, a specialist acting as a PCP will be required to issue referrals to other specialists as required.

Behavioral health referrals

PCPs and behavioral health care providers can refer members by calling Optum Behavioral Health at **1-888-397-8129**. Document behavioral health referrals or requests in the patient's medical record.

Standing referral to a specialist

You may create a standing referral when a member requires ongoing, long-term specialty care. Approval depends on the creation of a treatment plan approved by UnitedHealthcare in consultation with the PCP, the specialist, the care manager, and the member (or authorized person).

The standing referral may be limited to a specific number of visits or the period during which visits are authorized.

Special needs referrals

Enrollees with special needs require highly complex, specialized health care services over a prolonged period of time. These members may have physical, mental, substance use, and for developmental disabilities, including such people who are homeless. They may be referred by a physician specialist instead of a PCP.

We provide specialty care, diagnostic and interventional strategies for these members, as well as long-term management of medical conditions. We allow for the continuation of non-participating care providers when it is in the member's best medical interest. We also require qualified specialists who meet our credentialing criteria to coordinate all medically necessary care for members with complex conditions.

Call the Special Needs and Care Management Referral department at **1-877-704-8871** to refer members with special needs to Care Management for a Comprehensive Health Status Assessment. A plan of care will be developed along with you and the member.

Members or care providers may reach their Personal Care Manager directly by phone during normal business hours.

After-hours messages may be left on the automated voice messaging system.

Methods to identify those at risk who should be referred for a comprehensive needs assessment and care management services

Members with special needs are identified in the following ways:

- State enrollment file
- Call center
- Care providers
- Member/guardian
- Utilization reports
- Census reports
- Pharmacy
- Plan Selection Form (PSFs)

Possible risk criteria for enrollees for institutionalization may include the following:

- Advanced age
- Cognitive impairment
- Falls/fractures
- Permanent activities of daily living (ADL)/Instrumental activities of daily living (IADL) dependency or functional decline
- Lack of caregiver support

You can refer enrollees with special needs and increased risk for institutionalization by contacting our Special Needs and Care Management Referral department at **1-877-704-8871** for a Comprehensive Needs Assessment.

A plan of care will be developed with the care provider, the member, and/or the member's family/guardian.

All medical emergencies should be handled by contacting 911. Members or care providers may reach their Personal Care Manager directly by phone during normal business hours.

After-hours messages may be left on the automated voice messaging system. The Special Needs and Care Management Referral department is also available for messages. These messages will be returned in 1 business day.

Responding to crisis situations after hours for members with special needs

All medical emergencies should be handled by contacting 911. Members or care providers may reach their Personal Care Manager directly by phone during normal business hours.

After-hours messages may be left on the automated voice messaging system. Special needs and care management referrals at **1-877-704-8871** is also available for messages. These messages will be returned in 1 business day.

Reimbursement

UnitedHealthcare Community Plan authorization helps ensure reimbursement for all covered services. You should:

- Determine if the member is eligible on the date of service by using the UnitedHealthcare Provider Portal on UHCprovider.com, calling Provider Services at **1-888-362-3368**, or the New Jersey Medicaid Eligibility System, NJ Hotline at 1-800-676-6562
- Submit documentation needed to support the medical necessity of the requested procedure

- Be aware the services provided may be outside the scope of what UnitedHealthcare Community Plan has authorized

- Determine if the member has other insurance that should be billed first

UnitedHealthcare Community Plan will not reimburse:

- Services UnitedHealthcare Community Plan decides are not medically necessary
- Non-covered services
- Services provided to members not enrolled on the date(s) of service

Second opinion benefit

We do not require a second opinion for any specific services or procedures. However, members may get a second opinion from a participating care provider before getting the recommended treatment or surgery. The member must have seen their PCP/PCD, or a participating specialist to whom the PCP/PCD referred them, for initial evaluation or treatment before requesting a second opinion consultation.

Upon the member's request, the PCP/PCD initiates a referral to the second opinion physician.

If our network does not include a participating care provider in the specialty needed, call Provider Services at **1-888-362-3368** to request authorization for a second opinion by an out-of-plan specialist. We will contact the PCP/PCD and specialist within 72 hours with referral information.

The member and their family, after considering the second opinion and alternative treatments, will make the final decision regarding their care.

If a member asks for a second opinion about a treatment or procedure, UnitedHealthcare Community Plan will cover that cost. Scheduling the appointment for the second opinion should follow the access standards established by the New Jersey DHS. These standards are defined in Chapter 2: Care provider standards and policies. The care provider giving the second opinion must not be affiliated with the attending care provider.

Criteria:

- The member's PCP or PCD refers the member to an in-network care provider for a second opinion. Care providers will forward a copy of all relevant records to the second opinion care provider before the appointment. The care provider giving the second opinion will then forward the report to the member's PCP or PCD and treating care provider, if different.

- The member may help the PCP or PCD select the care provider.
- If a network care provider is not available, UnitedHealthcare Community Plan will arrange for a consultation with a non-participating provider. The participating provider should contact Provider Services at **1-888-362-3368**.
- Once the second opinion has been given, the member and the PCP or PCD discuss information from both evaluations.
- If follow-up care is recommended, the member meets with the PCP or PCD before receiving treatment.

Services not covered by UnitedHealthcare Community Plan

The following services are not included in the UnitedHealthcare Community Plan program:

- Any health care not given by a care provider from our network (except emergency treatment)
 - Services not medically necessary
 - Any care covered by Medicaid but not through managed care:
 - Prescription drugs
 - Long-term care services in a nursing home
 - Nursing facility
 - Intermediate care facilities (ICF) for members with mental handicap
 - Home- and community-based waiver services
 - Residential inpatient hospice (UnitedHealthcare Community Plan covers the facility and anesthesia services when deemed medical necessary. Prior authorization is required.)
 - Mental health and substance abuse care. This service is covered by Optum.
 - Phones and TVs used when in the hospital
 - Personal comfort items used in the hospital such as a barber
 - Contact lenses, unless used to treat eye disease
 - Sunglasses and photo-gray lenses
 - Ambulances, unless medically necessary
 - Infertility services
- NJ FamilyCare A, B and C exclusions:
- Cosmetic surgery, except when medically necessary and with prior approval

- Experimental organ transplants and investigational services
 - Infertility treatment services
 - Rest cures, personal comfort, convenience items and custodial care
 - Respite care
 - Care involving the facility equipment in which the purchase, rental or construction has not been approved by state laws and regulations
 - Care provided by or in institutions owned or operated by the federal government, such as Veterans Administration hospitals
 - Care provided in an inpatient psychiatric institution, that is not an acute care hospital, to individuals younger than 65 years and older than 21 years
 - Care provided to all persons without charge
 - Care and items provided without charge through public programs or voluntary agencies (e.g., New Jersey Department of Health, New Jersey Heart Association, First Aid Rescue Squad)
 - Care or items furnished for any sickness or injury occurring while the member is on active duty in the military
 - Care provided outside the United States and territories
 - Care or items for any condition or injury that occurred on the job for which any benefits are available under workers' compensation law, temporary disability benefits law, occupational disease law, or similar legislation
 - Care covered or payable under any health, accident or other insurance policy (including any benefits payable under the New Jersey no-fault automobile insurance laws), any other private or governmental health benefit system, or through any third-party liability. This includes the provision of the Unsatisfied Claim and Judgment Fund.
 - Care or items furnished for which the care provider does not normally charge
 - Care furnished by an immediate relative or member of the NJ FamilyCare beneficiary's home
 - Care billed for which corresponding health care records do not reflect the procedure code requirements
 - Services or items reimbursed based on submission of a cost study when there are no acceptable records to validate the costs incurred or beneficiary income available to offset those costs. Without financial records, a care provider may prove costs or available income by means the Division accepts.
- NJ FamilyCare D exclusions:
- Non-medically necessary services
 - ICF/intellectual disability
 - Private duty nursing unless authorized by the contractor
 - Personal care assistant services
 - Medical day care services
 - Chiropractic services
 - Orthotic devices
 - Residential treatment center psychiatric programs
 - Religious non-medical institutions care and services
 - EPSDT except for well-childcare including immunizations and lead screening and treatments
 - Transportation services
 - Hearing aid services except for children younger than 16 years
 - Blood and blood plasma, except for administration and processing
 - Cosmetic surgery
 - Custodial care
 - Special remedial and educational services
 - Experimental and investigational services
 - Medical supplies, except diabetic supplies
 - Infertility services
 - Rehabilitative services for substance use
 - Weight reduction programs or dietary supplements, except surgical operations, procedures or treatment of obesity when approved by the contractor
 - Acupuncture, except when performed as anesthesia in connection with covered surgery
 - Recreational therapy
 - Sleep therapy
 - Court-ordered services
 - Thermograms and thermography
 - Biofeedback
 - Radial keratotomy
 - Respite care
 - Nursing facility services
 - Audiology services, except for children younger than 16 years

Services requiring prior authorization

For a list of services that require prior authorization, go to UHCprovider.com/priorauth.

Elective admissions and same-day surgery

The PCP or specialist referring a member for an elective admission, or same-day surgery is responsible for contacting us for prior authorization. Submit your request no less than 5 business days before the expected date of service.

You may contact us by phone, iExchange or mail.

Include the following to receive authorization:

- Member name and UnitedHealthcare Community Plan ID number
- Referring and referred physician's names and UnitedHealthcare Community Plan Provider ID numbers
- Facility name
- Expected date of admission or service
- Diagnosis codes
- Planned procedures and their codes
- Type of service (e.g., outpatient, inpatient admission, home care, DME)
- Other insurance information for COB

Seek prior authorization within the following time frames

- **Emergency or urgent facility admission:**
1 business day
- **Inpatient admissions; after ambulatory surgery:**
1 business day
- **Non-emergency admissions and/or outpatient services (except maternity):** at least 14 business days beforehand; if the admission is scheduled fewer than 5 business days in advance, use the scheduled admission time

Non-participating care providers will always require prior authorization before services can be rendered to a member.

Utilization management guidelines

Call **1-866-815-5334** to discuss the guidelines and utilization management.

UM is based on a member's medical condition and is not influenced by monetary incentives. UnitedHealthcare Community Plan pays its network PCPs and specialists on an FFS basis. We also pay network hospitals and other types of care providers in the UnitedHealthcare Community Plan network on FFS basis. The plan's UM staff works with care providers to help ensure members receive the most appropriate care in the place best suited for the needed services. Our staff encourages appropriate use and discourages underuse. The UM staff does not receive incentives for UM decisions.

Telemedicine, Teledentistry and Telehealth

Telemedicine and telehealth are approved modes of delivering service under NJ FamilyCare. Health care providers who use telemedicine, teledentistry or engage in telehealth shall meet all existing laws, rules and regulations governing the service being provided. Teledentistry may only be provided as a synchronous, real-time encounter. For more information on telehealth, see our UnitedHealthcare [telehealth/virtual health policy](#).

Chapter 5: Early and Periodic Screening, Diagnostic and Treatment (EPSDT)/prevention

Key contacts

Topic	Links	Phone number
EPSDT	Early and Periodic Screening, Diagnostic and Treatment	N/A
Vaccines for Children	njiis.nj.gov vfc@doh.state.nj.us	1-609-826-4862

Early and Periodic Screening, Diagnostic and Treatment (EPDST) is a Title XIX-mandated program that covers screening and diagnostic services to determine physical and mental defects in enrollees younger than age 21. It covers health care, treatment, and other measures to correct or ameliorate any defects and chronic conditions discovered, pursuant to Federal Regulations found in Title XIX of the Social Security Act.

All Medicaid-covered members younger than age 21, including those receiving MTLSS, may receive any medically necessary service. This includes:

- Physician and hospital services
- Home care services (including personal care and private duty nursing)
- Medical equipment and supplies
- Rehabilitative services
- Vision care
- Hearing services
- Dental care
- Any other type of remedial care recognized under state law or specified by the Secretary of the Department of Health and Human Services (DHHS)

The need for these services are based on medical necessity. They may not be limited in volume, scope or duration, regardless of established state plan or regulatory limitations.

While approval for these services is determined by medical necessity, the volume, scope, and duration of approved services may consider the availability of other medically appropriate, cost-effective alternatives.

When a Medicaid-covered beneficiary younger than age 21 requires a medically necessary service that is not listed in the state plan, the beneficiary or their representative should call the number on their health plan Member ID card so this service can be delivered and coordinated.

EPSDT is key to help ensure children and adolescents receive the right preventive, dental, mental health, developmental and specialty services.

For complete details about diagnoses codes as well as full and partial screening, examination, and immunization requirements, go to the EPSDT schedule at medicaid.gov > Medicaid > Benefits > Early and Periodic Diagnostic and Treatment New Jersey schedules and codes are available at [New Jersey Department of Children and Families Policy Manual](#).

Bright Futures assessment

Bright Futures is a national health promotion and prevention initiative, led by the American Academy of Pediatrics and supported by the [U.S. Department of Health and Human Services, Health Resources and Services Administration \(HRSA\)](#), Maternal and Child Health Bureau (MCHB).

The [Bright Futures Guidelines](#) provide guidance for all preventive care screenings and well-child visits. You may incorporate Bright Futures into health programs such as home visiting, childcare, school-based health clinics, and many others. Materials developed for families are also available.

The primary goal of Bright Futures is to support primary care practices (medical homes) in providing well-child and adolescent care. Settings for Bright Futures implementation include private practices, hospital-based or hospital-affiliated clinics, resident continuity clinics, school-based health centers, public health clinics, community health centers, Indian Health Service clinics, and other primary care facilities. A complementary goal is to provide home visitors, public health nurses, early childcare, and education professionals (including Head Start), school nurses, and nutritionists with an understanding of Bright Futures materials so that they can align their health promotion efforts with the recommendations in the Bright Futures Resources. This objective will help ensure patients receive information and support that is consistent from family and youth perspectives.

Learn more about Bright Futures at mchb.hrsa.gov/programs-impact/bright-futures.

Children with special health care needs

You must support efforts for well-childcare, health promotion, disease prevention, dental care, behavioral health and long-term specialty care for children with special health care needs. This also includes:

- Diagnostic and intervention strategies
- Home therapies
- Ongoing ancillary services
- Long-term management of ongoing medical complications
- Continuation of existing relationships with out-of-network providers, when considered to be in the best medical interest of the member.

Refer children designated as having special needs to Care Management for a Comprehensive Health Status Assessment by calling Special Needs and Care Management Referral at **1-877-704-8871**.

A plan of care (IHCP) will be developed in conjunction with the provider, the member, and/or the member's family/guardian.

Dental referrals

Refer pediatric members to a primary care dentist (PCD) by age 1 year or soon after the eruption of the first tooth.

To find a PCD for referral, visit UHCprovider.com/findprovider > **Dental Directory** > Medicaid Plans.

The NJ Directory of Dentists Seeing Children under 6, NJ Directory of Dentists seeing I/DD Children and I/DD adults and New Jersey Directory of Mobile Dental Services can be found at uhccommunityplan.com/new-jersey > Find a Dentist.

If a member needs specialty care, any PCP or dentist may recommend a network specialty dentist, or the member can self-select a participating network specialist. There shall be no arbitrary number of visits by the PCD to allow a referral. Referrals must be made to qualified specialists who are participating within the provider network. No written referrals are needed for specialty dental care. Dental services referred to any out-of-network providers will need an approved prior authorization.

NJ Smiles

We allow non-dental providers to provide dental risk assessment, anticipatory guidance, fluoride varnish application and dental referral for children through the age of 5 years old. In addition to dental screening, medical staff with training can also provide oral health services using CPT code 99188. Services include anticipatory guidance, caries risk assessment, fluoride varnish application and referral to a dentist.

- Fluoride varnish may be applied by any trained medical staff. The physician must be trained and submit attestation that all staff providing this service are trained and will be supervised.
- Fluoride varnish application will be combined with risk assessment (visit aap.org to find the AAP Oral Health Risk Assessment Tool for the Caries Risk Assessment Tool for PCPs), anticipatory guidance and referral to a dentist that treats children younger than age 6 and will be linked to well-child visits for children through the age of 5 years old. Visit ada.org to find the ADA Caries Risk Assessment Form for children younger than 6 years old.
- These 3 services will be reimbursed as an all-inclusive service billed using a CPT code and can be provided up to 4 times a year. This frequency does not affect the frequency of this service by the dentist.
- We provide training to all licensed medical staff on the requirement of dental referral by 12 months of age.
- We notify PCPs and PCDs on their referral process and required communications between these provider groups.

- We provide training to all PCDs and licensed medical staff on prescribing fluoride supplements (based on access and use to fluoridated public water) and their responsibility in counseling parents and guardians of young children on oral health and age-appropriate oral habits and safety to include what dental emergencies are and use of the ER for dental services.
- The caries risk assessment service is also allowed by the PCD and is billed using a CDT procedure code. The reimbursement will be the same regardless of the determined risk level. The risk assessment must be provided at least once per year in addition to an oral evaluation service by a PCD and is linked to the provider, not the member. It may be provided a second time with prior authorization and documentation of medical necessity. Visit ada.org to find the ADA Caries Risk Assessment Form for children younger than 6 years old.

Find dental providers who treat members younger than 6 years old at UHCCCommunityPlan.com/newjersey > NJ FamilyCare View Details > **Find Dentist** > Click on pdf directory under **The NJFC Directory of Dentists Treating Children under the Age of 6**.

Developmental disability services and coordination with regional centers

Developmental disabilities are severe and chronic disabilities due to a mental or physical impairment that begins before the member reaches adulthood. These disabilities include intellectual disability, cerebral palsy, epilepsy, autism, and disabling conditions related to intellectual disability or requiring similar treatment. The Department of Developmental Services (DDS) is responsible for a system of diagnosis, counseling, case management, and community support of persons with intellectual disability, cerebral palsy, epilepsy, and autism for children older than 36 months to adulthood.

Referral – If you determine supportive services would benefit the member, refer the member to DDS for approval and assignment of a regional center case manager who is responsible for scheduling an intake assessment. Determination of eligibility is the responsibility of the regional center interdisciplinary team. While the regional center does not provide overall case management for their clients, they must assure access to health, developmental, social, and educational services from birth throughout the lifespan of an individual who has a developmental disability.

Continuity of care – The regional center will determine the most appropriate setting for eligible HCBS services and will coordinate these services for the member in collaboration with the PCP and health plan coordinator. The care coordinator and PCP continue to provide and manage primary care and medically necessary services. If the member does not meet criteria for the program or placement is not currently available, UnitedHealthcare will continue care coordination as needed to support the member’s screening, preventive, medically necessary, and therapeutic covered services.

EPSDT CPT codes for children 0–21 years

Visit codes

Administration Codes*	90465, 90466, 90471, 90472, 90467, 90468, 90473, 90474
ICD-10 Diagnosis Codes**	Z76.1, Z76.2, Z00.129, Z00.121

* Do not submit administrative codes to us for EPSDT visits.

** Primary diagnosis whenever well-childcare and immunizations are rendered.

Full screening

Perform a full screen. Include:

- Interval history
- Unclothed physical examination
- Anticipatory guidance
- Lab/immunizations (Lab and administration of immunizations is reimbursed separately)
- Lead assessment
- Personal-social and language skills
- Fine motor/gross motor skills
- Hearing
- Vision
- Dental

NOTE: Medical staff with training can also provide oral health services and include the CPT code 99188. Services include anticipatory guidance, caries risk assessment, fluoride varnish application and referral to a dentist.

Without all these components, you cannot bill for a full screen. You may only bill for a partial screen.

Interperiodic screens

Interperiodic screens are medically necessary screens outside the standard schedule that do not require the full screen. Use this screen to start services. Office visits and full or partial screenings happening on the same day by the same care provider are not covered unless medical necessity is noted in the member's record.

Interperiodic screens are often used for school and athletic physicals. A physical exam may be needed for a certificate stating a child can physically take part in school athletics. This also applies to other school physicals when required as conditions for educational purposes.

Lead screening/treatment

NJ FamilyCare requires lead toxicity screenings for members at both 12 and 24 months of age. After that, you must screen any child 25 to 72 months of age (younger than age 6) who has not previously been tested.

Finally, test any child up to 72 months of age who has been exposed to a known or suspected source of lead, regardless of previous testing on the regular schedule.

Medical record request

Send copies of medical records for any member younger than age 18 who has a lead toxicity screening result with blood lead levels greater than or equal to 5 µg/dl. Include the following information in the medical records:

- Member first and last name
- Member ID
- Date of visit
- Lead screening results

You can send copies of medical records by fax to 1-855-353-1048 or by secure email to lead_cm_nj@uhc.com. If you email medical records, you must use a secure email. If you don't have a secure email, you can email lead_cm_nj@uhc.com to request help with creating one.

The state also requires that you complete a verbal risk assessment for lead toxicity at every periodic office visit for children between ages 6 months and 72 months. These questions, which you'll attach to the patient's records, help determine if the child needs more testing for lead exposure. This verbal assessment is required, along with the 2 blood level tests, for members before the age of 24 months.

Find a copy of the Lead Screening guide at [UHCprovider.com/njcommunityplan](https://uhcprovider.com/njcommunityplan) > Provider Forms and References. Under Reference Guides, click on Lead Screening Quick Reference Guide. You can find the **Verbal Risk Assessment for Lead Toxicity** on the same site under Provider Forms. For more information about the New Jersey DOH requirements, go to nj.gov/childhoodlead.

This program also applies to members of the same household who are between 6 months and 6 years old. Check out the CDC website at cdc.gov/nceh/lead for more information on Childhood Lead Poisoning Prevention.

Newborn screening program

We refer all newborns who test positive on the Department of Health (DOH)'s Newborn Screening Program for further lab tests and treatment of rare conditions. These newborns will be referred to care management for further assessment, intervention and care coordination.

Vaccines for Children program

Each state operates the federally funded Vaccines for Children (VFC) program, which handles the vaccine supply and distribution to providers. The program addresses the disparity between insured children and children with no insurance or children from certain groups. The groups include children enrolled in Medicaid or Medicaid Managed Care, NJ FamilyCare A.

VFC benefits include:

- Cuts out-of-pocket expenses for parents and enrolled care providers
- Children don't need referrals to public health centers for vaccination, keeping children within their medical home
- Provides a ready inventory of vaccines for VFC enrollees

The program supplies vaccines for these groups at no cost to all public and private care providers who agree to administer the vaccine. Vaccines offered through VFC can only be given to children with health insurance when their health insurance does not cover the cost of VFC vaccines, and the vaccines are received at a FQHC.

We require all physicians who see children younger than 19 years be enrolled in the VFC program. Because VFC enrollment is independent on your participation with us, it requires separate enrollment.

To enroll, go to njiis.nj.gov. For more information about the VFC program call 1-609-826-4862 or email VFC@doh.state.nj.us. Search for Vaccines for Children brochure on nj.gov for more information.

The State of New Jersey's VFC program provides vaccines for Medicaid plan A. See [State of New Jersey Immunization Information System](#) for more information.

As such, care providers are reimbursed for the administration of the vaccine for NJ FamilyCare Plan A. Submit claims reimbursement for vaccines and administration for NJ FamilyCare members B, C, and D directly to us. We reimburse all care providers for each administered vaccine. You must submit on a CMS 1500 billing form the vaccine CPT code as well as the administration code to obtain the payment.

If you are enrolled in VFC and disenroll from the program, notify us by emailing uhccpnj@uhc.com.

VFC also offers FluLaval as an additional influenza vaccine for children older than 6 months. The FluLaval dosage is 0.5 mL, regardless of the age of the child.

Any child through 18 years of age who meets at least 1 of the following criteria is eligible for VFC:

- Eligible for Medicaid
- American Indian or Alaska Native, as defined by the Indian Health Services Act
- Uninsured
- Underinsured (These children have health insurance, but the benefit plan does not cover immunizations. Children in this category may not only receive vaccinations from an FQHC or RHC. They cannot receive vaccinations from a private health care provider using a VFC-supplied vaccine.)

As with all vaccine orders:

- Open flu vaccine shipments immediately
- Check the temperature monitor reading
- Inspect the vaccine
- Compare the vaccine received to the packing list
- Store at appropriate temperatures

If vaccines have been compromised, if temperature monitors are out-of-range or if the order received is not accurate, immediately notify the McKesson Specialty Customer Care dedicated vaccine viability line at 1-877-836-7123.

Chapter 6: Managed Long-Term Services and Supports (MLTSS)

The New Jersey Managed Long Term Services and Supports (MLTSS) program connects members with their health care teams to help them actively manage their conditions. This state program coordinates physical and behavioral health services in a seamless way that helps improve overall health outcomes.

New Jersey's MLTSS program:

- Provides a single point of contact for the member, a care manager
- Addresses members' values and needs through comprehensive interventions
- Connects members with their care providers, family, caregivers, and community resources
- Personalizes each member's care based on economic, psychosocial, cultural, health literacy and environmental factors
- Helps ensure the highest quality of care that addresses member safety, health care disparities, and the appropriate use of health care services

MLTSS' fully integrated care coordination helps ensure the member's physical health, behavioral health, and MLTSS/HCBS are provided seamlessly. This effort reduces waste and redundancy in services.

Eligibility and enrollment

Eligibility depends on state approval and the member's in-person assessment using the NJ Choice Tool.

Verify the UnitedHealthcare Community Plan member's Medicaid eligibility on day of service before treating them. View eligibility online on the Eligibility and Benefits application at UHCprovider.com/eligibility.

Benefits

MLTSS members receive the same benefits as all other UnitedHealthcare Community Plan members. Additionally, they may access the following services when we have deemed them medically necessary:

- Assisted living services (ALR, CPCH)
- Assisted living program (ALP)
- Traumatic brain injury behavioral management (group and individual)
- Chore services

- Cognitive therapy (group and individual)
- Community residential services (CRS)
- Community transition services
- Home-based supportive care
- Home-delivered meals
- Medical day services
- Medication dispensing device: Setup and monthly monitoring
- Non-medical transportation
- Nursing facility (NF) services (custodial)
- Occupational, physical therapy (group and individual)
- Personal Emergency Response System (PERS): Setup and monitoring
- Private duty nursing (Adult): up to 16 hours of PDN services in any 24-hour period
- Residential modifications
- Respite (daily and hourly)
- Social adult day care
- Specialized medical equipment and supplies
- Speech, language, and hearing therapy (group and individual)
- Structured day program
- Vehicle modification

In addition to mental health and substance use services, we coordinate the following services that MLTSS does not cover:

- Targeted case management
- PACT
- Statewide Clinical Outreach Program for the Elderly (SCOPE)
- Self-help centers
- Supportive housing
- Peer recovery support services
- Behavioral services covered by other sources (TPL)

The MLTSS member's care manager evaluates service needs and develops the member's plan of care. Home and community-based services (HCBS) are determined based on the needs assessment and the assessment of natural supports. The care manager works with the member's care providers to put the plan into action.

Guidelines for private duty nursing

The following requirements apply to private duty nursing (PDN) services:

- PDN is provided for eligible members living in the community only and not in hospital inpatient or nursing facility settings
- We determine and approve the total PDN hours for reimbursement, based on N.J.A.C. 10:60-5.2(b)
- Members may receive up to 16 hours of PDN services in any 24-hour period
- We base the total PDN hours approved on alternative sources of PDN care available to the caregiver, such as medical day care or a school program

Cost-effectiveness of services

MLTSS members will most often receive the most cost-effective placement in a community setting. If the cost of placement is not cost-effective, the care manager will initiate an Inter-Disciplinary Team (IDT) meeting to discuss the service options, review and revise the plan of care to safeguard the member's health and safety and, execute a risk management agreement if necessary. When the IDT does not result in a plan of care that is agreeable to both the member and us, we initiate a MLTSS Case Conference Review to create a more suitable plan of care. If the member still does not agree with the plan, they may follow the grievance and appeals process found in the Member Handbook.

Care provider responsibilities

In addition to the general care provider responsibilities listed in **Chapter 2: Care provider standards and policies** of this manual, HCBS providers have the following requirements:

- Provide services based on the plan of care. This includes the amount, frequency, duration, and scope of each service in the member's service schedule.
- If a member is admitted to the hospital, call NJ PCA, Medical Day Care and MLTSS Service Intake department at **1-800-262-0305**
- Notify us within 24 hours when any authorized non-MLTSS service has not been provided to the member
- If there is a gap in MLTSS services, contact the member immediately. Acknowledge the gap and discuss how to resolve it. Also notify the member's MLTSS care manager.

- Comply with unable to contact requirements
- Comply with critical incident reporting and management requirements
- Conduct criminal background checks on all employees who provide direct care to MLTSS enrollees

Critical incident reporting requirements

Every care provider and subcontractor must follow the Critical Incident Reporting and related requirements. Examples of Critical Incidents (must occur in a NF/special care nursing facility [SCNF], inpatient behavioral health, HCBS setting, community alternative residential setting, adult day care centers or a member's home) are:

- Unexpected death of a member
- Missing person or unable to contact
- Suspected or evidenced physical or mental abuse (including seclusion and restraints, both physical and chemical)
- Theft with law enforcement involvement
- Law enforcement contact
- Severe injury or fall resulting in the need for medical treatment
- Medical or psychiatric emergency, including suicide attempt
- Medication error
- Inappropriate or unprofessional conduct by a care provider/agency resulting in serious consequences involving the member
- Sexual abuse and/or suspected sexual abuse
- Neglect/mistreatment, including self-neglect and/or suspected abuse and neglect
- Incident likely to result in media attention
- Exploitation including financial theft, destruction of property
- Failure of member's backup plan
- Elopement/wandering from home or facility
- Eviction/loss of home
- Facility closure, with direct impact to member's health and welfare
- Cancellation of utilities
- Natural disaster, with direct impact to member's health and welfare

Follow the mandatory training and reporting requirements listed in your MLTSS Contract and those applicable to Adult Protective Services, Office of Institutionalized Elderly, Department of Health, the Department of Children and Families and the Division of Disability Services. Also report these incidents to UnitedHealthcare Community Plan within 1 business day of the incident. Then conduct an internal investigation and submit a report to us. Submit the report as soon as possible, based on the severity of the incident. Except under extenuating circumstances, submit no more than 30 calendar days after the date of the incident.

We will review the report and follow up as necessary to help ensure an appropriate investigation was conducted and corrective actions were implemented within applicable time frames.

Home and community-based services requirements

As an HCBS provider, MLTSS care providers must adhere to these requirements:

- Provide services based on the plan of care. This includes the amount, frequency, duration and scope of each service.
- Call the NJ PCA, Medical Day Care and MLTSS Service Intake department at **1-800-262-0305** if a member is admitted to the hospital
- Notify us within 24 hours when any authorized non-MLTSS service has not been provided to the member
- Fulfill the Gap in Care requirements:
 - When you are aware of an upcoming gap in care, contact the member before the scheduled service to advise them that their regular caregiver will be unavailable. They may choose to receive the service from another caregiver at another time or from an alternate caregiver from the member's informal support system.
 - When a gap in services is already present, contact the member immediately. Acknowledge the gap and provide an explanation. Also provide a plan to resolve the particular gap and any future gaps. In addition, notify the member's MLTSS Care Manager.
- Comply with Unable to Contact requirements:
 - Reach out to the member again using the contact information on file
 - If they don't respond, immediately reach out to their emergency contact
 - If you still can't locate the member, immediately notify the member's MLTSS care manager

Prior authorization

For MLTSS services (including personal care assistant services and adult/pediatric medical day care services), call the NJ PCA, Medical Day Care and MLTSS Service Intake department at **1-800-262-0305** any time.

MLTSS claims tips

- Include your National Provider Identifier (NPI) when submitting claims. Non-medical service providers who do not have NPI numbers must include their Medicaid Number (if applicable) and Tax ID.
- Call the NJ PCA, Medical Day Care and MLTSS Service Intake department at **1-800-262-0305** for MLTSS claims/service issues.
- NF and assisted living providers are responsible for collecting patient payment liability from residents. The patient payment liability for cost of care is that portion of the cost of care that NF residents must pay based on their available income as determined and communicated by the County Welfare Agency. Collection of both the room and board and patient payment liability for the cost of care is delegated to the provider. We pay claims net of the applicable patient liability amount.

Provider credentialing/verification

Participation in the MLTSS provider network requires satisfaction of application and credentialing/verification requirements. To request participation and credentialing, email nj_mltss_cred@uhc.com. You may also call Provider Services Managed Long Term Services and Supports (MLTSS) at **1-888-702-2168** and follow the prompts.

We also require the following:

- Medicaid ID issued by NJ FamilyCare/Medicaid
- Completed application
- Licensure for the services listed in the application
- General/comprehensive liability insurance
- Procedures governing financial responsibility and documentation of sufficient cash flow for 3 months, financial statements, and no filing or history of bankruptcy in the last 7 years
- Documented methods to monitor and review services and to assure quality of care
- Monthly verification that agency and/or employees have not been excluded from Medicare/Medicaid participation

- Evidence of compliance with all applicable laws and regulations, including Workman's Compensation and unemployment insurance and general liability insurance
- For agency and employees, no felonies or listings on abuse and sex offender registries
- Documentation of staff member background checks, qualifications, trainings, and certification
- Membership of board of directors
- Documented service delivery assurances
- Compliance with HIPAA requirements
- Accurate completion of a Disclosure of Ownership and Control Interest Statement and disclosure of ownership information at any time upon request
- Submission of a W-9 Form
- Signed attestation for the accuracy and completion of all required forms
- Submission of adequate proof of liability insurance (\$500,000)
- Standards Assessment and Documentation Review

If you are credentialed with us and want to request NJ FamilyCare participation, call Provider Services for Managed Long Term Services and Support (MLTSS) at **1-888-702-2168**. Follow the prompts:

- Enter Tax ID
- Request to speak with a Network Management representative for NF contract
- Submit the signed disclosure forms and Medicaid provider number with signed contract

To check Credentialing Application Status, call United Enterprise Voice Portal at **1-877-842-3210** and follow the prompts. You can also call Provider Services Managed Long Term Services and Support (MLTSS) at **1-888-702-2168**. Or send an email to nj_mltss_cred@uhc.com.

We require the following:

- Completed application
- Licensed as appropriate for the service being contracted
- Proof of accreditation or Medicare certification
- Site visit required only if there is not Medicare certification or accreditation by an approved entity
- Meet qualifications as outlined in the credentialing plan under CMS and NCQA
- Monthly verification that agency and/or employees have not been excluded from Medicare/Medicaid participation

- Evidence of compliance with all applicable laws and regulations, including Workman's Compensation and unemployment insurance and general liability insurance
- For agency and employees, no felonies or listings on abuse and sex offender registries
- Documentation of verifying financial capacity to operate
- Documented service delivery assurances
- Compliance with HIPAA requirement
- Accurate completion of a Disclosure of Ownership and Control Interest Statement and disclosure of Ownership information at any time upon request
- Submission of a substitute W-9 Form
- Signed attestation for the accuracy and completion of all required forms
- Assignment of a valid Medicaid number
- Site visits to help ensure adequate record keeping
- Standards assessment and documentation review

Demographic changes

Notify us of demographic changes 30 days before the change is effective. Email your change requests to nj_mltss_cred@uhc.com.

Any Willing Provider

The definition of MLTSS Any Willing Provider (AWP) refers to any New Jersey-based assisted living provider (AL), and community residential services (CRS) provider that serves residents with traumatic brain injury. The definition also applies to long-term care pharmacies that apply to become network providers. These providers must comply with our network participation. We accept all ALs, CRSs that serve residents with traumatic brain injury, and long term care pharmacies which are Medicaid providers.

MLTSS Any Willing Provider status for AL and CRS will be from the date that the service comes into MLTSS, and continue through the end of State Fiscal Year, dependent upon available appropriations. Any provider found not to be in compliance with the federal Home and Community Based Settings (HCBS) Rule, wherein all HCBS must be delivered in settings that are integrated in and support full access to their community after a good faith effort by us to assist the provider with becoming compliant shall be exempted from Any Willing Provider status. A provider found to be non-compliant is subject to removal from the MCO provider network.

For the provision of, UnitedHealthcare Community Plan of New Jersey contracts with any willing qualified provider (AWQP) that provides nursing facility services. Qualified providers are defined as all nursing facilities (NFs) and specialty care nursing facilities (SCNFs) in the state licensed by the New Jersey Department of Health, except those that have, in 2 of the 3 most recently completed calendar years:

- a.** Been included on the Center for Medicare and Medicaid Services (CMS) Special Focus Facilities (SFF) Lists A, C, or D at least once; or
- b.** Been cited for two or more Level G or higher federal deficiencies or similar equivalent licensing violations from the New Jersey Department of Health; or
- c.** Received an overall one-star rating by CMS for 9 or more of the prior 12 quarters.

Federal Home and Community Based Settings (HCBS) Rule

The MLTSS Services of Assisted Living Services, Community Residential Services, Social Adult Day Care are subject to the requirements of the HCBS Settings Final Rule.

The following Home and Community Based Services Requirements apply to all settings where HCBS services are delivered:

1. The setting is integrated in and supports full access of individuals receiving Medicaid HCBS to the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community, to the same degree of access as individuals not receiving Medicaid HCBS.
2. The setting is selected by the individual from among setting options including non-disability specific settings and an option for a private unit in a residential setting. The setting options are identified and documented in the individual's plan of care and are based on the individual's needs, preferences, and, for residential settings, resources available for room and board.
3. The setting ensures an individual's rights of privacy, dignity and respect, and freedom from coercion and restraint.
4. The setting optimizes, but does not regiment, individual initiative, autonomy, and independence in making life choices, including but not limited to, daily activities, physical environment, and with whom to interact.

5. The setting facilitates individual choice regarding services and supports, and who provides them.

In addition to the above qualities, the following additional conditions must be met in provider-owned, managed or controlled residential settings:

1. The unit or dwelling is a specific physical place that can be owned, rented, or occupied under a legally enforceable agreement by the individual receiving services, and the individual has, at a minimum, the same responsibilities and protections from eviction that tenants have under the landlord/tenant law of the state, county, city, or other designated entity
2. For settings in which landlord tenant laws do not apply, we must ensure that a lease, residency agreement processes and appeals comparable to those provided under the state's landlord tenant law.
3. Each individual has privacy in their sleeping or living unit
4. Units have entrance doors lockable by the individual, with only appropriate staff having keys to doors.
5. Individuals sharing units have a choice of roommates in that setting.
6. Individuals have the freedom to furnish and decorate their sleeping or living units within the lease or other agreement.
7. Individuals have the freedom and support to control their own schedules and activities and have access to food at any time.
8. Individuals are able to have visitors of their choosing at any time.
9. The setting is physically accessible to the individual.

Any modification of the additional conditions for provider owned, managed or controlled residential settings in section C above must be supported by a specific assessed need and justified in the member's plan of care. The following must be documented:

1. Identify a specific and individualized assessed need
2. Document the positive interventions and supports used prior to any modifications to the member's plan of care
3. Document less intrusive methods of meeting the need that have been tried but did not work
4. Include a clear description of the condition that is directly proportionate to the specific assessed need
5. Include regular collection and review of data to measure the ongoing effectiveness of the modification

6. Include established time limits for periodic reviews to determine if the modification is still necessary or can be terminated
7. Include the informed consent of the member
8. Include an assurance that interventions and supports will cause no harm to the member.
 - The MLTSS care manager shall ensure all of the above are documented in the member's plan of care. Documentation of such shall be recorded in the care management record.

The following settings are not considered home and community-based and, as such are not required to demonstrate compliance with the HCBS Settings Rule:

1. A nursing facility;
2. An institution for mental diseases;
3. An intermediate care facility for individuals with intellectual disabilities;
4. A hospital; or
5. Any setting that is located in a building that is also a publicly or privately operated facility that provides inpatient institutional treatment.

MLTSS Nutritional Supports Program

MLTSS is offering a new program called Nutritional Supports Program. Effective July 2025, the NJ FamilyCare MLTSS program is expanding its offerings with 3 nutritional support services designed to enhance members health and food security. These services aim to provide members with personalized dietary guidance, smooth transitions into community living, and short-term help during food emergencies.

The 3 different areas of the program are: nutrition counseling and education, transitional pantry stocking, and short-term grocery provision. See below for more information about each area of the program.

Services include:

- **Nutrition counseling and education:** Provides access to tailored advice to improve eating habits and overall nutrition. Experts will evaluate members' current diet, suggest healthier food choices, and help members adopt strategies for lasting nutritional well-being. Additionally, members will be guided on accessing programs like SNAP and WIC for ongoing support.

- **Transitional pantry stocking:** For members moving from an institutional setting to a community home, this service offers a limited supply of essential pantry and household items to support a successful transition when members have limited family or community support
- **Short-term grocery provision:** In times of urgent need—such as during sudden health challenges—this service provides grocery delivery for up to 30 days, ensuring members have access to nutritious food when they need it most

For detailed information on MLTSS nutritional supports, please see our [website](#).

Nutrition counseling and education

Nutrition counseling and education assess a beneficiary's dietary intake, identifies areas where changes are needed, and provides individualized advice and guidance about options and methods for improving nutritional status. Strategies can be provided in individual or group settings and are meant to motivate and facilitate voluntary adoption of food choices, meal preparation, and other food and nutrition-related behaviors conducive to health and well-being.

This service will:

- Include counseling on, connection to, and assistance with the applications for SNAP, WIC, and other state or federal benefit programs to enable continued access to resources to meet nutritional needs beyond the provision of this service (e.g., budgeting, local food banks, transportation and online ordering/delivery options).
- Be offered in accordance with evidence-based nutrition guidelines

These services may be supplemented with handouts, take-home materials, and other informational resources that support nutritional health and well-being.

Persons eligible for nutrition counseling and education must be currently enrolled MLTSS beneficiaries who meet the clinical and financial criteria for MLTSS and are experiencing a significant or emergent disruption in the ability to obtain an adequate level of nutrition due to an acute behavioral or physical health episode or due to clinical factors that would put them at risk of an unnecessary emergency department visit, hospital admission, or institutional placement. UnitedHealthcare Community Plan New Jersey care manager will complete a short assessment to determine if the member meets the eligibility criteria and expresses a desire to participate in counseling or education to enhance their nutritional health. If the member expresses an interest in speaking with a nutrition provider, the care manager will provide the member with names and numbers for a practitioner in their area.

HIPAA COMPLIANT CODE:

- **97802U1:** Medical nutrition therapy; initial assessment and intervention, individual, face-to-face with the patient, each 15 minutes
 - This code is used for the first visit with a qualified nutrition professional. The provider will assess the condition, perform a nutrition screen, and initiate a dietary plan that is specific to the patient's needs.
- **97803U1:** Medical nutrition therapy; re-assessment and intervention, individual, face-to-face with the patient, each 15 minutes
 - This code is for the subsequent visit after the initial visit has been completed. The provider reevaluates the diet in such a way that it improves the health and quality of life of the patient and advises the patient about long-term eating habits and health.
- **97804U1:** Medical nutrition therapy; group (2 or more individual(s)), each 30 minutes

Transitional pantry stocking

The transitional pantry stocking is the one-time purchase of essential pantry stocking items to adequate and necessary access to food and goods immediately following transition from an institutional setting.

Persons eligible for transitional pantry stocking must be currently enrolled MLTSS beneficiaries who meet the clinical and financial criteria for MLTSS and all the following social risk factors:

- Meet the USDA definition of either low or very low food security
- Are transitioning to a community residence from an institutional setting, including
 - Certified nursing homes
 - Mental health facility
 - Acute care hospitals with an extended stay (30+ days)
 - Carceral settings (i.e., state prison, county correctional facility, youth correctional facility)
- Indicate a lack of community or family support and challenges accessing and obtaining needed food during transition to a community residence

Additional eligibility considerations:

- UnitedHealthcare Community Plan New Jersey care manager will complete a state-developed assessment to determine if the member meets the eligibility criteria
- Members residing in Nursing Facilities (NF), Assisted Living Residences (ALR), Comprehensive Personal Care Homes (CPCH), or receiving TBI Community Residential Services (CRS) are not eligible for this benefit
- Members in Assisted Living Programs may be eligible, provided there is no duplication

If the provider believes the member might qualify for this service, please notify the member's care manager.

With this service, will meet the following:

- Provided in weekly or bi-weekly installments depending on beneficiary preference, be delivered and be available to the individual starting on the day of discharge, for up to 3 meals per day for up to 6 months
- Be offered in accordance with evidence-based nutrition guidelines
- Follow food safety standards
- Meet the needs of beneficiary's personal and cultural dietary preferences
- Include connection and assistance with obtaining other nutritional support services available through MLTSS for which the beneficiary qualifies (e.g., home delivered meals, nutrition counseling and education)

- Include counseling on, connection to, and assistance with the applications for SNAP, WIC, and other state or federal benefit programs to enable continued access to resources to meet nutritional needs beyond the provision of this service (e.g., budgeting, local food banks, transportation and online ordering/delivery options)

If the member meets eligibility criteria, UnitedHealthcare Community Plan New Jersey will complete, with the member, a foods/pantry order that will be delivered to the member's home per the limitations outlined by the state.

This service is limited to a 30-day supply with a maximum amount of \$1000 and may be renewed in 30-day increments up to a maximum of 6 months based on need with a maximum of \$300 per each additional 30-day supply requested and approved, up to a total maximum of \$2,500 for 6 months.

Short-term grocery provision

The provision of short-term groceries purchased and delivered from a food retailer, for an MLTSS beneficiary who meets eligibility requirements.

This service will provide the following:

- The groceries will be delivered and stocked for you or provided for you in a way that is agreeable with you to reduce disruption
- The groceries will be based on your preference from a state-approved list of foods that meet nationally recognized nutrition guidelines and have options to meet your personal and cultural preferences
- Opportunity to meet with a person who specializes in nutrition to assistance with receiving nutrition counseling and education

Persons eligible for short term grocery provision must be currently enrolled MLTSS beneficiaries who meet the clinical and financial criteria for MLTSS and:

- Meet the USDA definition of either low or very low food security¹ as determined by the attached assessment, and
- Are experiencing a significant or emergent disruption in the ability to obtain an adequate level of nutrition due to an acute behavioral or physical health episode or due to clinical factors that would put them at risk of an unnecessary emergency department visit, hospital admission, or institutional placement.

If the provider believes the member might qualify for this service, please notify the member's care manager.

UnitedHealthcare Community Plan New Jersey care manager will complete a state-developed assessment to determine if the member meets the eligibility criteria.

This service has several time limits:

- It may not be provided for more than 30 days
- It may not be used more than once per calendar year
- It may only be used on purchases consistent with SNAP guidelines
- Is capped at 200% of the current fiscal year's maximum Monthly USDA SNAP Allowance for a household of 1
- Members residing in Nursing Facilities (NF), Assisted Living Residences (ALR), Comprehensive Personal Care Homes (CPCH), or receiving TBI Community Residential Services (CRS) are not eligible for this benefit
- Members in Assisted Living Programs may be eligible, provided there is no duplication

What is the Housing Supports Program?

Beginning July 1, 2025, Medicaid will pay for some housing related services for eligible individuals enrolled in NJ FamilyCare / Medicaid. The Housing Supports Program is designed to provide access to Housing Support Services that aide the homeless or other housing insecure individuals in locating, obtaining and maintaining stable housing ultimately improving health outcomes. With this added assistance, integration between NJ FamilyCare / Medicaid funding and care coordination through Managed Care Organizations will seamlessly deliver whole-person care while augmenting existing funding programs for the housing insecure.

Housing Supports Program Services

The Housing Supports program consists of 4 services:

- Pre-tenancy Services (case management)
- Tenancy Sustaining Services (case management)
- Move-in Supports
- Residential Modification and Remediation Services

To be considered eligible for the Housing Supports program an individual must meet each of the following:

- Enrolled with an MCO

- Meet at least one social-risk criteria (homeless, at-risk of homelessness, transitioning from an institution, or recently released from correctional facilities)

Meet at least one clinical-risk criteria (such as: chronic health condition, mental health condition, substance misuse, pregnancy, complex medical health due to disability, sexual/domestic violence, assisted living needs, repeated emergency use/hospitalization).

For detailed information on the Housing Supports program, please see the [NJ FamilyCare Provider Guidance](#).

What services will be provided?

- Pre-tenancy Services (finding and applying for housing)
 - Case management services to support members in obtaining housing
 - Develop an individualized housing support plan to help member achieve their goals
 - Assist with the housing search and application process
 - Provide connections to resources aiding with housing costs and other expenses
- Tenancy Sustaining Services (staying in housing)
 - Case management services to support members in obtaining housing
 - Maintain an individualized housing support plan to help member achieve their goals
 - Assist with lease renewals and housing certification process
 - Connect the member to financial resources and social services, including linking members to education, employment and legal services
 - Assist in addressing circumstances and/or behaviors that may jeopardize housing
 - Assist in resolving disputes with landlords
- Move-in Supports (set up and transition services)
 - Pay for the setup of the new housing unit, to address needs identified in the person-centered care plan
 - Can include application fees, security deposit, purchasing of ID cards or Birth Certificate for housing applications, set up fees or deposits for utility services
 - Pay for the move and supporting the details of the move

- Can include moving expenses, furniture, household items, personal care items, (excludes recreational items such as televisions, cable television access or video players)
- Residential Modification and Remediation Services (modifying housing)
 - Provide remediation services including air filtration devices, asthma remediation
 - Modify home environment to promote greater independence (e.g. widening of egresses, installing ramps, grab bars, handrails, converting tub-showers to walk-in showers)
 - Provide medically necessary heating and cooling services
 - Can include services necessary for the individual's health and safety such as pest eradication, mold removal, deep-cleaning prior to move-in

What services will not be provided?

- Ongoing payment for rent or mortgage, ongoing payment for utility services or food
- Funding for housing production
- Provision of or payment for housing vouchers

Criteria to be eligible for Housing Supports Services

Including but not limited to:

- Enrolled with an MCO and NJ FamilyCare / Medicaid Eligible
- Meet at least one of the social-risk criteria
 - Homeless, defined as an individual who lacks a fixed, regular, and adequate nighttime residence including a car, park, abandoned building, bus/train station or campground, living in a supervised publicly or privately operated shelter including transitional housing, hotels/motels, or residing in an emergency shelter or place not meant for human habitation prior to entering institution for a period of 90 days or less
 - At-risk of homelessness, defined as an individual or family who meets one of the following conditions: has moved due to economic reasons, living with others due to economic hardship, has been issued an eviction notice, lives in a hotel/motel, lives in a single-room occupancy with more than 2 persons, exiting a publicly funded institution

- Individuals at risk of institutionalization (qualifying institutions include: hospitals, mental health residential treatment facilities, SUD treatment facilities, and long-term care facilities)
- Individuals transitioning from an institution to the community
- Individuals released from correctional facilities within the last 12 months
- Meet at least one of the clinical-risk criteria
 - Has one or more chronic health conditions (e.g. diabetes, cardiovascular disease, respiratory disease, HIV/AIDS, hypertension, physical disability, cancer)
 - Has a mental health condition that is impacting the ability to maintain a stable housing situation (e.g. Bipolar Disorder, Borderline Personality Disorder, Depression, OCD, PTSD, Schizophrenia, Eating Disorders)
 - Has a substance use disorder who is in need of substance use treatment
 - Pregnancy (can include: currently pregnant, 2 month post-partum, 3–12 months post-partum and a has, history of, or at risk for infection due to high risk pregnancy, pregnancy related death, history of complications including gestational diabetes, preterm birth, placental abruption, newborn low birth weight, stillbirth, abuse or interpersonal violence, malnutrition, maternal low birth weight of <2500 grams, multiple pregnancy, a mental health condition, or significant life stress, adversity or trauma)
 - Has a complex medical health condition caused by an intellectual or developmental disability
 - Is an individual experiencing intimate partner violence, domestic violence, and/or victim of human trafficking
 - Requires assistance with 1 or more activities of daily living (ADLs) or 3 or more instrumental ADLs (IADLs) and has a behavioral health condition or cognitive impairment
 - Is an individual with repeated emergency department use or hospital admissions (e.g. 2 or more visits in past 6 months or 4 or more visits in the past 12 months)

Who will provide these services?

Organizations that have the expertise to deliver the pre-tenancy and tenancy-sustaining services including:

- Housing providers including shelters and permanent supportive housing organizations
- Community-based organizations
- Social-service agencies
- Case management organizations

Organizations that have the expertise to deliver the residential modification and remediation services and including:

- Home contractors

Organizations that have the expertise to deliver the Move-in Support services including:

Housing providers and Home Contractors as listed in previous categories and MCOs who can pay directly for move-in supports

Authorizations

Authorizations are required for all Housing Supports services, regardless of whether the provider participates with UnitedHealthcare Community Plan New Jersey.

Requests for prior authorization can be sent via our preferred method fax 1-855-583-4041 or 1-855-489-1553 or email NJ_HousingSpecialist@uhc.com. The fax form can be found at [UnitedHealthcare Community Plan of New Jersey long-term care prior authorization fax request form](#).

Claims

To submit a claim, there are 3 options for submission:

1. Paper – HCFA 1500

You can mail paper claims to the address on the back of the member ID card, which is:

Mailing address:

UnitedHealthcare Community Plan
P.O. Box 5250
Kingston, NY 12402-5250

Allow up to 30 days for UnitedHealthcare Community Plan to receive payment for initial claims and adjustment requests.

2. EDI through your clearinghouse

- You can select any clearinghouse with a connection to UnitedHealthcare to exchange EDI transactions
- The 835 Payer ID for UnitedHealthcare Community Plan of New Jersey is 86047
- We interact with many clearinghouses and don't endorse a specific one. However, most of our transactions go through Optum Insight, a clearinghouse owned by Optum, an affiliate of UnitedHealthcare. Optum also interacts with many clearinghouses.

3. UnitedHealthcare Provider Portal

From the **UnitedHealthcare Provider Portal**, select Claims & Payments > Then "Submit a Claim" > Enter the patient information and Submit Search > The claim form will appear. Complete all the required fields, Scrolling down through each section > Complete General Claim Information section > Diagnosis and Service Details > Provider Information > After completing, you would submit online and get an immediate confirmation.

Live chat

Chat with us 7 a.m.–7 p.m. CT, Monday–Friday from the **UnitedHealthcare Provider Portal**.

Becoming a provider

Pre-tenancy and tenancy providers: If you offer move-in supports and are interested in becoming a participating provider, you can start the approval process by completing a [credentialing application](#). For more information, please visit the [Camden Coalition website](#).

Completed applications can be sent by email to hcbsprovidernetwork@uhc.com.

In the subject line, please state the organization's name, Housing Supports – Application Submission.

Home modification and remediations providers:

If you offer move-in supports and are interested in becoming a participating provider, please email hcbsprovidernetwork@uhc.com for more information or to request a credentialing application.

Please include the following in your request:

- Subject line: Credentialing Application Request
- Organization's Name
- Tax ID number (TIN)
- National Provider Identifier (NPI) Number
- Housing supports services provided

Additional resources

- **Housing Supports Provider Quick Reference Guide**
- **Housing services, support and assistance**

Healthy Homes

We place members in Healthy Homes units according to the Healthy Homes Program Guidance issued by DMAHS. We identify and prioritize Members for placement in units within the timeframes identified in Healthy Homes Program Guidance. We also assist members in completing needed housing assessments and applications including acquiring necessary documentation and confirm member eligibility for Healthy Homes and the chosen housing unit. Our Housing Specialist and Care Coordination team support members in their housing transition into a Healthy Homes unit. They liaise with landlords as needed throughout the identification, placement and support processes. We communicate regularly with DMAHS to support the Healthy Homes program function which includes quarterly reports on member status to the DMAHS Office of Managed Healthcare. Housing Support Services are supported by guidance from the State of New Jersey Healthy Homes Program.

Service codes				
Service	Rate structure	HCPCS code	Service description	Modifier
Pre-tenancy services: Lower level of need	Per member per month per 30 days	H0044	Case management services to support members in obtaining housing; 'higher need' services require greater intensity of services by provider.	U1
			Higher level of need.	U3
Tenancy sustaining services	Per member per month per 30 days	H0044	Lower level of need.	U4
			Higher level of need.	U6
Move-in supports	Cost-based reimbursement up to a cap.	T2038	Housing Supports Move-in Supports.	U1
	Payment for administration.	T2038	Housing Supports Move-in Supports.	U6
Residential modification and remediation services	Cost-based reimbursement up to a cap.	S5165	Housing Supports modification services.	U2
			Housing Supports remediation services.	U3
	Payment for evaluation.	T1028	Housing Supports modification and remediation service.	No modifier

Chapter 8: Women's health, maternity and perinatal management

The programs in this chapter relate to New Jersey's efforts to address perinatal risk assessment, early elective delivery, centering, lactation and doula services.

Refer to Chapter 2: Care provider standards and policies for your responsibilities as a care provider.

Family planning

Family planning services are preventive health, medical, counseling and educational services that help members manage their fertility and achieve the best reproductive and general health. Members may access these services without a referral. They may also seek family planning services from the care provider of their choice. The following services are included:

- Annual gynecological examination
- Annual pap smear
- Contraceptive supplies, devices and medications for specific treatment
- Contraceptive counseling
- Laboratory services

Blood tests to determine paternity are covered **only** when the claim indicates tests were necessary for legal support in court.

Non-covered items include:

- Reversal of voluntary sterilization
- Hysterectomies for sterilization
- In-vitro fertilization, including:
 - GIFT (Gamete intrafallopian transfer)
 - ZIFT (zygote intrafallopian transfer)
 - Embryo transport
- Infertility services, if given to achieve pregnancy

Note: Diagnosis of infertility is covered. Treatment is not.

 - Morning-after pill. Contact New Jersey Medicaid to verify state coverage.

Parenting/childbirth education programs

- Childbirth education is covered
- Parenting education is not covered

Voluntary sterilization

In-network treatment with consent is covered. The member needs to give consent 30 days before surgery, be mentally competent and be at least 21 years old at the time of consent for:

- Tubal ligation
- Vasectomy

Out-of-network services require prior authorization.

For more information on sterilization go to: UHCprovider.com/njcommunityplan > **Provider Forms and References** > Hysterectomy and Sterilization Procedures and Consent Forms.

Healthy First Steps

Healthy First Steps® (HFS) strives to:

- Increase early identification of expectant mothers and facilitate case management enrollment
- Assess the member's risk level and provide member-specific needs that support the care provider's plan of care
- Help members understand the importance of early and ongoing prenatal care and direct them to receiving it
- Multidisciplinary support for pregnant women to overcome social and psychological barriers to prenatal care
- Increase the member's understanding of pregnancy and newborn care
- Encourage pregnancy and lifestyle self-management and informed healthcare decision-making
- Encourage appropriate pregnancy, postpartum and infant care provider visits
- Foster a care provider-member collaboration before and after delivery as well as for non-emergent settings
- Encourage members to stop smoking with the NJ Quitline® tobacco program
- Help identify and build the mother's support system including referrals to community resources and pregnancy support programs

Program staff act as a liaison between members, care providers, and UnitedHealthcare for care coordination.

Mammogram screenings

New Jersey requires an annual mammography for women aged 40 and older. We support access to mammography through member education and by encouraging members to self-refer for these screenings.

Maternity/pregnancy/well-childcare

Pregnant members should receive care from UnitedHealthcare Community Plan care providers only. We consider exceptions to this policy if:

- The woman is in her second or third trimester of pregnancy when she became a UnitedHealthcare Community Plan member, and
- If she has an established relationship with a nonparticipating obstetrician

UnitedHealthcare Community Plan must approve all out-of-plan maternity care. A UnitedHealthcare Community Plan member does not need a referral from her PCP for OB/GYN for care. Perinatal home care services are available for UnitedHealthcare Community Plan members when medically necessary.

Notify UnitedHealthcare Community Plan immediately of a member's confirmed pregnancy to help ensure appropriate follow-up and coordination by the Healthy First Steps program.

Access the digital Notification of Pregnancy form through the UnitedHealthcare Provider Portal at **UHCprovider.com**. You may also call Healthy First Steps at **1-800-599-5985**.

Perinatal risk assessment form requirement for pregnancy notification

Perinatal risk assessment form requirement for pregnancy notification trimester assessments for Medicaid Managed Care members through PRA Connect on <https://praconnect.org>. Submit the Perinatal Risk Assessment Form electronically within 1 week after the member's first visit and third trimester appointments. If you do not submit data for these members, you won't be reimbursed for prenatal services.

When you let us know you're providing these services, our maternity care management teams help the member achieve better birth outcomes.

If you have any questions or need assistance, please connect with our PRA team at praconnect@fhiworks.org or 1-856-665-6000.

Submitting the perinatal risk assessment form online

If you are new to PRA Connect, go to praconnect.org and click on About > Forms > [PRA Connect User Registration](#). Once you've registered, go to "Login" for contact information.

To view the first visit and third trimester Perinatal Risk Assessment forms, go to praconnect.org > About > Forms > PRA First Visit (FV) or PRA First Visit (FV) Spanish > PRA Third Trimester (3TM) or PRA Third Trimester (3TM) Spanish.

If you have any questions or need assistance, please connect with our PRA team at praconnect@fhiworks.org or 1-856-665-6000.

Early elective delivery reimbursement

Non-medically indicated early elective deliveries (EEDs) performed at a hospital on a pregnant woman earlier than 39 weeks of gestation will not be reimbursed by the NJ FamilyCare/Medicaid Program.

Based on the American College of Obstetricians and Gynecologists (ACOG), non-medically indicated EEDs performed before 39 weeks of gestation carry risks for both babies and mothers. A non-medically indicated EED means the artificial start of the birth process through medical interventions or other methods, or the surgical delivery of a baby by cesarean section for reasons not consistent with established ACOG standards of clinical care. An EED is not justified solely by maternal request, availability of effective pain management, facility, or provider scheduling issues. The ACOG states the following risks of EEDs:

- Higher incidences of neonatal intensive care unit admissions
- Pneumonia
- Longer hospital stays for infants
- Unsuccessful inductions resulting in a cesarean section, which can lead to infections, bleeding and anesthesia complications for mothers

Prior authorization

Scheduled EEDs due to medical necessity require an approved prior authorization or submitted notification. For information on how to submit electronically, visit [UHCprovider.com/priorauth](https://uhcprovider.com/priorauth) or call Provider Services at **1-888-362-3368**.

Claim submissions

Obstetricians, midwives, hospitals and clinics requesting NJ FamilyCare/Medicaid reimbursement for a labor and delivery claim must report an ICD-10-CM diagnosis code indicating the week of gestation (ICD-10-CM category code Z3A). Claims submitted without this diagnosis code will be denied. Any claim reporting a week of gestation ICD-10-CM diagnosis code of less than 39 weeks without one of the following diagnosis codes will also be denied: O10, O11, O12, O13, O14, O15, O16, O24, O30, O31, O33, O35, O36, O42, O43, O44, O45, O71 or R03. The following CPT® codes are considered for non-eligibility of claims reimbursement:

- 59409 – Vaginal delivery only
- 59514 – Cesarean delivery only
- 59612 – Vaginal delivery only, after previous cesarean delivery
- 59620 – Cesarean delivery only, following attempted vaginal delivery after previous cesarean delivery

Patient education

Share educational materials with your patients to help them understand the risks associated with EEDs. Find more information and patient education resources at nichd.nih.gov > Health > National Child and Maternal Health Program > Initiatives > [Is It Worth It?](#)

Doulas

Doulas cannot replace a trained, licensed medical professional or perform clinical tasks. Doulas serving NJ FamilyCare/Medicaid members should provide culturally competent care that supports the racial, ethnic and cultural diversity of members. In addition to providing direct services, doulas may also assist members with community-based services that may help improve health outcomes.

Doula care is covered when performed by a network provider. For doula coverage, care is available through 180 days after the birth event. Prior authorization is not required for doula services.

All in-network and out-of-network doulas must be enrolled as fee-for-service providers with the Division of Medical Health and Assistance & Health Services (DMAHS) and have the ability to serve fee-for-service NJ Family Care Medicaid members. Perinatal care providers are encouraged to work with our doula network to provide care to pregnant members.

Doula providers interested in joining the NJ FamilyCare/ Medicaid network should visit the State of New Jersey's Doula Care website at state.nj.us/humanservices > Divisions > Division of Medical Health and Assistance & Health Services (DMAHS) > Information for Providers & Stakeholders: Contracts, Legal Notices > [Doula Care Benefit](#).

Lactation consultants

For lactation consultant care, care is available for the duration of breastfeeding as defined by the member. Lactation consultant care can be also provided telephonically and may use group modalities. These requirements for lactation consultant coverage do not apply to care provided by birthing facility as part of labor and delivery inpatient stay. That lactation consultant coverage will be reimbursed as part of the facility fee and shall not be separately reimbursable. All in-network and out-of-network lactation consultants must be enrolled as fee-for-service providers with the Division of Medical Health and Assistance & Health Services (DMAHS) and have the ability to serve fee-for-service NJ Family Care Medicaid members.

Maternity admissions

All maternity admissions require notification. Days in excess of 48 hours for vaginal deliveries and 96 hours for C-section require clinical information and medical necessity review.

Submit maternity admission notification by using the EDI 278N transaction at [UHCprovider.com/edi](https://uhcprovider.com/edi), the online Prior Authorization and Notification tool at [UHCprovider.com/priorauth](https://uhcprovider.com/priorauth), or by calling Provider Services at **1-888-362-3368**.

Provide the following information within 1 business day of the admission:

- Date of admission
- Member's name and Medicaid ID number
- Obstetrician's name, phone number, care provider ID
- Facility name (care provider ID)
- Vaginal or cesarean delivery

If available at time of notification, provide the following birth data:

- Date of delivery
- Sex
- Birth weight
- Gestational age
- Baby name

If the member is inpatient longer than the federal requirements, a prior notification is needed. Non-routine newborn care (e.g., unusual jaundice, prematurity, sepsis, respiratory distress) is covered but requires prior authorization. Infants remaining in the hospital after mother's discharge require separate notification and will be subject to medical necessity review. The midwife (CNM) must be a licensed registered nurse recognized by the Board of Nurse Examiners as an advanced practice nurse (APN) in nurse-midwifery and certified by the American College of Nurse-Midwives.

A CNM must identify a licensed care provider or group of care providers with whom they have arranged for referral and consultation if complications arise.

Furnish obstetrical maternity services on an outpatient basis. This can be done under a physician's supervision through an NP, PA, or licensed professional nurse. If handled through supervision, the services must be within the staff's scope of practice or licensure as defined by state law.

You do not have to be present when services are provided. However, you must assume professional responsibility for the medical services provided and help ensure approval of the care plan.

Obstetrical admissions

We consider all full-term maternity admissions to be scheduled admissions. Notify us as soon as a pregnancy is confirmed.

Post maternity care

UnitedHealthcare Community Plan covers post-discharge care to the mother and her newborn. Post-discharge care consists of a minimum of 2 visits, at least 1 in the home, according to accepted maternal and neonatal physical assessments. These visits must be conducted by a registered professional nurse with experience in maternal and child health nursing or a care provider. The first post-discharge visit should occur within 24-48 hours after the member's discharge date. Prior authorization is required for home health care visits for post-partum follow-up. The attending care provider decides the location and post-discharge visit schedule.

Newborn admissions

The hospital must notify Provider Services prior to or upon the mother's discharge, if the baby stays in the hospital after the mother is discharged.

Our Health Services Department conducts concurrent review of the newborn's extended stay. The hospital should make available the following information:

- Date of birth
- Birth weight
- Sex
- Any congenital defect
- Name of attending neonatologist

Newborn enrollment

The hospital is responsible to notify the county of all deliveries, including UnitedHealthcare Community Plan members (provided the mother was admitted using her health plan ID card).

The hospital provides enrollment support by providing required birth data during admission.

Hysterectomies

Hysterectomies cannot be reimbursed if performed for sterilization. Members who get hysterectomies for medical reasons must be told, orally and in writing, they will no longer be able to have children.

All hysterectomy claims (surgeon, assistant surgeon, anesthesiologist, hospital) must be accompanied by a consent form. The member should sign and date the form stating she was told before the surgery that the procedure will result in permanent sterility.

Find the form on **UHCprovider.com/njcommunityplan > Provider Forms and References > Hysterectomy and Sterilization Procedures and Consent Forms.**

For more information on sterilization go to:
UHCprovider.com/njcommunityplan > Provider Forms and References > Hysterectomy and Sterilization Procedures and Consent Forms.

Exception: New Jersey DHS does not require informed consent if:

1. As the care provider performing the hysterectomy, you certify in writing the member was sterile before the procedure. You must also state the cause of the sterility.
2. You certify, in writing, the hysterectomy was performed under a life-threatening emergency in which prior acknowledgment was not possible. Include a description of the emergency.

UnitedHealthcare Community Plan requires, along with your claim, a copy of the signed medical assistance hysterectomy statement. Mail the claim and documentation to claims administration identified on the back of the member's ID card. Reimbursement is made upon completion of documentation requirements and UnitedHealthcare Community Plan review. The member may not be billed if consent forms are not submitted.

Pregnancy termination services

Pregnancy termination services are not covered, except in cases to preserve the woman's life. In this case, follow the New Jersey consent procedures for abortion.

Allowable pregnancy termination services do not require a referral from the member's PCP. Members must use our care provider network.

Sterilization and hysterectomy procedures

Reimbursement for sterilization procedures are based on the member's documented request.

This policy helps ensure UnitedHealthcare Community Plan members thinking about sterilization are fully aware of the details and alternatives. It also gives them time to consider their decision. In addition, the State Medical Assistance Program must have documented evidence that all the sterilization requirements have been met before making a payment. The member must sign the Medical Assistance Consent Form at least 30 days, but not more than 180 days, before the procedure. The member must be at least 21 years old when they sign the form.

The member must not be mentally incompetent or live in a facility treating mental disorders. The member may agree to sterilization at the time of premature delivery or emergency abdominal surgery if at least 72 hours have passed since signing the consent form. However, in the case of premature delivery, they must have signed the form at least 30 days before the expected delivery date. If the requirements are not met for both sterilization procedures and hysterectomies, UnitedHealthcare Community Plan cannot pay the care provider, anesthetist, or hospital.

Sterilization informed consent

A member has only given informed consent if the New Jersey Medical Assistance Consent Form for sterilization is properly filled out. Other consent forms do not replace the Medical Assistance Consent Form. Be sure the member fully understands the sterilization procedure and has been told of other family planning options. Informed consent may not be obtained while the member is in labor, seeking an abortion, or under the influence of alcohol or other substances that affect awareness.

Sterilization consent form

Use the consent form for sterilization:

- **Complete all applicable sections of the form.**
Complete all applicable sections of the consent form before submitting it with the billing form. The New Jersey Medical Assistance Program cannot pay for sterilization procedures until all applicable items on the consent form are completed, accurate and follow sterilization regulation requirements.
- Your statement section should be completed after the procedure, along with your signature and the date. This may be the same date of the sterilization or a date afterward.

If you sign and date the consent form before performing the sterilization, the form is invalid.

- The state's definition of "shortly before" is not more than 30 days before the procedure. Explain the procedure to the member within that time frame. However, do not sign and date the form until after you perform the procedure.

Find the form on [UHCprovider.com/njcommunityplan](https://uhcprovider.com/njcommunityplan) > **Provider Forms and References > Hysterectomy and Sterilization Procedures and Consent Forms.**

Have 3 copies of the consent form:

1. For the member.
2. To submit with the Request for Payment form.
3. For your records.

Neonatal intensive care unit case management

The neonatal intensive care unit (NICU) case management program manages inpatient and post-discharge NICU cases to improve outcomes and lower costs. Our dedicated team of NICU case managers, social workers and medical directors offer both clinical care and psychological services.

The NICU case management program helps ensure NICU babies get quality of care and efficiency in treatment. Newborns placed in the NICU are eligible upon birth. High-risk newborns placed in the NICU are eligible upon birth for NICU case management services.

The NICU case management team works closely with neonatal resource services (NRS) team neonatologist and utilization management nurses, health plan registered nurses and social worker care managers to support and coordinate needed care for NICU infants and their families, as appropriate.

Oncology

Prior authorization

For information about our oncology prior authorization program, including radiation and chemotherapy guidelines, requirements and resources, go to [UHCprovider.com/priorauth](https://uhcprovider.com/priorauth) > **Oncology**. Or call Optum at **1-888-397-8129** Monday-Friday 7 a.m.-7 p.m. CT.

Chapter 9: Value-added services

Key contacts

Provider Services	UHCprovider.com	1-888-362-3368
Healthy First Steps Rewards		1-800-599-5985

Adult pain management/ chiropractic services

Evidence-based medicine supports chiropractic care to help lower back pain. In some cases, a visit to the chiropractor can reduce or eliminate the need for pain medication. It can even help combat opioid addiction and overuse.

We provide members older than 21 with up to 6 visits per calendar year with an in-network chiropractor. This benefit does not need prior authorization.

Follow these steps to access the fee schedules online:

1. Go to myoptumhealthphysicalhealth.com.
2. Enter your provider ID and password.
3. Click “Tools & Resources”.
4. Click “Plan Summaries” or “Fee Schedules”.

For more information on chiropractic care, go to myoptumhealthphysicalhealth.com or call 1-800-873-4575.

Chronic condition management

We use educational materials and newsletters to remind members to follow positive health actions such as immunizations, wellness and EPSDT screenings. For those members with chronic conditions, we provide specific information, including recommended routine appointment frequency, necessary testing, monitoring and self-care through our disease management (DM) program. All materials are based upon evidence-based guidelines or standards. All printed materials are written at a fifth grade reading level. They are available in English as well as other languages. The materials are designed to support members as they begin to take responsibility for their health. They provide information necessary to successfully manage their condition and live a healthy lifestyle.

NurseLine

NurseLine is available at no cost to UHC Dual Complete NJ-Y001 (HMO D-SNP) and MLTSS members at any time. Members may call NurseLine to ask if they need to go to the urgent care center, the ER or to schedule an appointment with their PCP. Our nurses also help educate members about staying healthy. Call **1-877-440-9407**, TTY **711** to reach a nurse.

NJ Quitline

Using a mix of medication support, phone-based coaching and web-based learning tools, the NJ Quitline® program helps NJ FamilyCare members quit tobacco use. NJ FamilyCare members can visit the New Jersey Quitline website at njquitline.org or call 1-866-657-8677 for free help and support.

State-funded programs

The state also has programs, such as Women, Infants, and Children Supplemental Nutrition programs (WIC) to help with nutritional needs for low-income families.

To find a location, visit nj.gov/health > Offices & Programs > Family Health > Women, Infants, and Children (WIC).

UHC doctor chat - virtual visits

Some members will have access to UHC doctor chat, an innovative, chat-first platform supported by live video to connect with a doctor from their computer or mobile device for non-emergent care. A board-certified emergency medicine physician will assess the severity of the enrollee’s situation, provide treatment (including prescriptions) and recommend additional care. Virtual visits can improve access to care, reduce health disparities and reduce avoidable use of the ED. This program highlights our commitment to bring forward looking for solutions to expand and deliver access to care.

Chapter 10: Dental

The following text is based on the **UnitedHealthcare Community Plan Dental Provider Manual for NJ FamilyCare**. For a list of covered dental benefits, please refer to Section 4: Member Benefits / Exclusions and Limitations in the Dental Provider Manual. The benefit grid can also be found in Chapter 3: Care provider office procedures and member benefits under NJ FamilyCare/Medicaid Benefits Grid.

For more detailed information regarding dental, or if you are a dental provider, please refer to the **Dental Provider Manual**. To obtain access to the Dental Provider Manual, go to **UHC Dental** > Under New Jersey, click on **Provider Manual**.

The following guidelines are based on NJ FamilyCare provisions for medically necessary dental services for eligible UnitedHealthcare Community Plan members. UHC Dual Complete NJ-Y001 (HMO D-SNP) members receive Medicare covered dental benefits through their Medicare enrollment and Medicaid benefits through their NJ FamilyCare A enrollment.

All NJ FamilyCare/Medicaid Members: Plans A, B, C, D, ABP, MLTSS and UHC Dual Complete NJ-Y001 (HMO D-SNP) members have the same comprehensive dental benefits which include diagnostic, preventive, restorative, endodontic, periodontal, prosthetic, oral and maxillofacial surgery and other adjunctive general services. Some procedures require prior authorization with documentation of medical necessity. Orthodontic services are age restricted and only approved with documentation of handicapping malocclusion and/or medical necessity.

Dental services are not limited to emergency services. Dental emergency services are a covered benefit which do not require prior authorization. Members that contact you for non-traumatic dental emergencies should be referred to their dentist or to Member Services for assistance for locating a dentist. Member Services can be reached at **1-800-941-4647**.

Role of network dental care providers

Network general dentists and specialty care dentists are involved in a critical role in the dental delivery system, helping ensure that members receive appropriate access, prevention, continuity of care and treatment services. For this reason, all dentists must be available to our members at any time. They are responsible for assisting in the coordination of dental treatment services. Members have open access to network providers.

Comprehensive dental care services may be provided in the dentist's office, a health care facility or hospital-based practice. The dentist is reimbursed on a fee-for-service basis and agrees to maintain standards set forth in their Participating Provider Agreement. Well-maintained dental records provide documentation of care.

All dental diagnoses should be documented by the treating dentist. Comprehensive oral evaluations shall be conducted during a member's initial non-emergency appointment.

The primary care dentist (PCD) should communicate a diagnosis and proposed treatment to the PCP and work together to achieve optimal dental health for our members.

If the member needs specialty care, the PCD can recommend a network specialty dentist. Or the member can self-select a specialist from our provider directory, by visiting myuhc.com/communityplan > **Find a Provider** > Dental Directory > Medicaid Plans. Or they may call Member Services at **1-800-941-4647**.

Find dental providers at **NJ FamilyCare** > Find a Dentist. Our directories include dental providers who:

- Are mobile
- Treat members with disabilities
- Treat children younger than age 6

Primary care physicians and dental treatment

Dental screening by the licensed medical staff in this context means, at a minimum, observation of tooth eruption, occlusion pattern, presence of caries, or oral infection.

- A referral to a dentist by 1 year of age or soon after the eruption of the first primary tooth is mandatory. At a minimum, a dental visit twice a year with follow-up during well-child visits helps ensure that all needed dental preventive and treatment services are provided thereafter through the age of 20.
- A referral to a dental specialist or dentist that provides dental treatment to patients with special needs shall be allowed when a PCD requires a consultation for services by that specialty provider.
- The NJ Smiles Program allows non-dental providers to provide dental risk assessment, anticipatory guidance, fluoride varnish application and dental referral for children through the age of 5 years old. Fluoride varnish treatments should be applied twice yearly.

Primary medical providers or licensed medical staff may refer a member to a general dentist or dental specialist. For a list of general dentists and dental specialists, licensed medical staff may visit myuhc.com/communityplan > Find a Provider > Dental Directory > Medicaid Plans. Or they may call Provider Services at **1-888-362-3368**. General dentists and pediatric dentists that treat patients younger than 6 years may also be found in the provider listing at myuhc.com/communityplan.

Prior authorization

Submit a dental prior authorization request by calling UnitedHealthcare Dental at **1-800-508-4881** or through the provider web portal at UHCprovider.com. You can also mail requests to:

UnitedHealthcare Dental
P.O. Box 2073
Milwaukee, WI 53201

Reference the **UnitedHealthcare Community Plan Dental Provider Manual for NJ Family Care** for more information. For medical/surgical prior authorizations, please see **Chapter 4: Medical management of this medical manual**.

Specialist referral process

If a member needs specialty care, any PCP or dentist may recommend a network specialty dentist, or the member can self-select a participating network specialist. Referrals must be made to qualified specialists who are participating within the provider network. No written referrals are needed for specialty dental care.

For administrative services or a list of participating network specialists, go to UHCprovider.com/findprovider or call UnitedHealthcare Dental at **1-800-508-4881**.

All dental specialists are either New Jersey board-eligible or board-certified for that specialty and have a valid specialty permit. A dentist with certification in the following specialties must have, or have confirmation of application submission of, valid DEA and CDS certificates:

- Endodontics
- Oral surgery/OMFS
- Periodontics
- Prosthodontics

Administration of medical or dental services

UnitedHealthcare Community Plan understands there are services that can be provided by either a dentist or physician. The plan accepts prior authorization and payment requests from either qualified participating physicians or qualified participating oral and maxillofacial surgeons and prosthodontists for procedures that may be considered either medical or dental. These include maxillofacial prosthetics and surgical procedures for fractured jaw or removal of cysts.

Submit medical requests through the physician portal, UHCprovider.com. Send dental requests through the dental portal **UHC Dental** using dental codes.

The following medical services can be performed by either provider type, within the scope of their license:

- Repair of cleft palate
- Cysts removal
- Fractured jaw
- Oral and maxillofacial surgery
- Anesthesia services

Non-dental providers do not perform extractions including impacted teeth. These services (dental codes in the D7000 series) should be treated under the member's dental benefit.

Additional dental services

If oral hygiene instruction needs to be provided to members or their family to help maintain oral health, or if specialized hygiene equipment is needed for members, you must request prior authorization. Use the appropriate miscellaneous procedure code (i.e., D1999) for the authorization request. Include a description of why these services or products are medically necessary for your patient.

The requests will be reviewed by dental consultants licensed in the State of New Jersey who will make determinations based on the information presented and the patient's medical necessity.

American Academy of Pediatrics and American Dental Association oral health risk assessment tools

The American Academy of Pediatrics (AAP) Oral Health Risk Assessment Tool is for the use of licensed medical staff. Developed by the AAP and endorsed by the National Interprofessional Initiative on Oral Health, the Oral Health Risk Assessment (OHRA) Tool is easy to incorporate into any practice. The tool helps medical providers understand the risk factors, protective factors and clinical findings that demonstrate risk of dental caries in young children.

To download copies of the following dental assessment forms from the American Dental Association (ADA) and the AAP, please visit the following links:

- For PCPs – AAP Oral Health Risk Assessment Tool – aap.org
- For PCDs – ADA Caries Risk Assessment Form – ada.org
- For PCDs – ADA Caries Risk Assessment Form older than 6 – ada.org
- NJ Orthodontic Assessment Tool for Comprehensive Treatment HLD (NJ-Mod3) – [Division of Medical Assistance & Health Services > Newsletters & Alerts > DMAHS Newsletter Vol. 32, No. 02.](#)

For copies of these forms, check the **UnitedHealthcare Community Plan Dental Provider Manual for NJ FamilyCare** by visiting **UHC Dental**.

Provision for dental services for members with intellectual and developmental disabilities

We provide access for comprehensive, quality dental services for the special needs member, including access to care in a hospital operating room or ambulatory surgical center. Services include coordinated care and managing dental services to decrease member caries and periodontal disease. The program goals are to:

- Improve special needs members' access to quality comprehensive dental care through a network of care providers with expertise with developmental disabilities.
- Coordinate access and delivery with licensed medical staff and community-based organizations.
- Create dental management services and expanded benefits for comprehensive dental care within the framework of comprehensive total treatment planning and preventive care delivery.

Referrals for dental care provided in an operating room setting

If dental services must be provided in an operating room (OR) setting or ambulatory surgery center due to patient medical necessity, a prior authorization must be obtained. This includes members with special health care needs and children younger than 5 years old. The treating dental provider should submit an authorization to use the OR under CDT Code D9999. Include the name of the facility and an explanation of why an OR is necessary. For step-by-step instructions for the prior authorization process of dental services provided in an OR ambulatory surgery center, refer to the **UnitedHealthcare Community Plan Dental Provider Manual for NJ FamilyCare** on **UHC Dental**.

Special needs members and children under the age of 5 may utilize hospital ORs or an ambulatory surgical center for dental care when medically necessary. Our objectives are:

- The dental care management coordinator monitors linkages with care managers, community-based organizations and licensed medical staff to emphasize preventive education

- Our chief dental officer monitors quality UM and program improvement using national and internally developed benchmark standards
- Provider directories identify dentists that meet the treatment requirements of the special needs member
- The special needs dental coordinator helps members with special needs in all aspects of dental treatment

Requirements:

- The provider network includes dentists that offer expertise in the dental management of enrollees with developmental disabilities
- In addition to the covered services we offer, special needs enrollees have a higher frequency of visits based on the dental risk assessment
- The standard allows up to 4 preventive visits annually without prior authorization
- All other quality UM and improvement benchmark standards are in effect
- Emphasis is placed on partnerships with licensed medical staff, care manager and community organizations
- Informed consent is required from all members with developmental disabilities or authorized legal representative/guardian before all surgical cases are treated in the OR
- The member's care manager coordinates authorizations for dental-required hospitalizations with our dental consultant team
- We review, audit and monitor the special needs program using our UM and quality improvement measures

NJ FamilyCare dental clinical criteria policies

To view the NJ FamilyCare dental clinical criteria policies, visit [UHCprovider.com](https://uhcprovider.com) > Resources > **Health Plans, Policies, Protocols and Guides** > **For Community Plan** > **Dental Clinical Policies and Coverage Guidelines**.

Emergency dental services

Emergency dental services are covered for all members. Use in-network providers when possible. Out-of-network providers may be used if an in-network provider is not available. Emergency Room visits are appropriate for:

- Facial trauma (e.g., fractures, dislocations)
- Severe swelling, infection, or uncontrolled bleeding.

Orthodontic services standards

View current standards and procedures for orthodontic services in the DMAHS Newsletter Vol. 32, No. 02 at njmmis.com under "Newsletters and Alerts:"

Chapter 11: Mental health and substance use

Key contacts

Topic	Link	Phone number
Provider Express	providerexpress.com	1-888-362-3368

United Behavioral Health, operating under Optum, provides UnitedHealthcare Community Plan members with mental health and substance use disorder benefits. The national Optum network manual generally applies to all types of business. Some sections may apply differently based on state law.

Find the UnitedHealthcare Community Plan of New Jersey Behavioral Health Manual on providerexpress.com > **Our Network** > **State-specific provider information** > **New Jersey** > **Provider Training Materials** > **New Jersey Medicaid Provider Manual**.

This chapter does not replace the national Optum network manual. Rather, it supplements the national manual by focusing on Medicaid’s specific services and procedures.

You must have a National Provider Identification (NPI) number to see Medicaid members and receive payment from UnitedHealthcare Community Plan.

To request an ID number, go to the National Plan and Provider Enumeration System website at nppes.cms.hhs.gov > go to the section titled “Create a new account.”

How to join the Optum Behavioral Health network: Call the Provider Services Line at **1-888-362-3368** found on **Provider Express** > **Contact Us**.

Behavioral health coverage

Starting Jan. 1, 2025, the following behavioral health services will be covered for all NJ FamilyCare members enrolled in UnitedHealthcare Community Plan of New Jersey:

- Independent practitioner(s): Psychiatry, APN, Physician Assistant

- Independent practitioner(s): Psychologists, Licensed Clinical Social Workers (LCSWs), Licensed Marriage and Family Therapists (LMFTs), Licensed Professional Counselors (LPCs)
- Independent practitioner(s): Neuropsychologist
- Outpatient Mental Health
- Partial Care (Mental Health)
- Acute Partial Hospitalization/Mental Health Psychiatric Partial Hospitalization
- Ambulatory Withdrawal Management with Extended On-Site Monitoring/Ambulatory Detoxification ASAM 2-WM
- Peer Recovery Support Services (PRSS) provided by Independent Clinics Drug/Alcohol
- Substance Use Disorder Care Management
- Substance Use Disorder Intensive Outpatient (IOP) ASAM 2.1
- Substance Use Disorder Outpatient (OP) ASAM 1
- Substance Use Disorder Partial Care (PC) ASAM 2.5

Prior authorization is required through UnitedHealthcare Community Plan of New Jersey. Please call the number on the member’s health plan ID card when referring for mental health and substance abuse/substance use services.

Refer to in-network providers

Members should use and be referred to in-network behavioral health providers for the above services. Instructions on how to find in-network behavioral health providers are available in our **Behavioral Health Provider Lookup Guide**.

NJ FamilyCare MLTSS and DDD and UHC Dual Complete NJ-Y001 (HMO D-SNP) members must use participating care providers listed in the provider directory. UHC Dual Complete NJ-Y001 (HMO D-SNP) members receive mental health and substance use services through us. UHC Dual Complete NJ-Y001 (HMO D-SNP) members get their Medicare-covered mental health and substance use services through us as well.

Submit Medicaid-covered mental health and substance use services to NJ Medicaid FFS unless the service is MCO covered as detailed in the next section. The claims are then sent to us.

Covered services

We offer covered behavioral health services for mental, emotional and substance use disorders. Behavioral health (BH) is defined as emotions and behaviors that affect a person's overall well-being. Services include those provided to beneficiaries with mental health and/or substance use needs. Mental health (MH) services include, but are not limited to, comprehensive intake evaluation; off-site crisis intervention; family therapy; family conference; case management; programs of assertive community treatment, inpatient treatment and medication management. Substance use disorder (SUD) services include, but are not limited to, inpatient medical detoxification; outpatient (non-medical) detoxification, partial care; intensive outpatient (IOP); opioid treatment services; and short-term rehabilitation.

We offer care management to help members, clinicians and PCPs using and offering behavioral health services. We provide information and tools for mental health and substance use diagnoses, symptoms, treatments, prevention and other resources in one place.

liveandworkwell.com includes mental health and well-being information, articles on health conditions, addictions and coping and provides an option for members to take self-assessments on a variety of topics, read articles and locate community resources.

For member resources, go to providerexpress.com > **Clinical Resources** > **Behavioral Health Toolkit for Medical Providers**. This page includes tools to help members addressing mental health and substance use issues. You can also use the Search tool bar to search by word or topic.

Benefits include:

- Autism Spectrum Disorder (ASD)
 - Applied Behavioral Analysis (ABA)
 - Developmental Services
 - Developmental Individual Difference Relationship-Based Intervention/Floortime (DIR)
 - Developmental Relationship-Based Intervention (DRBI)
 - Naturalistic Developmental Behavioral Intervention (NDBI)
- Crisis stabilization services (includes treatment crisis intervention)
- Inpatient psychiatric hospital (acute and sub-acute)
- MH services
 - Acute partial hospitalization mental health/psychiatric partial hospitalization
 - Independent practitioner(s): Psychiatry, APN, Physician Assistant
 - Independent practitioner(s): Psychologists, Licensed Clinical Social Workers (LCSWs), Licensed Marriage and Family Therapists (LMFTs), Licensed Professional Counselors (LPCs)
 - Independent practitioner(s): Neuropsychologist
 - Inpatient psychiatric hospital care
 - Outpatient mental health clinic/hospital services
 - Partial care
- Psychiatric residential treatment facility
- Substance use disorder services
 - Ambulatory withdrawal management with extended on-site monitoring/ambulatory detoxification ASAM 2 – WM
 - Care management (SUD)
 - Independent practitioner(s) substance use disorder (licensed MD or SUD professionals authorized by their state licensing board)
 - Inpatient medical detox/medically managed inpatient withdrawal management (hospital) ASAM 4 and ASAM 4WM (covered for all populations by the MCO)
 - Substance use disorder intensive outpatient (IOP) ASAM 2.1
 - Medication assisted treatment: opioid treatment services (methadone maintenance)/opioid treatment services (non-methadone maintenance)
 - Peer Recovery Support Specialists (PRSS)
 - Substance use disorder outpatient (OP) ASAM 1
 - Substance use disorder partial care (PC) ASAM 2.5

In addition, we cover the following services for members enrolled in MLTSS, Division of Developmentally Disabled (DDD) and UHC Dual Complete NJ-Y001 (HMO D-SNP) plans.

In addition, MLTSS, DDD and FIDE SNP have:

- MH services
 - Adult Mental Health Rehabilitation (AMHR)
- Substance use disorder services
 - Medically Monitored Intensive Inpatient Services/ Short-Term Residential (STR) ASAM 3.7
 - Medically Monitored Intensive Inpatient Services Withdrawal Management ASAM 3.7 – WM
 - Substance Use Disorder Long Term Residential (LTR) ASAM 3.5

Eligibility

Verify the UnitedHealthcare Community Plan member's Medicaid eligibility on day of service before treating them. View eligibility online on the Eligibility and Benefits application on the UnitedHealthcare Provider Portal at UHCprovider.com/eligibility.

Optum Behavioral Health

Optum Behavioral Health gives you resources when members experience mental health or substance use problems. The Optum Behavioral Health Unit is staffed by professionals with extensive experience in mental health and chemical dependence services and is available at any time. It helps care providers:

- Handle member emergencies and requests for inpatient behavioral health admissions
- Assess and refer members to mental health and chemical dependence services
- Reviews, monitors and authorizes behavioral health care

Call Optum Behavioral Health at **1-888-362-3368** to refer a member for behavioral health care. Document behavioral health referrals or requests in the patient's medical record. You may not refer patients to another care provider without notifying Optum Behavioral Health and obtaining prior authorization.

For NJ Medicaid FFS covered services, call the New Jersey Division of Medical Assistance and Health Services (DMAHS) at 1-800-701-0710.

Behavioral health emergencies

If you believe the member is having a psychiatric emergency, call 911. Or direct the member to the designated county screening center or nearest ER. If you are unsure about the member's mental status, call Optum Behavioral Health or Provider Services at **1-888-362-3368**.

Behavioral health guidelines and standards

We use the following diagnostic assessment tools and placement criteria guidelines, consistent with current standards of care:

- DSM-IV (Diagnostic and Statistical Manual of Mental Disorders), 4th edition
- ASAM PPC-3 (American Society of Addiction Medicine)

UnitedHealthcare Community Plan uses InterQual guidelines for appropriateness of care and discharge reviews for mental health services and ASAM patient placement criteria and LOCI for substance use disorder (SUD) services.

Please comply with Timeliness Standards for Appointment Scheduling found in Chapter 2: Care provider standards and policies.

Behavioral health resources for primary care providers

Behavioral health toolkit

Primary care provider's (PCPs) must screen members for behavioral health conditions. As such, we created a behavioral health toolkit to help identify Integrated Care Program (ICP) members who may need behavioral health services. The toolkit provides helpful resource links containing important information about common behavioral health conditions and their treatment. It also assists the PCP in obtaining consultation and/or referral services treating behavioral health conditions. To locate the toolkit, go to [Provider Express > Clinical Resources > Behavioral Health Toolkit for Medical Providers](#).

Clinical practice guidelines

Access clinical practice guidelines (CPGs) related to bipolar disorder, schizophrenia, depression and substance abuse disorders. To locate the toolkit, go to [Provider Express > Clinical Resources > Clinical Criteria and Guidelines](#).

Screening tool

Screen members for depression at phqscreeners.com. If a member screens positive for a behavioral health condition, or you suspect the presence of a behavioral health condition needing further assessment, refer the member to a network behavioral health care provider.

Other resources

- Substance Abuse and Mental Health Services
- National Alliance on Mental Illness (NAMI): nami.org

Authorizations

Members may access all behavioral health outpatient services (mental health and substance use) without a referral. Prior authorization may be required for more intensive services, such as intensive outpatient program; day treatment; or partial, inpatient, or residential care. Help ensure prior authorizations are in place before rendering non-emergent services. To obtain prior authorization, call Provider Services at **1-888-362-3368**. Enter your TIN, select option 3 (intake), enter member ID/DOB and select the option for mental health.

Continuation of outpatient behavioral health services for NJ FamilyCare DDD, MLTSS and UHC Dual Complete NJ-Y001 (HMO D-SNP) Members

Call Optum Behavioral Health at **1-888-362-3368** to submit requests for continued treatment. Optum Behavioral Health evaluates the treatment plan for quality assurance and forwards the treatment plan review to the member's PCP to assure coordination of care. We authorize outpatient treatment for a 3-6-month period depending on treatment intensity.

Collaboration with other care providers

Coordination of care

When a member is receiving services from more than 1 professional, you must coordinate to deliver comprehensive, safe and effective care. This is especially true when the member:

- Is prescribed medication
- Has coexisting medical/psychiatric symptoms
- Has been hospitalized for a medical or psychiatric condition

Please talk to your patients about the benefits of sharing essential clinical information.

Referrals

Behavioral health care providers may not refer patients to another provider without notifying Optum Behavioral Health and obtaining prior authorization.

Care providers referring members for behavioral health services need to provide a copy of the medical consultation and diagnostic results to the mental health (MH)/substance abuse (SA) care provider. You must notify an enrollee's mental health/substance use provider of the findings of the physical examination and laboratory/radiological tests within 24 hours of receipt for urgent cases and 5 business days in non-urgent cases. Notification should be made by phone with follow-up in writing when feasible for services we manage and those managed by Medicaid FFS.

Documentation is required when notifying a member's MH/SA provider of the findings of their physical examination and laboratory/radiological tests within 24 hours of receipt for urgent cases and within 5 business days in non-urgent cases. Notification should be made by phone with follow-up in writing.

Care providers referring members for behavioral health services need to provide a copy of the medical consultation and diagnostic results to the MH/substance abuse (SA) care provider. You must notify an enrollee's mental health/substance use provider of the findings of the physical examination and laboratory/radiological tests within 24 hours of receipt for urgent cases and 5 business days in non-urgent cases.

Notification should be made by phone with follow-up in writing when feasible for services we manage and those managed by Medicaid FFS.

Documentation is required when notifying a member's MH/SA provider of the findings of their physical examination and laboratory/radiological tests within 24 hours of receipt for urgent cases and within 5 business days in non-urgent cases. Notification should be made by phone with follow-up in writing.

PCP referrals are not required for members to access Behavioral Health Services.

Participating behavioral health providers for UnitedHealthcare Community Plan of New Jersey MCO managed services can be obtained by calling 1-888-362-3368 or at the [UnitedHealthcare Community Plan of New Jersey behavioral health provider directory](#).

The following behavioral health services are MCO managed for DDD, MLTSS and FIDE-SNP members only. They are not MCO-managed for Core Medicaid NJ FamilyCare members.

- Mental health services:
 - Adult Mental Health Rehabilitation (AMHR)
- Substance use disorder services:
 - Medically Monitored Intensive Inpatient Services/ Short-Term Residential (STR) ASAM 3.7
 - Medically Monitored Intensive Inpatient Services Withdrawal Management ASAM 3.7-WM
 - Substance Use Disorder Long Term Residential (LTR) ASAM 3.5
 - Opioid Treatment Program (OTP)

When referring Core Medicaid NJ FamilyCare (non-MLTSS, DDD or FIDE-SNP) members for any of the non-MCO managed services above:

- For MH service referrals not managed by the NJ Medicaid MCOs, contact NJ State directly for referral information at 1-800-701-0710 or refer to the website, njmmis.com/faqs.aspx.
- For SUD service referrals not managed by the MCOs, please contact Reach NJ for referral information at 1-844-ReachNJ (1-844-732-2465) or their website, nj.gov/humanservices/reachnj.

For complete detail of MCO-managed and non-MCO managed behavioral health services, please refer to the NJ FamilyCare/Medicaid behavioral health benefits chart in chapter 3.

UnitedHealthcare Community Plan of New Jersey behavioral health care management care coordination services are available to all members for both MCO and non-MCO managed services.

To access UnitedHealthcare Community Plan of New Jersey care management, providers and members can call the Special Needs Hotline at 1-877-704-8871.

Referrals for members with special needs

To find a behavioral health specialist to refer a member with special needs, visit UHCprovider.com/findprovider > [Medical Care Directory](#) > [Medicaid Plans](#) > [New Jersey](#) > (select plan) > Under Looking for Mental Health? Choose [Mental Health Directory - NJ Family Care / Long Term Care \(LTC\)](#). Or call Provider Services at **1-888-362-3368**.

Portal access

You can use the [UnitedHealthcare Provider Portal](#) for all of your online services, including claims, eligibility, prior authorization, referrals and much more. The portal allows you to take action and quickly access claims related information using our digital features and tools. It's a one-stop shop for working with us more efficiently.

Claims

Submit claims using the 1500 Claim Form (v 02/12) or UB-04 form, whichever is appropriate. Use applicable coding, including ICD diagnosis code(s), CPT, Revenue and HCPCS coding. Include all necessary data to process a complete claim. Find out more about filing claims in Chapter 14: Billing and submission.

Monitoring audits

We conduct routine care provider on-site audits. These audits focus on the physical environment, policies and procedures and quality record documentation.

Addressing the opioid epidemic

Combating the opioid epidemic must include prevention, treatment, recovery and harm reduction.

Brief summary of framework

- **Prevention**
 - Prevent OUD before they occur through pharmacy management, care provider practices and education

- **Treatment**

Access and reduce barriers to evidence-based and integrated treatment

- **Recovery**

Support case management and referral to person-centered recovery resources

- **Harm reduction**

Access to Naloxone and facilitating safe use, storage and disposal of opioids

- **Strategic community relationships and approaches**

Tailor solutions to local needs

- **Enhanced solutions for pregnant members and their children**

Prevent neonatal abstinence syndrome and supporting birth parents in recovery

- **Enhanced data infrastructure and analytics**

Identify needs early and measure progress

Increasing education and awareness of opioids

It is critical you are up to date on the cutting-edge research and evidence-based CPGs. We keep OUD related trainings and resources available on our provider portal to help ensure you have the information you need when you need it. For example, state-specific Behavioral Health Toolkits are developed to provide access to CPGs, free SUD/OUD assessments and screening resources and other important state-specific resources. Additionally, Pain Management Toolkits are available and provide resources to help you identify our members who present with chronic physical pain and may also need behavioral health services to address the psychological aspects of pain. Continuing education is available and includes webinars such as, “The Role of the Health Care Team in Solving the Opioid Epidemic,” and “The Fight Against the Prescription Opioid Abuse Epidemic.” While resources are available, we also work to help ensure you have the educational resources you need. For example, our Drug Utilization Review Provider Newsletter includes opioid trends, prescribing and key resources.

Access these resources at UHCprovider.com/njcommunityplan > **Pharmacy Resources and Physician-Administered Drugs**. Click Opioid Program and Resources to find a list of tools and education.

Prescribing opioids

Go to our [Drug Lists and Pharmacy](#) page to learn more about which opioids require prior authorization and if they have prescription limits.

Expanding medication assisted treatment access and capacity

Evidence-based medication assisted (MAT) treatment is central to OUD treatment. MAT takes a chronic condition approach and incorporates medication use in addition to other services, such as counseling, cognitive behavioral therapies and recovery support, to provide a comprehensive approach to OUD. We expand MAT access and help ensure we have an adequate member MAT network.

To find a behavioral health MAT provider in New Jersey:

1. Go to UHCprovider.com/findprovider.
2. Click on “Behavioral Health Directory.”
3. Click on “Medicaid plans.”
4. Select “New Jersey.”
5. Click on the applicable plan name.
6. In the search field, type “Medication Assisted Treatment” and click “Search.”

We contract with OUD Centers of Excellence (where available), which are designated as premier facilities to help ensure people with OUD stay in treatment and receive appropriate follow-up care and supports within their communities.

To find medical MAT providers, see the MAT Section in **Chapter 4: Medical management**.

Office-based addictions treatment attestation

Office-Based Addictions Treatment (OBAT) is the use of medications in combination with navigator services to coordinate counseling and behavioral therapies to treat SUD and OUD. These care providers are registered with the DEA to prescribe OUD treatment. Increasing PCPs’ participation in SUD treatment, particularly MAT, offers an opportunity to improve access and to expand integration of care within NJ FamilyCare. The OBAT program supports care providers by:

- Increasing rates
- Removing prior authorization requirements

- Allowing PCPs to bill the managed care plan for this SUD service when the beneficiary is covered by managed care
- Offering clinical guidance and support

For more information about the OBAT program, refer to the State of New Jersey DHS Division of Medical Assistance & Health Services Newsletter Volume 29 No. 06 dated March 2019 at njmmis.com > [Newsletters and Alerts](#) > Volume 29 No. 06 - Subject: Office Based Addictions Treatment (OBAT) and Elimination of Prior Authorization for MAT for All MAT Providers, as of Jan. 1, 2019. For a copy of the OBAT form, go to UHCprovider.com/njcommunityplan > [Provider Forms and References](#). Under Provider Forms, click on [Medication-assisted treatment and office-based addictions treatment questionnaire and attestation form](#) located at UHCprovider.com/training > State Specific Training > New Jersey.

Prescription abuse

If you suspect a member is misusing or abusing the prescription benefit by obtaining prescriptions from multiple care providers or requesting controlled substances for questionable indications, call the UnitedHealthcare Fraud, Waste and Abuse Hotline at **1-844-359-7736** or **1-877-401-9430**. Also report stolen prescription pads and suspected forged prescriptions to us.

We will investigate the issues and take the appropriate action. This may include reporting the member to the state, enrolling the member in the pharmacy lock-in program and informing the pharmacy network of the activity. The pharmacy lock-in program restricts a member to a single pharmacy for obtaining prescriptions.

Behavioral health integration

Behavioral health (BH) care encompasses mental health (MH) and substance use disorder (SUD) services. Historically, in NJ's Medicaid program (NJ FamilyCare), members' physical health care has been managed by five managed care organizations (MCOs), while certain BH services have been separately covered through fee-for-service (FFS).

To prioritize whole-person care, where both physical and behavioral health services are managed under the same entity, NJ has embarked on a BH Integration initiative.

The 3 main goals for NJ BH integration are:

1. Increase access to services with a focus on member-centered care.
2. Integrate behavioral and physical health for whole person care, with potential to improve healthcare outcomes.
3. Provide appropriate services for members in the right setting at the right time.

As of January 1, 2025, the MCO provides the following outpatient behavioral health services for all MCO enrolled members.

Phase 1 – Outpatient behavioral health services

- MH outpatient counseling
- MH partial hospitalization
- MH partial care in outpatient clinics
- MH outpatient hospital and clinic services
- SUD outpatient counseling
- SUD intensive outpatient
- SUD outpatient clinics (including ambulatory withdrawal management, peer support services, and SUD care management)
- SUD partial care

All behavioral health services inpatient and outpatient are covered for members enrolled in Managed Long-Term Services & Supports (MLTSS), Division of Developmental Disabilities (DDD), and Fully Integrated Dual Eligible Special Needs Plan (FIDE-SNP).

Behavioral health support services

Members receiving BH services will be supported holistically with their mental health and SUD needs across the managed care continuum. If not already enrolled, members may be assessed for BH integration MCO care management services, pairing members with a care manager to help address and coordinate BH needs together with broader health needs. Members can request a care manager by contacting the Member Services or Customer Service number on the back of their health plan/MCO member card.

Privacy regulations

HIPAA privacy regulations offer full federal protection to protect member health care information. These regulations control the internal and external uses and disclosures of such data. They also create member rights.

Access to Protected Health Information

Members may access their medical records or billing Protected Health Information (PHI) either through you or us. If their information is electronic, they may ask that you or we send a copy in an electronic format. They may also ask that a copy of their information be provided to a third party.

Amendment of Protected Health Information

Our members have the right to ask that you or we change Protected Health Information (PHI) they believe to be inaccurate or incomplete. The member request must be in writing and explain why they want the change. You or we must act on the request within 60 days or may extend another 30 days with written notice.

If denying the request, provide certain information to the member explaining the denial reason and actions the member must take.

Accounting of disclosures

Our members have the right to request an accounting of certain disclosures of their PHI, made by you or us, during 6 years prior to the request. This accounting must include disclosures by business associates. It will not include disclosures made:

- For treatment, payment and health care operations purposes
- To members or pursuant to member’s authorization
- To correctional institutions or law enforcement officials
- For which federal law does not require us to give an accounting

Right to request restrictions

Members have the right to ask you to restrict the use and disclosures of their PHI for treatment, payment and health care operations. For example, members may request to restrict disclosures to family members or to others who are involved in their care or payment.

You may deny this request. If you approve restriction, document the request and restriction details. You will be required to abide by the restriction.

Right to request confidential communications

Members have the right to request communications from you or us and be sent to a separate location or other means. You must accommodate reasonable requests, especially if the member states disclosure could endanger them. Requests for confidential communication do not require a member explanation. Keep a written copy of the request.

Member rights and responsibilities

Our Member Handbook for NJFamilyCare and the Summary of Benefits for UHC Dual Complete NJ-Y001 (HMO D-SNP) have sections on member rights and responsibilities. In them, we ask that members treat you with respect and courtesy.

Please refer to the table at the beginning of this chapter for the link to the Member Handbook for NJ FamilyCare. In this guide, the following member rights and responsibilities are published:

Members rights

Members have the right to:

- Be treated with respect, dignity and privacy by UnitedHealthcare and its providers
- Be told about any illness they may have
- Be told of any care or treatment that their PCP feels should be done before anything is done, even if UnitedHealthcare does not cover it. This includes the right to get accurate, easy-to-understand information to help them make good choices about their treatment.
- Refuse treatment as far as the law allows and to know what the outcome may be
- Expect their doctors to keep their records and anything they say private. No information will be released to anyone without their consent, unless required by law.

- Request a current directory of providers in the UnitedHealthcare network to choose their own PCP
- Get needed medical services within a reasonable length of time
- If the member has a baby, they have the right to stay in the hospital for at least 48 hours after the delivery if it is a normal vaginal delivery. If they have a Cesarean section, they may stay in the hospital at least 96 hours after their baby is born.
- File a grievance or an appeal to UnitedHealthcare and get a reply in a timely manner
- Receive information about UnitedHealthcare, its services, its practitioners and providers, member rights and responsibilities and to be informed of UnitedHealthcare rules and any changes that are made
- Make suggestions regarding UnitedHealthcare policies and procedures, including their rights and responsibilities
- Talk about their medical records with their PCP and get a complete copy of those records
- Be informed of all FFS benefits they are eligible for and of all medical services available to them by UnitedHealthcare
- Have an authorized representative of their choice to make medical determinations for them
- Ask for a second opinion about any medical care that their PCP advises them to have
- Know how UnitedHealthcare decides whether a service is covered and/or is medically necessary
- A translator if they need one when they talk to us or one of our providers
- Participate in all decisions about their health care and the development of any plan of care designed for them
- Speak to providers in private and have medical records kept private
- Be free from harm, including unnecessary physical restraints or isolation, excessive medication, physical or mental abuse or neglect
- Be free from hazardous procedures
- Be free from balance billing
- Have services provided that promote a meaningful quality of life and independence for them including living in their own home or another community setting as long as it is medically and socially feasible, and the right to the preservation and assistance of their natural support system

- Receive services without regard to race, religion, color, creed, gender, national origin, political beliefs, sexual orientation, gender identity, marital status or disability
- Obtain information about our provider that includes the provider's education, residency completed, board certification and recertification. To get this information, members may call Member Services at **1-800-941-4647**, TTY **711**.

MLTSS members also have the right to:

- Request and receive information on choice of services available
- Have access to and choice of qualified service providers
- Be informed of their rights prior to receiving chosen and approved services
- Receive services without regard to race, religion, color, creed, gender, national origin, political beliefs, sexual orientation, marital status or disability
- Have access to appropriate services that support their health and welfare
- Assume risk after being fully informed and able to understand the risks and consequences of the decisions made
- Make decisions concerning their care needs
- Participate in the development of changes to their plan of care
- Request changes in services at any time, including add, increase, decrease or discontinue
- Request and receive from their care manager a list of names and duties of any persons assigned to provide services under their plan of care
- Receive support and direction from their care manager to resolve concerns about their care needs and/or grievances about services or providers
- Be informed of and receive in writing facility specific resident rights upon admission to an institutional or residential setting
- Be informed of all the covered/required services the member is entitled to, required by and/or offered by the institutional or residential setting and any charges not covered by the managed care plan while in the facility
- Not to be transferred or discharged out of a facility except for medical necessity; to protect their physical welfare and safety or the welfare and safety of other residents; or because of failure, after reasonable and appropriate notice of non-payment to the facility from available income as reported on the statement of available income for FFS payment

- Have their health plan protect and promote their ability to exercise all rights
- Have all rights and responsibilities forwarded to their authorized representative or court appointed legal guardian

NJ FamilyCare: New Jersey HMO consumer bill of rights

In addition to the rights members have as part of UnitedHealthcare Community Plan, they have other rights as a member of a health plan in New Jersey.

The New Jersey Association of Health Plans is a non-profit association representing leading commercial and Medicaid health care plans in the state. For a list of their Consumer Bill of Rights, visit njahp.org > [Consumer Information](#) > [Consumer Bill of Rights](#).

Member responsibilities

Members should:

- Supply information the organization or practitioners need to provide care
- Understand their benefits so they can get the most value from them
- Show you their Medicaid member ID card
- Prevent others from using their ID card
- Understand their health problems and give you true and complete information
- Ask questions about treatment
- Work with you to set treatment goals
- Follow the agreed-upon treatment plan
- Get to know you before they are sick
- Keep appointments or tell you when they cannot keep them
- Treat your staff and our staff with respect and courtesy
- Get any approvals needed before receiving treatment
- Use the ER only during a serious threat to life or health
- Notify us of any change in address or family status
- Make sure you are in-network
- Follow your advice and understand what may happen if they do not follow it
- Give you and us information that could help improve their health

UHC Dual Complete NJ-Y001 (HMO D-SNP) member rights and responsibilities

UHC Dual Complete NJ-Y001 (HMO D-SNP) members have similar rights and responsibilities. Please refer to the table at the beginning of this chapter for the link to the Summary of Benefits for UHC Dual Complete NJ-Y001 (HMO D-SNP). Following are some of these members' rights and responsibilities published in this guide:

- A right to respect, fairness and dignity. This includes the right to:
 - Get covered services without concern about race, ethnicity, national origin, color, religion, creed, sex (including sex stereotypes and gender identity), age, health status, disability (mental, physical, or sensory), sexual orientation, genetic information, ability to pay or ability to speak English. No health care provider should engage in any practice, with respect to any member that constitutes unlawful discrimination under any state or federal law or regulation.
 - Ask for and get information in other formats (for example, large print, braille, audio) free of charge
 - Be free from any form of physical restraint or seclusion
 - Not be billed by network providers for covered services
 - Have their questions and concerns answered completely and courteously
 - Apply their rights freely without any negative effect on the way UHC Dual Complete NJ-Y001 (HMO D-SNP) or their provider treats them
 - Get information about their health care. This includes information on treatment and their treatment options, regardless of cost or benefit coverage. This information should be in a format and language that they can understand. These rights include getting information on:
 - UHC Dual Complete NJ-Y001 (HMO D-SNP)
 - The services we cover
 - How to get services
 - How much services will cost the member
 - Names of health care providers and care managers
 - Rights and responsibilities
 - Make decisions about their care, including refusing treatment. This includes the right to:
 - Choose a PCP. Members can change their PCP at any time during the year.
- They can call Member Services for UHC Dual Complete NJ-Y001 (HMO D-SNP) at **1-800-514-4911** if they want to change their PCP.
- See a women's health care provider without a referral
 - Get their covered services and drugs quickly
 - Know about all treatment options, no matter what they cost or whether they are covered
 - Refuse treatment as far as the law allows, even if their health care provider advises against it
 - Ask for a second opinion about any health care that their PCP or care team advises them to have. UHC Dual Complete NJ-Y001 (HMO D-SNP) will pay for the cost of their second opinion visit
 - Make their health care wishes known in an advance directive
- Timely access to care that does not have any communication or physical access barriers. This includes the right to:
 - Get timely medical care
 - Get in and out of a health care provider's office. This means barrier-free access for people with disabilities, based on the American with Disabilities Act
 - Have interpreters to help with communication with their doctors, other providers and their health plan
 - Have their Evidence of Coverage and any printed materials from UHC Dual Complete NJ-Y001 (HMO D-SNP) translated into their primary language, or to have these materials read out loud to them if they have trouble seeing or reading. Oral interpretation services will be made available upon request and free of charge.
 - Be free of any form of physical restraint or seclusion that would be used as a means of coercion, force, discipline, convenience or retaliation
 - Seek emergency and urgent care when they need it. This means they have the right to:
 - Get emergency and urgent care services, 24 hours a day, 7 days a week, without prior approval
 - See an out-of-network urgent or emergency care provider, when necessary
 - Confidentiality and privacy. This includes the right to:
 - Ask for and get a copy of their medical records in a way that they can understand and to ask for their records to be changed or corrected
 - Have their personal health information kept private. No personal health information will be released to anyone without their consent, unless required by law.

- Have privacy during treatment
- Make complaints about their covered services or care. This includes the right to:
 - Access an easy process to voice their concerns, and to expect follow-up by UHC Dual Complete NJ-Y001 (HMO D-SNP)
 - File a complaint or grievance against us or our providers. They also have the right to appeal certain decisions made by us or our providers
 - Ask for a state appeal (state fair hearing)
 - Get a detailed reason why services were denied

UHC Dual Complete NJ-Y001 (HMO D-SNP) member responsibilities include:

- Treating others with respect, fairness and dignity. Members should:
 - Treat their health care providers with dignity and respect
 - Keep appointments, be on time and call in advance if they're going to be late or have to cancel
- Give information about them and their health. They should:
 - Tell their health care provider their health complaints clearly and provide as much information as possible
 - Tell their health care provider about themselves and their health history
 - Tell their health care provider that they are a UHC Dual Complete NJ-Y001 (HMO D-SNP) member
 - Talk to their PCP, care manager or other appropriate person about seeking the services of a specialist before they go to a hospital (except in cases of emergency)
 - Tell their PCP, care manager, or other appropriate person within 24 hours of any emergency or out-of-network treatment
 - Notify UHC Dual Complete NJ-Y001 (HMO D-SNP) Customer Service if there are any changes in their personal information, such as their address or phone number
- Make decisions about their care, including refusing treatment. They should:
 - Learn about their health problems and any recommended treatment and consider the treatment before it's performed
 - Partner with their care team and work out treatment plans and goals together

- Follow the instructions and plans for care that the member and their health care provider has agreed to and remember that refusing treatment recommended by their health care provider might harm their health
- Obtain their services from UHC Dual Complete NJ-Y001 (HMO D-SNP). The member should:
 - Get all their health care from UHC Dual Complete NJ-Y001 (HMO D-SNP), except in cases of emergency, urgent care, out-of-area dialysis services, or family planning services, unless UHC Dual Complete NJ-Y001 (HMO D-SNP) provides a prior authorization for out-of-network care
 - Not allow anyone else to use their UHC Dual Complete NJ-Y001 (HMO D-SNP) Member ID Card to obtain health care services
 - Notify UHC Dual Complete NJ-Y001 (HMO D-SNP) when they believe that someone has purposely misused UHC Dual Complete NJ-Y001 (HMO D-SNP) benefits or services

For a detailed list of the UHC Dual Complete NJ-Y001 (HMO D-SNP) member Rights and Responsibilities, visit UHCCommunityPlan.com/nj > UHC Dual Complete NJ-Y001 (HMO D-SNP) > Downloadable Resources > Evidence of Coverage.

Our member rights and responsibilities help uphold the quality of care and services they receive from you. The 3 primary member responsibilities as required by the National Committee for Quality Assurance (NCQA) are to:

1. Supply information (to the extent possible) to UnitedHealthcare Community Plan and to you that is needed for you to provide care.
2. Follow care to which they have agreed.
3. Understand their condition and take part in developing mutually agreed-upon treatment goals, to the degree possible.

Chapter 13: Medical records

Medical record charting standards

All participating medical, dental, behavioral and MLTSS practitioners are required to keep complete and orderly medical records in paper or electronic format, which fosters efficient and quality member care.

You are subject to our periodic quality medical record review. The review could include any of the following items to determine compliance.

Topic	Contact
Confidentiality of record	Office policies and procedures exist for: • Privacy of the member’s medical record • Initial and periodic training of office staff about medical record privacy • Release of information • Record retention • Availability of medical record if housed in a different office location • Process for notifying UnitedHealthcare Community Plan upon becoming aware of a patient safety issue or concern • Coordination of care between medical and behavioral health care providers
Record organization and documentation	• Have a policy that provides medical records upon request. Urgent situations require you to provide records within 48 hours. • Maintain medical records in a current, detailed, organized and comprehensive manner. You must help ensure privacy when storing medical records. • Release only to entities as designated consistent with federal requirements • Keep in a secure area accessible only to authorized personnel
Procedural elements	Medical records are readable* • Sign and date all entries • Member name/identification number is on each page of the record • Document language or cultural needs • Medical records contain demographic data that includes name, identification numbers, date of birth, gender, address, phone number(s), employer, contact information, marital status and an indication whether the member’s first language is something other than English • Procedure for monitoring and handling missed appointments is in place • An advance directive is in a prominent part of the current medical record for adults 18 years and older, emancipated minors and minors with children. Adults 18 years and older, emancipated minors and minors with children are given information about advance directives. • Include a list of significant illnesses and active medical conditions • Include a list of prescribed and over-the-counter medications. Review it annually.* • Document the presence or absence of allergies or adverse reactions*

*Critical element

Topic	Contact
History	An initial history (for members seen 3 or more times) and physical is performed. It should include: • Medical and surgical history* • A family history that includes relevant medical history of parents and/or siblings • A social history that includes information about occupation, living situations, education, smoking, alcohol use and/or substance abuse use/history beginning at age 11 • Current and history of immunizations of children, adolescents and adults • Screenings of/for: – Recommended preventive health screenings/tests – Depression – High-risk behaviors such as drug, alcohol and tobacco use; if present, advise to quit – Medicare members for functional status assessment and pain – Adolescents on depression, substance abuse, tobacco use, sexual activity, exercise, nutrition and counseling, as appropriate
Problem evaluation and management	Documentation for each visit includes: • Appropriate vital signs (measurement of height, weight and BMI annually) – Chief complaint* – Physical assessment* – Diagnosis* – Treatment plan* • Tracking and referral of age and gender-appropriate preventive health services consistent with preventive health guidelines • Documentation of all elements of age appropriate federal Early and Periodic Screening, Diagnostic and Treatment (EPSDT) • Clinical decisions and safety support tools are in place to ensure evidence-based care, such as flow sheets • Treatment plans are consistent with evidence-based care and with findings/diagnosis: – Time frame for follow-up visit as appropriate – Appropriate use of referrals/consults, studies and tests • X-rays, labs and consultation reports are included in the medical record with evidence of care provider review • There is evidence of care provider follow-up of abnormal results • Unresolved issues from a previous visit are followed up on the subsequent visit • There is evidence of coordination with behavioral health care provider • Education, including lifestyle counseling, is documented • Member input and/or understanding of treatment plan and options is documented • Copies of hospital discharge summaries, home health care reports, emergency room care and practitioner are documented
Pediatric primary care	Pediatric charting must include • Flow chart for immunizations • Growth and development chart • Documentation of compliance with EPSDT guidelines (for NJ FamilyCare members younger than age 21 years)

***Critical element**

Member copies

A member or their representative is entitled to 1 free copy of their medical record. Additional copies may be available at the member's cost. Medical records are generally kept for a minimum of 5 years unless federal requirement mandates a longer time frame (i.e. immunization and TB records required for lifetime).

Medical record review

On an ad hoc basis, we conduct a review of our members' medical records. We expect you to achieve a passing score of 85% or better. To achieve this score, the medical records you maintain should contain an initial health assessment, including a baseline comprehensive medical history. This assessment should be completed in less than 2 visits, with ongoing physical assessments occurring on following visits. It should also include:

- Problem list with:
 - Biographical data with family history
 - Past and present medical and surgical intervention
 - Significant medical conditions with date of onset and resolution
 - Documentation of education/counseling regarding HIV pre- and post-test, including results
- Entries dated and the author identified
- Legible entries
- Medication allergies and adverse reactions (or note if none are known)
- Easily known past medical history. This should include serious illnesses, injuries and operations (for members seen 3 or more times). For children and adolescents (18 years or younger), this includes prenatal care, birth, operations and childhood illnesses.
- Medication record, including names of medication, dosage, amount dispensed and dispensing instructions
- Immunization record
- Tobacco habits, alcohol use and substance abuse (11 years and older)
- Copy of advance directive, or other document as allowed by state law, or note the member does not want one
- History of physical examination (including subjective and objective findings)

- Unresolved problems from previous visit(s) addressed in subsequent visits; diagnosis and treatment plans consistent with findings
- Lab and other studies as appropriate
- Member education, counseling and/or coordination of care with other care providers
- Notes regarding the date of return visit or other follow-up
- Consultations, lab, imaging and special studies initialed by PCP to indicate review
- Consultation and abnormal studies including follow-up plans

Member hospitalization records should include, as appropriate:

- History and physical
- Consultation notes
- Operative notes
- Discharge summary
- Other appropriate clinical information
- Documentation of appropriate preventive screening and services
- Documentation of behavioral health assessment (CAGE-AID, TWEAK AND PHQ-9)

Medical record documentation standards audit tool sample

Provider Name:	Provider ID#:
Review Name:	Review Date:
	Member Name:
	Member ID#:

Audit criteria	Yes	No	N/A
Procedural elements			
1. The medical record is legible.			
2. All entries are signed and dated.			
3. Patient name/identification number is located on each page of the record.			
4. Medical records contain patient demographic information.			
5. Medical record identifies primary language spoken and any cultural or religious preferences if applicable.			
6. Adults 18 and older, emancipated minors and minors with children have an executed advance directive documented in a prominent part of the medical record. IF NONE, then adults 18 and older, emancipated minors and minors with children are given information about advance directives and documented.			
7. A problem list includes significant illnesses and active medical conditions.			
8. A medication list includes prescribed and over-the-counter medications and is reviewed annually.			
9. The presence or absence of allergies or adverse reactions is clearly displayed.			
History			
1. Medical and surgical history is present.			
2. For children/adolescents (birth to 18 years) documentation of prenatal care, birth and operations of childhood (if applicable).			
3. The family history includes pertinent history of parents and/or siblings.			
4. The social history minimally includes pertinent information such as occupation, living situation, etc.			
5. If applicable, is there a completed consent form for hysterectomy and sterilization?			
Preventive services			
1. Evidence that patients age 65 and older are screened for functional status and pain.			
2. Annual comprehensive physical (or more often for newborns).			
3. Documentation of mental and physical development for children and/or cognitive functioning for adults.			
4. Evidence of depression/mental health screening (12 years or older).			
5. Evidence of Verbal Lead Risk Assessment at periodic visits from 6 months until the age of 72 months (6 years old) (If applicable).			
6. Documentation of screening for smoking with clinical response to positive screen (11 years and older) (if applicable).			
7. Documentation of alcohol and substance abuse with clinical response to positive screen (11 years and older) (if applicable).			

Audit criteria	Yes	No	N/A
Preventive services cont.			
8. Documentation of family planning for patients age 11 and older and emancipated minors ages 18 and younger (if applicable).			
9. Evidence of tracking and referral of age and gender appropriate preventive health services.			
10. Use of flow sheets or tools to promote adherence to Clinical Practice Guidelines/ Preventive Screenings.			
11. Dental referral/education/visit for adults or any child greater than 1 year or after first tooth eruption.			
12. Documentation of all elements of age appropriate federal Early and Periodic Screening, Diagnostic and Treatment (EPSDT)* for children under age 21: (if applicable).			
*Comprehensive health and development history, unclothed exam, nutrition assessment, immunizations, lab testing including lead screening, vision/hearing screening, dental inspection.			
Problem evaluation and management			
1. Adult BMI value done annually (ages 18–74).			
2. Child/adolescent BMI percentile done annually (ages 3–17).			
3. If there is BMI documentation, is there documentation of counseling for nutrition and physical activity (ages 13–17)?			
4. If there is BMI documentation, is there documentation regarding physical activity (ages 3–17)?			
5. Appropriate vital signs done at each visit.			
6. Chief complaint listed at each visit.			
7. Physical assessment done at each visit.			
8. Diagnosis listed at each visit.			
9. Treatment plan for each visit.			
Treatment plans – are consistent with evidence-based care and with findings/diagnosis:			
1. Appropriate use of referrals, consults, studies and tests (N/A if services not warranted).			
2. X-rays, labs, consultation reports are documented in the medical record and reviewed by provider (if applicable).			
3. Timeframe for follow-up visit as appropriate.			
4. Follow-up of all abnormal diagnostic tests, procedures, x-rays, consultation reports (if applicable).			
5. Unresolved issues from the first visit are followed up on the subsequent visit (if applicable).			
6. There is evidence of coordination of care with behavior health as applicable (if applicable).			
7. Education, including counseling is documented.			
8. Copies of hospital discharge summaries, home health care reports, emergency room care, physical or therapies as ordered by the practitioner are documented (if applicable).			

Care providers whose medical records are surveyed are required to pass with an 85% score. All surveyed providers are notified of their scores. Any provider who scores less than 85% will receive the details of their medical records review results and have the opportunity to discuss the results with the Quality Division.

Chapter 14: Quality management program and compliance information

Key contacts

What is the Quality Improvement program?

UnitedHealthcare Community Plan’s comprehensive Quality Improvement program falls under the leadership of the CEO and the chief medical officer. A copy of our Quality Improvement program is available upon request.

The program consists of:

- Identifying the scope of care and services given
- Developing clinical guidelines and service standards
- Monitoring and assessing the quality and appropriateness of services given to our members based on the guidelines
- Promoting wellness and preventive health, as well as chronic condition self-management
- Maintaining a network of care providers that meets adequacy standards
- Striving for improvement of member health care and services
- Monitoring and enhancing patient safety
- Tracking member and care provider satisfaction and take actions as appropriate

As a participating care provider, you may offer input through representation on our Provider Advisory Committee (PAC) and by communicating with your provider services representative/provider advocate.

Cooperation with quality-improvement activities

You must comply with all quality-improvement activities. These include:

- Providing requested timely medical records
- Cooperating with quality-of-care investigations. For example, responding to questions and/or completing quality-improvement action plans.
- Participating in quality audits, such as site visits and medical record standards reviews and taking part in the annual HEDIS® record review
- Providing requested medical records at no cost to the member (or as indicated in your Agreement with us). You may provide records during site visits or by email or secure email.
- Adhering to practitioner appointment access and availability requirements

We require your cooperation and compliance to:

- Allow the plan to use your performance data
- Offer Medicaid members the same number of office hours as commercial members (or don’t restrict office hours you offer Medicaid members)

Quality concerns and corrective actions

All confirmed quality issues are subject to corrective action, including provider sanctions. The QM staff review activities for potential quality concerns on an ongoing basis and refer potential quality concerns to our medical director. When the QM staff finds a quality concern, it notifies the appropriate care provider and requests a response, along with any supporting documentation, within a specified period. A second opinion by a specialist may be requested, if deemed appropriate. Upon receipt, a medical director assigns a severity level:

- 0: No quality issue identified; no adverse member outcome
- 1: Quality issue identified; appears to have not contributed any harm or damage to the member
- 2: Quality issue identified; appears to have contributed to non-permanent harm or damage to the member
- 3: Quality issue identified; appears to have contributed to permanent harm or damage to the member (not recoverable), including death

A confirmed issue is presented to our PAC for peer review. The PAC makes a final determination on the severity level. The medical director notifies the provider through certified mail. The letter includes a description of the quality concern and detailed action plan.

Sanctions for quality concerns

In addition to the corrective action plan, we may impose provider sanctions, depending upon the severity level and frequency of the issue. Not implementing the corrective action plan within 60 days may result in a 30-day closure of the care provider's panel to new members or issuance of a notice of termination.

A medical director may require the care provider to obtain additional education, including:

- CME courses relating to the problem
- Medical literature reading
- Charting conferences
- Self-examination courses

The care provider is given a specified period to complete the appropriate educational plan. Failure to do so may result in the issuance of a notice of termination or notifying the appropriate federal, state and licensing authorities.

Termination and appeal process

We may end a care provider's network participation for not complying with certain contractual obligations or QM requirements. Termination may be immediate or allow for an appeals process.

We may not suspend or terminate a care provider solely because they:

- Acted as an advocate for a member seeking appropriate, medically necessary care
- Filed an appeal
- Expressed disagreement with our decision to deny or limit benefits to a member
- Engaged in medical communications with a patient about medically necessary treatment options

Termination for failure to comply with quality management requirements

The QM committee may suspend or terminate any health care provider's network participation for several reasons. They include:

- Not complying with their corrective action plan
- Refusing to make medical records available for examination
- Not submitting recredentialing information
- Not complying with the QM program

In these cases, a medical director will send a certified letter explaining the termination and detailing the care provider's rights to comply, respond or ask for a hearing.

Care provider satisfaction

Every year, UnitedHealthcare Community Plan conducts care provider satisfaction assessments as part of our quality improvement efforts. We assess and promote your satisfaction through annual care provider satisfaction surveys.

Our main concern with the survey is objectivity. That's why UnitedHealthcare Community Plan engages independent market research firm Center for the Study of Services (CSS) to analyze and report findings.

Survey results are reported to our PAC. It compares the results year over year as well as to other UnitedHealthcare Community Plan plans across the country. The survey results include key strengths and improvement areas. Additionally, we carry out improvement plans as needed.

Credentialing standards

UnitedHealthcare Community Plan credentials and re-credentials you based on applicable New Jersey statutes and the NCQA. We require the following items to begin the credentialing process:

- A completed credentialing application, including Attestation Statement
- Current medical license
- Current DEA certificate
- Current professional liability insurance

We verify information from primary sources regarding licensure, education and training. We also verify board certification and malpractice claims history.

Credentialing and recredentialing process

Our credentialing and recredentialing process determines whether you are a good fit for our care provider network. You must go through the credentialing and recredentialing process before you treat our members.

Care providers subject to credentialing and recredentialing

UnitedHealthcare Community Plan evaluates the following practitioners:

- MDs (Doctors of Medicine)
- DOs (Doctors of Osteopathy)
- DDSs (Doctors of Dental Surgery)
- DMDs (Doctors of Dental Medicine)
- DPMs (Doctors of Podiatric Surgery)
- DCs (Doctors of Chiropractic)
- CNMs (Certified Nurse Midwives)
- CRNPs (Certified NPs)
- Behavioral Health Clinicians (Psychologists, Clinical Social Workers, Masters Prepared Therapists)

Excluded from this process are practitioners who:

- Practice only in an inpatient setting,
- Hospitalists employed only by the facility, and/or
- NPs and PAs who practice under a credentialed UnitedHealthcare Community Plan care provider

Health facilities

Facility providers such as hospitals, home health agencies, SNFs and ambulatory surgery centers are also subject to applicable credentialing and licensure requirements. Facilities must meet the following requirements or verification:

- State and federal licensing and regulatory requirements and an NPI number
- Have a current unrestricted license to operate
- Have been reviewed and approved by an accrediting body
- Have malpractice coverage/liability insurance that meets contract minimums
- Agree to a site visit if not accredited by the Joint Commission (JC) or another recognized accrediting agency
- Have no Medicare/Medicaid sanctions

UnitedHealthcare Community Plan does not make credentialing and recredentialing decisions based on race, ethnic/national identity, gender, age, sexual orientation or the type of procedure or patient in which the practitioner specializes.

The National Credentialing Center (NCC) completes these reviews. Find applications on the Council for Affordable Quality Healthcare (CAQH) website at caqh.org.

Go to **UHCprovider.com/join** to submit a participation **request**.

Submit the following supporting documents to [CAQH](https://caqh.org) after completing the application:

- Curriculum vitae
- Medical license
- DEA certificate
- Malpractice insurance coverage
- IRS W-9 Form

Peer review

Credentialing process

A peer review committee reviews all credentialing applications and makes a final decision. The decisions may not be appealed if they relate to mandatory criteria at the time of credentialing. We will notify you of the decision in writing within 60 calendar days of the review.

Recredentialing process

UnitedHealthcare Community Plan recredentials practitioners every 3 years. This process helps assure you update time-limited documentation and identify legal and health status changes. We also verify that you follow UnitedHealthcare Community Plan's guidelines, processes and care provider performance standards. You are notified before your next credentialing cycle to complete your application on the CAQH website at caqh.org. Not responding to our request for recredentialing information results in administrative termination of privileges as a UnitedHealthcare Community Plan care provider. You have 3 chances to answer the request before your participation privileges are terminated.

Performance review

As part of the recredentialing process, UnitedHealthcare Community Plan looks in its Quality Management database for information about your performance. This includes member complaints and quality of care issues.

Applicant rights and notification

You have the right to review information you submitted to support your credentialing/recredentialing application. This excludes personal or professional references or review protected information. You have the right to correct erroneous information you find. Submit updated information directly to your CAQH credentialing application.

If the NCC finds erroneous information, a representative will contact you by phone or in writing. You must submit corrections within 30 days of notification by phone, or in writing to the number or address the NCC representative provided.

You also have the right to receive the status of your credentialing application, please chat with a live advocate 7 a.m.–7 p.m. CT at UHCprovider.com/chat. Include your full name, NPI, TIN and brief description of the request. A UnitedHealthcare representative will be in touch with you within 2 business days from when we receive your request.

Confidentiality

All credentialing information collected during the review process is kept confidential. It is only shared with your approval or as required by law with those involved in the credentialing process.

Resolving disputes

Contract concerns

If you have a concern about your Agreement with us, chat with a live advocate 7 a.m.–7 p.m. CT at UHCprovider.com/chat.

A representative will work to resolve the issue with you. If you disagree with the outcome of this discussion, please follow the dispute resolution provisions of your Provider Agreement.

If your concern is about a UnitedHealthcare Community Plan procedure, such as the credentialing or Care Coordination process, we will resolve it by following the procedures in that plan. If you are still dissatisfied, please follow the dispute resolution provisions in your Provider Agreement.

If we have a concern about our Agreement with you, we will send you a letter. If the issue can't be resolved this way, please follow the dispute resolution provisions in your Provider Agreement.

If a member has authorized you in writing to appeal a clinical or coverage determination on their behalf, that appeal follows the member appeals process as outlined in the Member Handbook, Evidence of Coverage and Chapter 5: Claims, reconsiderations and appeals of this manual.

Health Insurance Portability and Accountability Act compliance – your responsibilities

The Health Insurance Portability and Accountability Act (HIPAA) of 1996 aims to improve the efficiency and effectiveness of the U.S. health care system. While the Act's core goals were to maintain insurance coverage for workers and fight health care fraud and abuse, its Administrative Simplification provisions have had the greatest impact on how the health care industry works. UnitedHealthcare Community Plan is a “covered entity” under these regulations. So are all health care providers who conduct business electronically.

Transactions and code sets

If you conduct business electronically, submit claims using the standard formats adopted under HIPAA. Otherwise, submit claims using a clearinghouse.

Unique identifier

HIPAA also requires unique identifiers for employers, care providers, health plans and individuals for use in standard transactions.

National Provider Identifier

The National Provider Identifier (NPI) is your standard unique identifier. It is a 10-digit number with no embedded intelligence that covered entities must accept and use in standard transactions. While HIPAA only requires you to use the NPI in electronic transactions, many state agencies require it on FFS claims and encounter submissions. For this reason, UnitedHealthcare Community Plan requires the NPI on paper transactions.

The NPI number is issued by the National Plan and Provider Enumeration System (NPPES). Share it with all affected trading partners, such as care providers to whom you refer patients, billing companies and UnitedHealthcare Community Plan.

Privacy of individually identifiable health information

The privacy regulations limit how health plans, pharmacies, hospitals and other covered entities can use members' medical information. The regulations protect medical records and other identifiable health information. This includes electronic, paper or spoken data.

They enhance consumers' rights by giving them access to their health information and controlling its inappropriate use. They also improve health care delivery by extending the privacy efforts of states and health systems to a national level.

Security

Covered entities must meet basic security measures:

- Help ensure the confidentiality, integrity and availability of all electronic protected health information (PHI) the covered entity creates
- Protect against any reasonably anticipated threats, uses or disclosures of information not permitted or required under the Privacy Regulations
- Help ensure compliance with the security regulations by the covered entity's staff

UnitedHealthcare Community Plan expects you to comply with all HIPAA regulations.

Find additional information on HIPAA regulations at [cms.gov](https://www.cms.gov).

Ethics and integrity

UnitedHealthcare Community Plan is dedicated to conducting business honestly and ethically with you, members, suppliers and government officials and agencies. Making sound decisions as we interact with you, other health care providers, regulators and others is necessary for our continued success and that of our business associates. It's also the right thing to do.

Compliance program

As a segment of UnitedHealth Group, UnitedHealthcare Community Plan is governed by the UnitedHealth Group Ethics and Integrity program. The UnitedHealthcare Community Plan Compliance program incorporates the required 7 elements of a compliance program as outlined by the U.S. Sentencing Guidelines:

1. Oversight of the Ethics and Integrity program. Development and implementation of ethical standards and business conduct policies.
2. Development and implementation of ethical standards and business conduct policies.
3. Creating awareness of the standards and policies by educating employees.
4. Assessing compliance by monitoring and auditing.
5. Responding to allegations of violations.
6. Enforcing policies and disciplining confirmed misconduct or serious neglect of duty.
7. Reporting mechanisms for workers to alert management and/or the Ethics and Integrity program staff to violations of law, regulations, policies and procedures, or contractual obligations.

UnitedHealthcare Community Plan has compliance officers for each health plan. In addition, each health plan has a compliance committee consisting of senior managers from key organizational areas. The committee provides program direction and oversight.

Reporting and auditing

Report any unethical, unlawful or inappropriate activity by a UnitedHealthcare Community Plan employee to a UnitedHealthcare Community Plan senior manager or directly to the Compliance Office.

UnitedHealthcare Community Plan's Special Investigations Unit (SIU) is an important part of the Compliance program. The SIU focuses on prevention, detection and investigation of potentially fraudulent and abusive acts committed by care providers and members. This department oversees coordination of anti-fraud activities.

An important part of the Compliance program is assessing high-risk areas of UnitedHealthcare Community Plan operations and implementing reviews to help ensure compliance with law, regulations and policies/contracts.

When informed of potentially inappropriate or fraudulent practices within the plan or by you, UnitedHealthcare Community Plan conducts an investigation. You must cooperate with the company and government authorities. This means giving access to pertinent records (as required by your applicable Provider Agreement and this manual) as well as access to office staff. If we establish activity in violation of law or regulation, we will advise appropriate governmental authorities.

If you become the subject of a government inquiry or investigation, or a government agency requests documents relating to your operations (other than a routine request for documentation), you must provide UnitedHealthcare Community Plan with the details. You must also reveal what triggered the inquiry.

Extrapolation audits of corporate-wide billing

UnitedHealthcare Community Plan works with the State of New Jersey to perform "individual and corporate extrapolation audits." This may affect all programs supported by dual funds (state and federal funding) as well as state-funded programs, as requested by the New Jersey DHS.

Delegating and subcontracting

If you delegate or subcontract any function, the delegate or subcontractor must include all requirements of your applicable Provider Agreement and this manual.

Fraud, waste and abuse

Call the toll-free Fraud, waste and abuse hotline at **1-844-359-7736** or **1-877-401-9430** to report questionable incidents involving plan members or care providers. Or go to **uhc.com/fraud**.

There is no single definition of fraud in the health care industry. Generally speaking, fraud as a legal concept involves an intentional misrepresentation of a material fact made to induce detrimental reliance by another. A misrepresentation can entail an affirmative false statement or the omission of a material fact.

Moreover, fraud can be both intentional (knowing), reckless, or negligent. Intentional or knowing fraud can include both misrepresentations made to deceive and induce reliance and those made with the knowledge that they are substantially likely to induce reliance. Federal and state statutes and regulations variously define fraud (e.g., 42 C.F.R. § 455.2 defines fraud as “an intentional deception or misrepresentation made by a person with the knowledge that the deception could result in some unauthorized benefit to himself or some other person.”). For the purposes of this Program, PSMG construes health care fraud liberally in its broadest sense.

Waste and abuse in the context of health care claims are generally broader concepts than fraud. They include over-utilization of services and care provider and member practices inconsistent with sound fiscal, business, or medical practices that cause unnecessary costs or fail to meet professionally recognized health care standards.

Some typical general categorical examples of care provider health care fraud, waste and abuse include:

- Billing for services/goods never provided
- Billing for services/goods not medically necessary
- Billing for services/goods not covered (e.g., experimental services) and/or for services to ineligible members
- Duplicative billing for the same services/goods
- Billing without adequate supporting documentation
- Billing for more costly/complex services/goods than those actually provided (“upcoding”)
- Billing separately services/goods required to be billed collectively (“unbundling”)
- Improper modifications of billing code
- Billings by fictitious, sanctioned and/or unqualified provider
- Excessive fees charged for services/goods
- Poor quality services that are tantamount to no services provided
- Care provider/member identity theft
- Care provider waiver of patient copayments
- Misrepresentations in cost reports
- Unlawful referrals of patients to related care providers

Some examples of member/beneficiary health care fraud, waste and abuse include:

- Selling/loaning member identification information
- Intentional receipt of unnecessary/excessive services/ goods

- Unlawful sales of prescriptions and/or prescription medications
- Misrepresentations to establish program/plan eligibility (e.g., non-disclosure of income/assets)

UnitedHealthcare Community Plan’s anti-fraud, waste and abuse program

Our program focuses on prevention, detection and investigation of any false and abusive acts committed by you and plan members. The program also helps identify, investigate and recover money UnitedHealthcare Community Plan paid for such claims. We also refer suspected fraud, waste and abuse cases to law enforcement, regulatory and administrative agencies according to state and federal law. UnitedHealthcare Community Plan seeks to protect the ethical and financial integrity of the company and its employees, members, care providers, government programs and the public. In addition, it aims to protect member health.

UnitedHealthcare Community Plan includes applicable federal and state regulatory requirements in its Anti-Fraud, Waste and Abuse Program. We recognize state and federal health plans are vulnerable to fraud, waste and abuse. As a result, we tailor our efforts to the unique needs of its members and Medicaid, Medicare and other government partners. This means we cooperate with law enforcement and regulatory agencies in the investigation or prevention of fraud, waste and abuse.

An important aspect of the Compliance Program is reviewing our operation’s high-risk areas. Then we implement reviews and audits to help ensure compliance with law, regulations and contracts. You are contractually obligated to cooperate with the company and government authorities.

Federal and state fraud, waste and abuse laws

The Deficit Reduction Act (DRA) of 2005 plays a role in preventing/detecting fraud, waste and abuse under Medicaid. Find information about the DRA at [cms.gov > Medicaid/CHIP > Regulations & Guidance > Legislation > Deficit Reduction Act of 2005 \(DRA\)](https://www.cms.gov/Medicaid/CHIP/Regulations%20and%20Guidance/Legislation/Deficit%20Reduction%20Act%20of%202005%20(DRA)). You can also search and access [Deficit Reduction Act: Important Facts for State Government Officials pdf](#) for more details.

For a reference to the policy developed by the [Department of Human Services \(DHS\) Division of Developmental Disabilities \(DDS\)](#), then search and access the [Federal Deficit Reduction Act 2005, Section 6032 Policy on Fraud, Waste and Abuse](#).

The DRA has provisions reforming Medicare and Medicaid and reducing fraud within the federal health care programs. Every entity that receives at least \$5 million in annual Medicaid payments must have written policies for entity employees and contractors. They must provide detailed information about false claims, false statements and whistleblower protections under applicable federal and state fraud and abuse laws. As a participating care provider with UnitedHealthcare Community Plan, you and your staff are subject to these provisions.

This policy details our commitment to compliance with the federal and state false claims acts. It provides a detailed description of these acts and of organizational mechanisms that detect and prevent fraud, waste and abuse. It also details how whistleblowing employees are protected. UnitedHealthcare Community Plan prohibits retaliation if a report is made in good faith. You are required to comply with all federal and state fraud, waste and abuse laws.

Federal False Claims Act

Find information about the Federal False Claims Act, 31 U.S.C. § 3729 – 3733 by visiting the [U.S. Department of Health and Human Services \(HHS\) Office of the Inspector General \(OIG\) > Compliance > Compliance Resource Portal > Resources for Physicians > A Roadmap for New Physicians > A Roadmap for New Physicians: Avoiding Medicare and Medicaid Fraud and Abuse](#). This includes whistleblower protections and Fraud, Waste and Abuse sections such as the Anti-Kickback Statute and the Exclusion statute.

To see the policy developed by the [Department of Human Services \(DHS\) Division of Developmental Disabilities \(DDS\)](#) referencing the False Claims Act, search and access the [Federal Deficit Reduction Act 2005, Section 6032 Policy on Fraud, Waste and Abuse](#).

Federal Program Fraud Civil Remedies Act

Read about the Federal Program Fraud Civil Remedies Act, 31 U.S.C. § 3801 – 3812 at [www.hhs.gov > About HHS > HHS Family of Agencies > HHS Agencies & Offices > Department Appeals Board \(DAB\) > Different Appeals at DAB > Appeals to Board > Guidelines > Under the Program Fraud Civil Remedies Act of 1986](#).

For a reference to the policy developed by the [DHS Division of Developmental Disabilities \(DDS\)](#) referencing the Federal Program Fraud Civil Remedies Act, search and access the [Federal Deficit Reduction Act 2005, Section 6032 Policy on Fraud, Waste and Abuse](#).

New Jersey Health Care Claims Fraud Act

Learn about the New Jersey Health Care Claims Fraud Act, N.J.S. 2C:21 4.2 and 4.3 at [on nj.gov > Definitions relative to healthcare claims fraud and Health care claims fraud, degree of crime; prosecution guidelines](#). Additionally, a reference to the New Jersey Code of Criminal Justice Section 2C:51-5 - Forfeiture, suspension of license, certificate; exceptions states that “a practitioner convicted of health care claims fraud or a substantially similar crime under the laws of another state or the United States shall forfeit his license and be forever barred from the practice of the profession unless the court finds that such license forfeiture would be a serious injustice which overrides the need to deter such conduct by others and in such case the court shall determine an appropriate period of license suspension which shall be for a period of not less than 1 year.”

New Jersey Conscientious Employee Protection Act

The New Jersey Conscientious Employee Protection Act, N.J.S. 34:19 1 et seq., protects employees against retaliation from their employer. For more information, reference the [Conscientious Employee Protection Act “Whistleblower Act”](#) found on [nj.gov](#).

New Jersey False Claims Act

Find information about the New Jersey False Claims Act, N.J.S.A. 2A:32C-1 through 2A:32C-17 and N.J.S.A. 30:4D-17(e) on [nj.gov > New Jersey Department of Health, Office of Primary Care & Rural Health Fraud, Waste and Abuse Policy](#).

New Jersey Insurance Fraud Prevention Act

The New Jersey Insurance Fraud Prevention Act, N.J.S.A 17:33A 1 et seq. takes a multifaceted approach to confronting the problem of insurance fraud in New Jersey. For more information, read about the [New Jersey Insurance Fraud Prevention Act](#) on [nj.gov](#).

To view UnitedHealthcare Community Plan of New Jersey's False Claims Act Compliance Policy and our Deficit Reduction Act/False Claims, visit [UHCprovider.com/njcommunityplan > Policies and Clinical Guidelines > Compliance Policies and Guidelines](#).

Reporting fraud, waste and abuse

Providers, their employees, applicable contractors and agents have the responsibility and a right to report suspected fraud, waste and abuse. After making your report, we work to detect, correct and prevent fraud, waste and abuse in the health care system.

You and your employees can make your report in several ways by contacting us directly:

- Online – [uhc.com/fraud](#)
- Phone – **1-844-359-7736**

For care provider-related matters (e.g., doctor, dentist, hospital) please furnish the following:

- Care provider's name, address and phone number
- Care provider's NPI or Tax ID
- Care provider type (physician, physical therapist, pharmacist, etc.)
- Names and phone numbers of others who can aid in the investigation
- Dates of events
- Details about the suspected fraud or abuse

For CMS information about how you can prevent, detect and report fraud, waste and abuse, visit [cms.gov > Outreach & Education > Learn > Get Training > Medicare Learning Network® \(MLN\) > Publications & Multimedia > Publications > Medicare Fraud & Abuse: Prevent, Detect, Report > Downloads > Medicare Fraud & Abuse: Prevent, Detect, Report](#).

Report suspected fraud, waste and abuse to the following state agencies:

- New Jersey State Hotlines
- NJ Medicaid Fraud Division Hotline: 1-888-937-2835
- NJ Insurance Fraud Prosecutor Hotline: 1-877-55-FRAUD or [njoag.gov/report-fraud](#).

Exclusion checks

First-tier, downstream and related entities (FDRs), must review federal (HHS-OIG and GSA) and state exclusion lists before hiring/contracting employees (including temporary workers and volunteers), the CEO, senior administrators or managers and sub-delegates. Employees and/or contractors may not be excluded from participating in federal health care programs. FDRs must review the federal and state exclusion lists every month.

For more information or access to the publicly accessible, excluded party online databases, please see the following links:

- N.J. Treasurer's exclusions database (mandatory): [state.nj.us/treasury/revenue/debarment/debarsearch.shtml](#)
- N.J. Division of Consumer Affairs licensure databases (mandatory): [njconsumeraffairs.gov/Pages/verification.aspx](#)
- N.J. Department of Health licensure database (mandatory): [nj.gov/health/lh/licensing](#)
- Certified nurse aide and personal care assistant registry (mandatory, if applicable): [njna.psiexams.com/search.jsp](#)
- Federal exclusions and licensure database (optional and fee-based): [npdb.hrsa.gov/hcorg/pds.jsp](#). Please note that only certain provider types may access this database. See [npdb.hrsa.gov/hcorg/register.jsp](#) for more information.
- Health and Human Services – Office of the Inspector General OIG List of Excluded Individuals and Entities (LEIE)
- General Services Administration (GSA) System for Award Management

What you need to do for exclusion checks

Review applicable exclusion lists and maintain a record of exclusion checks for 10 years. UnitedHealthcare Community Plan or CMS may ask for documentation to verify they were completed.

For a copy of the Deficit Reduction False Claims Act Policy visit **UHCprovider.com/njcommunityplan** > Reporting Health Care Fraud, Waste and Abuse > **Deficit Reduction False Claims Act Policy**.

Office site quality

UnitedHealthcare Community Plan and affiliates monitor complaints for quality of care and services (QOC) concerning participating care providers and facilities. Complaints about you or your site are recorded and investigated. We conduct appropriate follow-up to assure that members receive care in a safe, clean and accessible environment. For this reason, UnitedHealthcare Community Plan has set Clinical Site Standards for all primary care provider office sites to help ensure facility quality.

UnitedHealthcare Community Plan requires you and your facilities meet the following site standards:

- Clean and orderly overall appearance
- Available handicapped parking
- Handicapped accessible facility
- Available adequate waiting room space
- Adequate exam room(s) for providing member care
- Privacy in exam room(s)
- Clearly marked exits
- Accessible fire extinguishers
- Post fire inspection record in the last year

Medical record requests

We may request copies of medical records from you in connection with our UM/care management, quality assurance and improvement processes, claims payment and other administrative obligations.

This includes reviewing your compliance with the terms and provisions of your agreement with us, and with appropriate billing practice.

If we request medical records, provide them free of charge unless your participation agreement provides otherwise. Submit records based on the method established by the requester. These records must be maintained and protected for confidentiality for 6 years or longer if required by applicable statutes or regulations. In the event that the provider fails to comply, actions including interruption of payment and contract termination may be taken by UnitedHealthcare Community Plan.

Record retention, reviews and audits

You must maintain an adequate record-keeping system for recording services, charges, dates and all other commonly accepted information for services rendered to our members. Records must be kept for at least 10 years from the close of the New Jersey program agreement between the state and UnitedHealthcare Community Plan or another period as required by law. If records are under review, they must be retained until the audit is complete. UnitedHealthcare Community Plan and its affiliated entities (including Optum Health) will request and obtain prior approval from you for the records under review or inspection. You agree to refund the state any overpayment disclosed by any such audit.

If any litigation, claim, negotiation, audit, or other action involving the records has been started before the 10-year period ends, you agree to keep the records until 1 year after the resolution of all issues that come from it. The state may also perform financial, performance and other special audits on such records during business hours throughout your Provider Agreement.

To help ensure members receive quality services, you must also comply with requests for on-site reviews conducted by the state. During these reviews, the state will address your capability to meet New Jersey program standards.

You must cooperate with the state or any of its authorized representatives, the New Jersey DHS, CMS, the Office of Inspector General, or any other agency prior-approved by the state, at any time during your Provider Agreement.

These entities may, at all reasonable times, enter your premises. You agree to allow access to and the right to audit, monitor and examine any relevant books, documents, papers and records to otherwise evaluate (including periodic information systems testing) your performance and charges.

We perform reviews and audits without delaying your work. If you refuse to allow access, this constitutes a breach of your Provider Agreement.

Criteria for site visits

The following table outlines the criteria used to require a site visit. When the threshold is met, we conduct a site visit according to UnitedHealthcare Community Plan policy.

QOC issue	Criteria	Threshold
Issue may pose a substantive threat to patient's safety	Access to facility in poor repair to pose a potential risk to patients. Needles and other sharps exposed and accessible to patients. Drug stocks accessible to patients. Other issues determined to pose a risk to patient safety.	1 complaint
Issues with physical appearance, physical accessibility and adequacy of waiting and examination room space	Office facilities are dirty; smelly or otherwise in need of cleaning. Office exams rooms do not provide adequate privacy.	2 complaints in 6 months
Other	All other complaints concerning the office facilities.	3 complaints in 6 months

Chapter 15: Billing and submission

Key contacts

Topic	Link	Phone number
Claims	UHCprovider.com/claims	1-888-362-3368
National Plan and Provider Enumeration System (NPPES)	nppes.cms.hhs.gov	1-800-465-3203
EDI	UHCprovider.com/edi ac_edi_ops@uhc.com	1-800-210-8315

Our claims process

For **Claims, Billing And Payment** questions, go to UHCprovider.com/claims.

We follow the same claims process as UnitedHealthcare. See the Claims Process chapter of the UnitedHealthcare Care Provider Administrative Guide for Commercial, Medicare Advantage (including Dual Complete Special Needs Plans) on UHCprovider.com/guides.

Claims process from submission to payment

There are 3 ways to submit claims: EDI clearinghouse, paper submission, or through [UnitedHealthcare Provider Portal](#).

1. You submit EDI claims to a clearinghouse or paper claims to us. We scan paper claims.
2. All claims are checked for compliance and validated.
3. Claims are routed to the correct claims system and loaded.
4. Claims with errors are manually reviewed.
5. Claims are processed based on edits, pricing and member benefits.
6. Claims are checked, finalized and validated before sending to the state.
7. Adjustments are grouped and processed.
8. Claims information is copied into data warehouse for analytics and reporting.
9. We make payments as appropriate.

If you think we processed your claim incorrectly, please see the **Claims reconsiderations, appeals and grievances** chapter in this care provider manual for next steps.

National Provider Identifier

HIPAA requires you have a unique NPI. The NPI identifies you in all standard transactions.

If you have not applied for an NPI, contact **National Plan and Provider Enumeration System (NPPES)**. Once you have an identifier, report it to UnitedHealthcare Community Plan. Call Provider Services at **1-888-362-3368**.

Your clean claims must include your NPI and federal TIN.

General billing guidelines

We only consider reimbursing claims if you met billing and coverage requirements. Submitting a referral does not guarantee we will pay you. Payment depends on the member's coverage on the date(s) of service, medical necessity, plan rules about limitations and exclusions and UnitedHealthcare Community Plan policies. We don't reimburse excessive, inappropriate, or non-covered charges. To comply with applicable standards, policies and law, we may adjust previous payments for services and audit claims. We may seek reimbursement for overpayments or offset future payments as allowed by law.

Fee schedule

If your Agreement is based on the New Jersey Medicaid FFS Fee Schedule, check njmmis.com > Rate and Code Information for Medicaid-set rates your contract may base rates on.

Reimbursements also depend on the fee schedule and the procedure performed. Refer to your bulletins for correct coding.

For fee schedules, defer to your provider participation agreement with UnitedHealthcare Community Plan New Jersey.

UHC Dual Complete NJ-Y001 (HMO D-SNP) billing

UnitedHealthcare Community Plan has an automated system for processing claims for members enrolled in both the Medicaid and Medicare under UHC Dual Complete NJ-Y001 (HMO D-SNP).

Using the member's **UnitedHealthcare Medicare ID** from the ID card, you'll only need to submit **1 claim**. Your claims will automatically be processed first against the Medicare benefits and then against the Medicaid benefits.

Use the **UnitedHealthcare Medicare ID** on the member's UHC Dual Complete NJ-Y001 (HMO D-SNP) card as the member ID number when submitting claims for reimbursement.

You'll receive 2 provider remittance advices (PRAs), 1 for Medicare and 1 for Medicaid. There's no need to resubmit a secondary claim to UnitedHealthcare Community Plan.

UHC Dual Complete NJ-Y001 (HMO D-SNP) members should not be balance billed for any covered benefit.

Modifier codes

Use the appropriate **modifier codes** on your claim form. Find our modifier reference policies in our Community Plan Reimbursement Policies by searching for "modifier." The modifier must be used based on the date of service.

Member ID card for billing

The member ID card has both the UnitedHealthcare Community Plan member ID and the state Document Control Number (DCN). UnitedHealthcare Community Plan prefers you bill with the member ID.

Acceptable claim forms

UnitedHealthcare Community Plan only processes claims submitted on CMS 1500 and UB-04 claim forms.

Use the CMS 1500 form for ancillary services, ambulatory surgery centers, urgent care centers and hospital services.

Use the UB-04 form for hospital inpatient and outpatient services, dialysis services, skilled nursing homes, inpatient services, long-term care facilities, hospice services and other care providers.

Paper claims

If you can't submit medical, professional or facility claims electronically, or are submitting a claim requiring invoice documentation, send paper claims to:

UnitedHealthcare Community Plan
P.O. Box 5250
Kingston, NY 12402-5250

For submissions of over 500 pages, mail to:

UnitedHealthcare Community Plan
1355 S. 4700 West, Suite 100
Salt Lake City, UT 84104

Clean claims and submission requirements

Complete a CMS 1500 or UB-04 form whether you submit an electronic or a paper claim. Clean claims have:

- A health service provided by an eligible care provider to a covered UnitedHealthcare Community Plan member
- All the required documentation, including correct diagnosis and procedure codes
- The correct amount claimed

We may require additional information for some services, situations or state requirements.

Submit any services completed by NPs or PAs who are part of a collaborative agreement. Use their tax ID and NPI, and we will process the claims just like other physicians'.

Care provider coding

UnitedHealthcare Community Plan complies with Early and Periodic Screening, Diagnostic and Treatment (EPSDT) state standards based on claims data and chart review. Use the UnitedHealthcare ICD-10-CM Code Lookup Tool to find an ICD-9 or ICD-10 code.

For more information about ICD-10 coding and social determinants of health protocol and how they apply to the members you treat, see the Specific Protocols chapter in the Administrative Guide for Commercial, Medicare Advantage and D-SNP at **UHCprovider.com/guides**. You can also visit **UHCprovider.com/policies**. Under Additional Resources, choose Protocols > Social Determinants of Health ICD-10 Coding Protocol.

Electronic claims submission and billing

You may submit claims by electronic data interchange (EDI). EDI offers less paperwork, reduced postage, less time spent handling claims and faster turnaround.

- Our payer ID is 86047
- Clearinghouse Acknowledgment Reports and Payer-Specific Acknowledgment Reports identify claims that don't successfully transmit
- We follow CMS National Uniform Claim Committee (NUCC) and National Uniform Billing Committee (NUBC) guidelines for CMS 1500 and UB-04 forms

For more information, see **EDI Claims**.

Electronic data interchange companion documents

UnitedHealthcare Community Plan's companion documents are intended to share information within implementation guides (IG) adopted by HIPAA. The companion documents identify the data content requested when it is electronically transmitted. UnitedHealthcare Community Plan uses companion documents to:

- Clarify data content that meets the needs of the health plan's business purposes when the IG allows multiple choices
- Provide values the health plan will return in outbound transactions
- Outline which situational elements the health plan requires

The companion document provides general information and specific details pertinent to each transaction. Share these documents with your software vendor for any programming and field requirements.

The companion documents are located on **UHCprovider.com/edi > EDI transaction and code sets**.

Clearinghouse and status reports

Software vendor reports only show the claim left your office and was either accepted or rejected. They don't confirm the claim status. Acknowledgment reports confirm the information you sent has been received. Review your reports, clearinghouse acknowledgment reports and the status reports to reduce processing delays and timely filing penalties.

For clearinghouse options, use our Electronic Data Exchange (EDI) at **UHCprovider.com/edi > EDI > Clearinghouse > Clearinghouse Options**.

E-business support

Call Provider Services at **1-888-362-3368** for help with Electronic Remittance Advices (ERAs) and Electronic Funds Transfers (EFTs). To use ERAs, you must enroll through a clearinghouse.

For all of our claims and payment options, such as business support and EDI claims, go to Chapter 1: Introduction under Online resources.

To find more information about EDI online, go to **UHCprovider.com/edi**.

Electronic payment solution: Optum Pay

UnitedHealthcare has launched the replacement of paper checks with electronic payments and will no longer be sending paper checks for payment. You will have the option of signing up for Automated Clearing House (ACH)/direct deposit, our preferred method of payment, or to receive a Virtual Card payment (Virtual Card). The only alternative to a Virtual Card is direct deposit. Both of these options allow you to get paid quickly and securely.

Why choose Automated Clearing House/direct deposit?

- Automated Clearing House (ACH)/direct deposit puts payment directly into your bank account
- Easy and fast way to get paid
- Improved financial control; no paper checks or remittance information to lose or misplace
- Ability to track information on online portal

What does this mean to you?

- If your practice/health care organization is still receiving paper checks, you can enroll in ACH/direct deposit for your claim payments now. If you don't elect to sign up for ACH/direct deposit, a virtual card will be automatically sent in place of paper checks.
- To sign up for the ACH/direct deposit option, go to UHCprovider.com/payment
- If your practice/health care organization is already enrolled and receiving your claim payments through ACH/direct deposit from Optum Pay™ or receiving virtual cards, you don't need to take action
- If you do not enroll in ACH/direct deposit and currently receive your correspondence electronically, your remittance and virtual card statement will be available online through Document Library
- Exclusions may apply in certain states or markets where paper checks will remain the primary method of payment. For more information on virtual cards and exclusions, go to UHCprovider.com/payment.

All regulated entities have a Management Agreement with United HealthCare Services, Inc. (UHS), under which UHS provides a whole host of administrative services (many of which are provided to UHS by an Optum entity and then passed through to the regulated entities), including those of a financial nature. Those agreements are filed with the DOI in the regulated entity's state of domicile for approval.

Completing the CMS 1500 claim form

Companion documents for 837 transactions are on UHCprovider.com/edi.

Visit the [National Uniform Claim Committee](https://www.nationaluniformclaimcommittee.org) website to learn how to complete the CMS 1500 form.

Completing the UB-04 form

Bill all hospital inpatient, outpatient and ER services using revenue codes and the UB-04 claim form:

- Include ICD-10-CM diagnosis codes
- Identify other services by the CPT/HCPCS and modifiers

Form reminders

- Note the attending provider's name and identifiers for the member's medical care and treatment on institutional claims for services other than non-scheduled transportation claims
- Send the referring provider's NPI and name on outpatient claims when this care provider is not the attending provider
- Include the attending provider's NPI in the Attending Provider Name and Identifiers Fields (UB-04 FL76 or electronic equivalent) of your claims
- Behavioral health care providers can bill using multiple site-specific NPIs
- Claims sent to the wrong lock box will be denied
- Do not send claims to UnitedHealthcare of New Jersey offices
- Do not send claims to any New Jersey P.O. Box
- All NPIs being billed on a claim are required to be enrolled with the state Medicaid program

To be paid promptly for the services you provide, please follow these procedures:

- Submit claims within 180 days from date of service/ date of discharge
- Send any additional requested information needed to process the claim within 90 days
- Exception claim rejected (not in the system) at EDI for missing/incomplete information: Par and Non-Par providers have 180 days from the date of service to file a claim resubmission with the required information
- Submit corrected claims within 365 days from the date of service
- If we are considered a secondary payer, submit COB claims within 60 days from the date of the primary insurer's EOB or 180 days from the dates of service, whichever is later.

Subrogation and coordination of benefits

Our benefits contracts are subject to subrogation and coordination of benefits (COB) rules:

Subrogation

We may recover benefits paid for a member's treatment when a third party causes the injury or illness.

For NJ FamilyCare/Medicaid members, maintain and make available to us records reflecting collection of benefits by the care provider and amounts paid directly to NJ FamilyCare/Medicaid members by other payers.

Notify us when a member is present with an illness or injury that is related to an automobile accident or employment. Notification can be made on a standard claim form.

Coordination of benefits

We coordinate benefits based on the member's benefit contract and applicable regulations. The most common COB issue arises with persons who have traditional Medicare FFS and are enrolled in NJ FamilyCare/Medicaid. In New Jersey, an individual who is dually eligible for Medicare and Medicaid may be enrolled in one of the following combinations:

- UHC Dual Complete NJ-Y001 (HMO D-SNP) Special Needs Plan (Medicare) and NJ FamilyCare
- Traditional Medicare and NJ FamilyCare

- Medicare Advantage plan and NJ FamilyCare

For members who have both Medicare and Medicaid, Medicare is always primary. Either bill traditional Medicare, the member's Medicare Advantage plan, or UHC Dual Complete NJ-Y001 (HMO D-SNP), depending on the member's coverage.

If the member is enrolled in UHC Dual Complete NJ-Y001 (HMO D-SNP), submit the Medicare claim to us. We will coordinate the benefits through automatic claim adjudication.

If the member is enrolled in either traditional Medicare or a Medicare Advantage plan, and Medicaid is secondary, first submit the claim to the appropriate plan. Then submit to us the secondary claim on paper with the Medicare EOB. The only exception is for a working Medicare beneficiary who has health coverage through their employer, in which case the commercial insurance is primary. However, these members are rarely enrolled in the UHC Dual Complete NJ-Y001 (HMO D-SNP) plan.

If COB is involved, attach evidence of payment from the first payer (traditional Medicare, Medicare Advantage or Commercial insurance) when billing us as the second payer. Submit COB of claims within 60 days from the date of primary insurer's EOB or 180 days from the dates of service, whichever is later.

In New Jersey, some individuals in the ABD category, including DDD clients, may be enrolled in UnitedHealthcare Community Plan and have commercial health insurance coverage as a dependent through a parent or guardian's health plan. In these cases, the commercial plan is primary and must be billed first.

Unless we have given prior authorization, we are not liable for payment if the other payer refuses payment due to a determination that the services provided were not medically necessary. If we give prior authorization for services for members and another payer denies the authorized services, we pay based on the terms of the contractual agreement with the care provider.

Tort policy

You must tell us when a member has an illness or injury related to an automobile accident or employment. You can notify us on a standard claim form.

You must also notify us if you become aware of any litigation on behalf of the member resulting from the member's injuries. Call Provider Services at **1-888-362-3368**.

Hospital and clinic method of billing professional services

Hospital and clinics must bill for professional services on a CMS 1500. The servicing provider's name is placed in box 31, and the servicing provider's group NPI number is placed in box 33a.

Global days

Global days include the billable period involving pre-operative visits, the procedure itself and post-operative visits in which the care provider performs all necessary services. The visits must be performed by the same care provider or another care provider reporting the same TIN in either an inpatient hospital, outpatient hospital, ambulatory surgical center (ASC) or physician's office.

For reimbursement, we follow CMS guidelines and the National Physician Fee Schedule (NPFS) Relative Value File to determine global days values. To learn more about billing for global days and their values, read our global days policy on [UHCprovider.com](https://www.uhcprovider.com) > Resources > Health plans, policies, protocols and guides > **For Community Plans** > **Reimbursement Policies for Community Plan** > Global Days Policy, Professional - Reimbursement Policy - UnitedHealthcare Community Plan.

Correct Coding Initiative

UnitedHealthcare Community Plan performs coding edit procedures based on the Correct Coding Initiative (CCI) and other nationally recognized sources.

Comprehensive and component codes

Comprehensive and component code combination edits apply when a code pair(s) appears to be related. These edits can be further broken down to explain the bundling rationale. Some of the most common causes for denials in this category are:

- **Separate procedures**
Only report these codes when performed independently
- **Most extensive procedures**
You can perform some procedures with different complexities. Only report the most extensive service.
- **With/without services**
Don't report combinations where 1 code includes and the other excludes certain services

- **Medical practice standards**
Services part of a larger procedure are bundled
- **Laboratory panels**
Don't report individual components of panels or multichannel tests separately

Clinical Laboratory Improvement Amendments

Submit your laboratory claims with the Clinical Laboratory Improvements Amendments (CLIA) number. In box 23 of the CMS 1500 claim form, enter the 10-digit CLIA certification number for laboratory services billed by an entity performing CLIA-covered procedures.

If you bill electronically, report the CLIA number in Loop 2300 or 2400, REF/X4,02. For more information about the CLIA number, contact the CMS CLIA Central Office at 1-410-786-3531 or go to [cms.gov](https://www.cms.gov) > Regulations & Guidance > Clinical Laboratory Improvement Amendments (CLIA).

Billing multiple units

When billing multiple units:

- If the same procedure is repeated on the same date of service, enter the procedure code once with the total number of units
- The total bill charge is the unit charge multiplied by the number of units

Billing guidelines for hysterectomies

Specific Medicaid requirements must be met for hysterectomies and documented on the Hysterectomy Receipt of Information Form (FD-189). Include a completed FD-189 form for any hysterectomy procedure claim (hospital, operating physician, anesthesiologist, clinic, etc.). Electronic billing for hysterectomy claims is not permitted.

Find the form at [UHCprovider.com/njcommunityplan](https://www.uhcprovider.com/njcommunityplan) > **Provider Forms and References** > under Provider Forms, choose **Hysterectomy and Sterilization Procedures and Consent Forms**.

Billing guidelines for pregnancy visit

Bill the initial pregnancy visit as a separate office visit. You may bill global days if the mother has been a UnitedHealthcare Community Plan member for 3 or more consecutive months or had 7 or more prenatal visits.

Medicaid does not consider ultrasounds medically necessary if they are done only to determine the fetal sex or provide parents with a photograph of the fetus. We allow the first 3 obstetrical ultrasounds per pregnancy. The fourth and subsequent obstetrical ultrasound procedures will only be allowed for identified high-risk members. High-risk member claims must include the corresponding diagnosis code.

Billing guidelines for obstetrical services

Follow this reporting procedure when submitting obstetrical delivery claims. Otherwise, we will deny the claim:

- If billing for both delivery and prenatal care, use the date of delivery
- Use 1 unit with the appropriate charge in the charge column
- You must bill the antepartum care, delivery services, and postpartum care separately

Billing guidelines for newborn outpatient visits

Newborn outpatient visits may occur in the 60 days before a NJ FamilyCare/Medicaid number is assigned to the newborn. In these cases, report the following information on the electronic claim or the CMS 1500 form for services eligible for reimbursement:

- The mother's identification number in Section 1a
- The newborn's name in Section 2
- The newborn's date of birth in Section 3
- The mother's name in Section 4
- Newborns need to be added to the plan within 60 days of birth
- The care provider is required to submit a corrected claim(s) for the newborn once the NJ FamilyCare/Medicaid number is assigned to the newborn

Multiple Births under Billing guidelines for newborn outpatient visits

- Multiple births must have a condition code of M2, M3 or M4, etc.

Billing guidelines for transplants

The Department of Health and Human Services covers medically necessary, non-experimental transplants. UnitedHealthcare Community Plan covers the transplant evaluation and work-ups. Get prior authorization for the transplant evaluation. Gather all required referrals and evaluations to complete the pre-transplant evaluation process once the member is a possible candidate.

Submitting an NPI, TIN and taxonomy

We accept NPI on the UB-04 and CMS 1500 (08-05) paper and HIPAA 837 professional and institutional claim submissions. All electronic and paper claims must include both the TIN, NPI and billing provider NUCC taxonomy code on institutional claims.

We will notify you of any changes to our NPI policy. These communications will express when we reserve the right to no longer accept HIPAA transactions that do not contain a valid NPI in the fields specified by our HIPAA-adopted implementation guides.

The following identifies the location for NPI, TIN and taxonomy on paper and electronic claims.

HIPAA 837P (professional) claim transaction (for enumerated care providers)

- Billing Provider Identifier Location Primary Identifier NPI Loop 2010AA, NM109 / NM108=XX
- Secondary Identifier TIN Loop 2010AA, REF02 (REF01=EI or SY)
- Taxonomy NUCC Code Loop 2000A, PRV03
- Pay-To Provider
 - Primary Identifier NPI Loop 2010AB, NM109 (NM108=XX)
 - Secondary identifier TIN Loop 2010AB, REF02 (REF01=EI or SY)

- Taxonomy NUCC Code Loop 2000A, PRV03
- Referring Physician Primary Identifier NPI Loop 2310A, NM109 (NM108=XX)
 - Taxonomy NUCC Code Loop 2000A, PRV03
- Rendering Physician Primary Identifier NPI Loop 2310B, NM109 (NM108=XX)
 - Taxonomy NUCC Code Loop 2310B, PRV03

HIPAA 837I (institutional) claim transaction (for enumerated providers)

- Billing Provider Identifier Location Primary Identifier NPI Loop 2010AA, NM109 (NM108=XX)
- Secondary Identifier TIN Loop 2010AA, REF02 (REF01=EI or SY)
- Taxonomy NUCC Code Loop 2000A, PRV03 (PRV01=BI)
- Pay-To Provider
 - Primary Identifier NPI Loop 2010AB, NM109 (NM108=XX)
 - Secondary identifier TIN Loop 2010AB, REF02 (REF01=EI or SY)
- Taxonomy NUCC Code Loop 2000A, PRV03 (PRV01=PT)
- Attending Physician Primary Identifier NPI Loop 2310A, NM109 (NM108=XX)
- Taxonomy NUCC Code Loop 2310A, PRV03

Refer to the Implementation Guides at wpc-edi.com for additional 837I/P rules about these identifiers. Taxonomy is mutually exclusive.

We will reject 837I and 837P electronic claims that contain a P.O. Box address in the 2010AA Billing Provider Loop. You should make any necessary adjustments in your system to avoid an increase in claim rejections.

If you need to submit a P.O. Box or lockbox address, use the 2010AB Pay-to Address Loop instead. This change is due to the ASC X12 Health Care Claim: Professional (837) implementation guide (005010X222A1) and the Institutional (837) implementation guide (005010X223A2), which specify that the 2010A Billing Provider Loop must contain a street address.

If you have any questions about this information, please contact our EDI Support Team at **1-800-842-1109**.

Ambulance claims (emergency)

Ambulance claims must include the point of origin, destination address, city, state and ZIP.

New Jersey state regulations state that all ambulance service claims for UnitedHealthcare Community Plan members must include appropriate origin and destination modifiers for reimbursement. Claims missing an origin/ destination will be denied.

For more information on reimbursement, view our reimbursement policy online at UHCprovider.com/njcommunityplan > **Policies and Clinical Guidelines** > View Current Reimbursement Policies > Ambulance Policy, Professional - Reimbursement Policy - UnitedHealthcare Community Plan.

National drug code

Claims must include:

- National Drug Code (NDC) and unit of measurement for the drug billed
- HCPCS/CPT code and units of service for the drug billed
- Actual metric decimal quantity administered

Submit the NDC on all claims with procedure codes for care provider-administered drugs in outpatient clinical settings. The claims must show the NDC that appears on the product. Enter the identifier N4, the 11-digit NDC code, unit/basis of measurement qualified and metric decimal quantity administered. Include HCPCS/CPT codes.

Incarcerated members

- If the member is incarcerated, their membership will be suspended until they are released
- Bill claims to DMAHS FFS

Medical necessity

UnitedHealthcare Community Plan only pays for medically necessary services. See Chapter 4 Medical management for more information about medical necessity.

Place of Service codes

Go to cms.gov > Medicare > Coding & billing > Place of Service Codes > **Place of Service Code Set** for Place of Service codes.

Asking about a claim

You can ask about claims through Provider Services and our provider portal. To access the portal, go to UHCprovider.com and sign in. Follow the instructions to get a user ID, if needed. You will receive your user ID and password within 48 hours.

Provider Services

Provider Services helps resolve claims issues. Have the following information ready before you call:

- Member's ID number
- Date of service
- Procedure code
- Amount billed
- Your ID number
- Claim number

Allow Provider Services 45 days to solve your concern. Limit phone calls to 5 issues per call.

UnitedHealthcare Community Plan Provider Portal

You can view your online transactions by signing in to the Provider Portal on UHCprovider.com with your One Healthcare ID. This portal offers you online support any time. If you are not registered, you may do so on the website.

Claim correction

What is it? You may need to update information on a claim you've already submitted. A corrected claim replaces a previously processed or denied claim submitted in error.

When to use Submit a corrected claim to fix or void one that has already processed.

How to use

Use the claims reconsideration application on the UnitedHealthcare Provider Portal. To access the portal, go to UHCprovider.com and sign in with your One Healthcare ID. You may also submit the claim by mail with a claim reconsideration request form. Allow up to 30 days to receive payment for initial claims and a response. Mail to:

UnitedHealthcare Community Plan
P.O. Box 5250
Kingston, NY 12402-5250

When correcting or submitting late charges on 837 institutional claims, use bill type xx7: Replacement of Prior Claim. Do not submit corrected or additional information charges using bill type xx5: Late Charge Claim. To void a claim, use bill type xx8.

Resubmitting a claim/ rejected claim resubmission

What is it?

When you resubmit a claim, you create a new claim in place of a rejected one. A rejected claim has not been processed due to problems detected before processing.

A rejected claim is a claim that has rejected at the UHC clearinghouse and has not been submitted for processing. It is a front end rejection.

You will only be able to review the denial via the [UnitedHealthcare Provider Portal](#) or your clearinghouse.

When to use it

Resubmit the claim if it was rejected. Since rejected claims have not been processed yet, there is no appeal – the claim needs to be corrected through resubmission.

Helpful hint: Claim submission type is a 1.

Common reasons for rejected claims

Some of the common causes of claim rejections happen due to:

- Errors in member demographic data – name, age, date of birth, sex or address
- Errors in care provider data
- Wrong member insurance ID
- No referring care provider ID or NPI number

How to use

To resubmit the claim, follow the same submission instructions as a new claim.

To mail your resubmission, provide all claim information to:

UnitedHealthcare Community Plan
P.O. Box 5250
Kingston, NY 12402-5250

Warning! If your claim has been denied and you receive a remittance advice, it is necessary to submit a corrected claim.

Please note that if you choose to resubmit the claim without making necessary corrections, it will result in a duplicate claim rejection. A denied claim has already undergone claim processing and has been determined that it cannot be paid. You have the option to appeal a denied claim by either submitting the corrected claim information or appealing the decision. For more detailed information, please refer to the Claim Correction and Reconsideration sections of this chapter.

Claim adjustments

If you believe you were underpaid, submit an adjustment request at UHCprovider.com or call Provider Services at **1-866-362-3368**.

Overpayment

What is it?

An overpayment happens when we overpay a claim.

How to use

If you or UnitedHealthcare Community Plan finds an overpaid claim, send us the overpayment within the time specified in your contract. If your payment is not received by that time, we may apply the overpayment against future claim payments in accordance with our Agreement and applicable law.

If you prefer, we recoup the funds from your next payment, call Provider Services at **1-888-362-3368**.

If you prefer to mail a refund, send an Overpayment Return Check or the Overpayment Refund/Notification form.

Also send a letter with the check. Include the following:

- Name and contact information for the person authorized to sign checks or approve financial decisions
- Member ID number
- Date of service
- Original claim number (if known)
- Date of payment
- Amount paid
- Amount of overpayment
- Overpayment reason
- Check number

Where to send

Mail refunds with an Overpayment Return Check or the Overpayment Refund/Notification form to:

UnitedHealthcare Community Plan

ATTN: Recovery Services
P.O. Box 740804
Atlanta, GA 30374-0800

UnitedHealthcare Insurance Company Overnight Delivery

Lockbox 101760
3585 Atlanta Avenue
Hapeville, GA 30354-1705

The **Overpayment Refund/Notification form** can be found at UHCprovider.com.

If you do not agree with the overpayment findings, submit a dispute within the required time frame as listed in your contract.

If you disagree with a claim adjustment or our decision not to make a claim adjustment, you can appeal. See Dispute section in this chapter.

We make claim adjustments without requesting additional information from you. You will see the adjustment on the EOB or Provider Remittance Advice (PRA). When additional information is needed, we will ask you to provide it.

Sample overpayment report

***The information provided is sample data only for illustrative purposes.
Please populate and return with the data relevant to your claims that have been overpaid.**

Member ID	Date of service	Original claim #	Date of payment	Paid amount	Amount of overpayment	Reason for overpayment
11111	01/01/24	14A0000000001	01/31/24	\$115.03	\$115.03	Double payment of claim
2222222	02/02/24	14A0000000002	03/15/24	\$77.29	\$27.19	Contract states \$50.00, claim paid \$77.29
3333333	03/03/24	14A0000000003	04/01/24	\$131.41	\$98.56	You paid 4 units, we billed only 1
44444444	04/04/24	14A0000000004	05/02/24	\$412.26	\$412.26	Member has other insurance
55555555	05/05/24	14A0000000005	06/15/24	\$332.63	\$332.63	Member terminated

Resolving claim issues

To resolve claim issues, contact Provider Services at **1-888-362-3368**, use the UnitedHealthcare Provider Portal or resubmit the claim by mail.

Mail paper claims and adjustment requests to:

UnitedHealthcare Community Plan
P.O. Box 5250
Kingston, NY 12402-5250

Allow up to 30 days for UnitedHealthcare Community Plan to receive payment for initial claims and adjustment requests.

For paper claims

Submit a screenshot from your accounting software that shows when you submitted the claim. The screenshot must show the correct:

- Member name
- Date of service
- Claim date submission (within the timely filing period)

Timely filing

Timely filing issues may occur if members give the wrong insurance information when you treat them. This results in receiving:

- A denial/rejection letter from another carrier
- Another carrier’s explanation of benefits
- A letter from another insurance carrier or employer group saying that the member either has no coverage or had their coverage terminated before the date of service

All of the above must include documentation that the claim is for the correct member and the correct date of service. A submission report alone is not considered proof of timely filing for electronic claims. They must be accompanied by an acceptance report.

The date on the other carrier’s payment correspondence starts the timely filing period for submission to UnitedHealthcare Community Plan.

To be timely, you must receive the claim within the timely filing period from the date on the other carrier’s correspondence.

Coordination of benefits (COB) must be submitted within 60 days from the date of Primary insurer’s explanation of benefits (EOB). The timely filing period is within 180 days from the date of service for all providers. If we receive the claim after the timely filing period, it will not meet the criteria.

If a claim is rejected, and corrections are not received within 365 days from date of service or close of business from the primary carrier, the claim is considered late billed. It will be denied timely filing.

Timely filing limits can vary based on state requirements and contracts. If you don't know your timely filing limit, refer to your Provider Agreement.

Balance billing

Do not balance bill members. Sending bills or balance bills to members for covered services is a violation of your provider Agreement and violates New Jersey law and regulation. Instruct office staff to ask for appropriate documentation of a patient's insurance coverage and accurately maintain this information in all billing systems.

Document any agreement with the member if they have agreed to the responsibility of out-of-pocket payment for any non-covered, or non-medically necessary service that did not require or was not approved by prior authorization.

Third-party resources

UnitedHealthcare Community Plan is, by law, the payer of last resort for eligible members. Therefore, you must bill and obtain an EOB from any other insurance or health care coverage resource before billing UnitedHealthcare Community Plan, as required by contract. Refer to your Agreement for third-party claim submission deadlines. Once you bill the other carrier and receive an EOB, the claim may then be submitted to UnitedHealthcare Community Plan. Please attach a copy of the EOB to the submitted claim. The EOB must be complete to understand the paid amount or denial reason.

Chapter 16: Claims, reconsiderations and appeals

There are several ways to work with us to resolve claims issues or disputes. We base these processes on state and federal regulatory requirements and your agreement. Non-network care providers should refer to applicable appeals and grievances laws, regulations and state Medicaid contract requirements. For claims, billing and payment questions, go to UHCprovider.com/claims. We no longer use fax numbers.

The following grid lists the types of disputes and processes that apply:

Claim dispute step/ stage	Definition	Submission address	Online form for mail	Contact phone number	Online submission	Filing time frame	Determination time frame
Medical and behavioral care provider claim reconsideration	A request for a one-time case review of an administrative denial you don't agree with. If you submit the Health Care Provider Application to Appeal a Claims Determination (HCPAA) form, it will be handled as a formal claim appeal.	UnitedHealthcare Community Plan Attn: Reconsiderations P.O. Box 5250 Kingston, NY 12402-5250	UHCprovider.com/claims	1-888-362-3368	UHCprovider.com Click the Sign In button in the top-right corner. Click Claims & Payments > Look Up a Claim > Act on Claim > Create a reconsideration.	Accepted within 90-calendar days from the PRA, EOB, or letter date.	30 calendar days
Medical and behavioral care provider formal claim appeal	An appeal request for review of an administrative denial you don't agree with. Submit it on the Health Care Provider Application to Appeal a Claims Determination (HCPAA) form. Requests from network providers who do not include the HCPAA form will be routed for Reconsideration if eligible. UHC Dual Complete NJ-Y001 (HMO D-SNP): Par providers should follow their contract. Non-par providers: within 60 calendar days from the initial claim denial date.	30 calendar days
Program for Independent Claims Payment Arbitration (PICPA)	Request for an arbitration for a formal appeal determination you don't agree with.	Attn: NJPICPA MAXIMUS 3750 Monroe Avenue Suite 705 Pittsford, NY 14534	Application is accessible online at dispute.maximus.com/nj/indexNJ .	1-585-348-3116	dispute.maximus.com/nj/indexNJ	Within 90 days after receiving a determination on an internal claim payment appeal.	Within 30 days following receipt of all required information.

Utilization management appeal process: Service denial/limitation/reduction/termination based on medical necessity

You and the member should receive a notification letter of any decision to deny, reduce or terminate a service or benefit. If you or the member disagrees with our decision, you (or the member) can challenge our decision by requesting a utilization management appeal submitted with the member's written permission. If you submit the Health Care Provider Application to Appeal a Claims Determination (HCAPAA) form, it will be handled as a Care Provider Formal Claim Appeal. See the following summary for the time frames to request an appeal.

Appeal step/stage	Definition	How to submit	Contact phone number	Filing time frame	Filing time frame to request continuation of benefits for existing services	Determination timeframe
Internal utilization management appeal	The internal appeal is the first level of appeal, administered by the health plan. This level of appeal is a formal, internal review by health care professionals selected by the plan who have expertise appropriate to the case in question, and who were not involved in the original determination. This option is for FamilyCare Plan Type A / ABP, B, C, D.	NJFamilyCare/Medicaid: UnitedHealthcare Community Plan Grievances and Appeals Attn: Clinical Appeals P.O. UHC Dual Complete NJ-Y001 (HMO D-SNP): UnitedHealthcare Attn: Clinical Appeals P.O. Box 6103 MS CA120-0360 Cypress, CA 90630-9998 Fax: 1-844-226-0356 – Expedited appeals	NJFamilyCare/Medicaid: 1-888-362-3368 UHC Dual Complete NJ-Y001 (HMO D-SNP): 1-800-514-4911	60 days from the date of the denial letter	The later of: on or before the last day of the current authorization; or Within 10 calendar days of the date on the initial denial notification letter.	Urgent appeals: within 72 hours Standard appeals: within 30 business days
External/ IURO appeal	The external/IURO appeal is an external appeal conducted by an Independent Utilization Review Organization (IURO). This option is for FamilyCare Plan Type A / ABP, B, C, D.	Maximus Federal – NJ IHCAP 3750 Monroe Avenue, Suite 705 Pittsford, NY 14534 Fax: 1-585-425-5296 Online: njihcap.maximus.com	1-888-866-6205	60 calendar days from date on internal appeal notification letter	The later of: on or before the last day of the current authorization; or Within 10 calendar days of the date on the internal appeal notification letter.	45 calendar days or less from IURO's decision to review the case.
Medicaid Fair Hearing	You can appeal to the IURO before you request a Medicaid Fair Hearing and wait for the IURO's decision, or you can appeal to the IURO at the same time that you request a Medicaid Fair Hearing. This option is for FamilyCare Plan Types A /ABP only.	State of New Jersey Division of Medical Assistance and Health Services Fair Hearing Unit P.O. Box 712 Trenton, NJ 08625-0712 Fax: 1-609-588-2435	N/A	120 calendar days from date on internal appeal notification letter	The later of: on or before the last day of the current authorization; or Within 10 calendar days of the date on the internal appeal notification letter, or Within 10 calendar days of the date on the external/IURO appeal decision notification letter	A final decision will be reached within 90 calendar days of the Fair Hearing request.

The prior definitions and process requirements are subject to modification by state contract or regulations. States may impose more stringent requirements.

UnitedHealthcare Community Plan and its contracted providers may agree to more stringent requirements within provider agreements than described in the standard process.

Dental appeals and grievances

For information regarding appeals and grievances related to Dental, please refer to the Dental Provider Manual, which can be found on **UHC Dental**. Section: 4.2 Member Appeals and Inquiries covers the dental appeals and grievances information.

To obtain access to the Dental Provider Manual, go to uhcdental.com/dental/dental-medicaid.html > New Jersey.

Denials

Utilization management denials

Denials can be utilization management (UM) denials or administrative denials. UM denials are refusals to pay a claim or to authorize a service or supply because we determined the service or supply is either:

- Not medically necessary
- Experimental or investigational
- Cosmetic
- Dental rather than medical
- Intended to treat an excluded pre-existing condition

A UM denial may also occur if we deny a covered person's request to get services from an out-of-network provider and a network care provider is not available. This type of request is known as an in-plan exception.

Administrative denials

An administrative denial is a refusal to pay a claim or authorize a service based on contract provisions or other grounds not involving medical judgment. Examples include denials because the person was not covered on the date of service or the service is excluded from coverage (e.g., adult hearing aids).

Claim reconsideration

What is it?

Claim issues include overpayment, underpayment, denial, or an original or corrected claim determination you do not agree with.

A claim reconsideration request is the quickest way to address your concern about whether the claim was paid correctly. When you send a reconsideration, please send additional supporting information.

When to use

Reconsiderations can be done repeatedly but should include new information each time. Submit a claim reconsideration when you think a claim has not been properly processed.

How to use

If you disagree with a claim determination, submit a claim reconsideration request electronically, by phone, or mail.

Valid proof of timely filing documentation (reconsideration)

What is it?

Proof of timely filing occurs when the member gives incorrect insurance information at the time of service. It includes:

- A denial or rejection letter from another insurance carrier
- Another insurance carrier's explanation of benefits
- Letter from another insurance carrier or employer group indicating:
 - Coverage termination prior to the date of service of the claim
 - No coverage for the member on the date of service of the claim

A submission report is not proof of timely filing for electronic claims. It must be accompanied by an acceptance report. Timely filing denials are often upheld due to incomplete or wrong documentation submitted with a reconsideration request. You may also receive a timely filing denial when you do not submit a claim on time.

How to use:

Submit a reconsideration request electronically or by mail with the following information:

- **Electronic claims** – Include the EDI acceptance report stating we received your claim
- **Mail reconsiderations** – Submit a screenshot from your accounting software that shows the date you submitted the claim. The screenshot must show:

- Correct member name
- Correct date of service
- Claim submission date

Additional information

Timely filing limits can vary based on state requirements and contracts. If you do not know your timely filing limit, refer to your Provider Agreement.

Appeals

What is it?

An appeal is a request for review of an administrative denial you don't agree with.

When to use:

If you do not agree with an administrative denial or outcome of a reconsideration request.

How to use/file:

Submit the New Jersey Department of Banking and Insurance approved form, called the Health Care Provider Application to Appeal a Claims Determination (HCPAA). Find this form at [UHCprovider.com/njcommunityplan](https://www.njcommunityplan.com/provider-forms) > **Provider Forms and References** > DOBI Health Care Provider Application to Appeal a Claims Determination. Requests from network care providers who do not include the HCPAA form will be routed for reconsideration if eligible.

Also submit any related documents. These may include a cover letter, medical records and additional information. Send your information electronically or by mail. In your appeal, please include any supporting information not included in your reconsideration request.

Tips for successful claims resolution

To help process claim reconsiderations:

- Do not let claim issues grow or go unresolved
- Call Provider Services **1-888-362-3368** if you can't verify a claim is on file
- If you must exceed the maximum daily frequency for a procedure, submit the medical records justifying medical necessity. In your reconsideration request, please ask for a medical necessity review. Include all relevant medical records.

- UnitedHealthcare Community Plan is the payer of last resort. This means you must bill and get an EOB from other insurance or source of health care coverage before billing UnitedHealthcare Community Plan.
- Refer to your contract for submission deadlines concerning third-party claims. Once you have billed the other carrier and received an EOB, submit the claim to UnitedHealthcare Community Plan. Attach a copy of the EOB to the submitted claim. The EOB must be complete to understand the paid amount or the denial reason.

Member appeals and grievances definitions and procedures

UnitedHealthcare Community Plan uses CMS definitions for appeals and grievances.

Member appeals

What is it?

An appeal is a formal way to share dissatisfaction with an adverse medical necessity determination.

You, with a member's written consent, or a member may appeal when the plan:

- Lowers, suspends or ends a previously authorized service
- Refuses, in whole or part, payment for services
- Fails to provide services in a timely manner, as defined by the state or CMS
- Doesn't act within the time frame CMS or the state requires

When to use:

You may act on the member's behalf with their written consent. You may provide medical records and supporting documentation as appropriate.

Where to send:

You or the member may call or mail the information within 60 calendar days from the date of the adverse benefit determination.

How to use:

Whenever we deny a service for medical necessity, you must provide the member with UnitedHealthcare Community Plan appeal rights. The member has the right to:

- Receive a copy of the rule used to make the decision
- Present evidence and allegations of fact or law, in person and in writing
- Review the case file before and during the appeal process. The file includes medical records and any other documents.
- Send written comments or documents considered for the appeal
- Ask for an expedited appeal if waiting for this health service could harm the member's health
- Ask for continuation of services during the appeal. The member must either request an internal appeal on or before the final day of the previously approved authorization, or request an internal appeal within 10 calendar days of the date of the denial notice, whichever is later. However, the member may have to pay for the health service if it is continued or if the member should not have received the service. As the care provider, you cannot ask for a continuation. Only the member may do so.

We resolve a standard appeal 30 calendar days from the day we receive it.

We resolve an expedited appeal 72 hours from when we receive it.

We may extend the response up to 14 calendar days if the following conditions apply:

- Member requests we take longer
- We request additional information and explain how the delay is in the member's interest

If you submit a non-expedited appeal on behalf of a Medicaid member, we require written consent from the member. We require Medicare Form 1696, Appointment of Representative, for all appeals submitted on behalf of a UHC Dual Complete NJ-Y001 (HMO D-SNP) member.

For more about NJ FamilyCare/Medicaid member rights, including Member Grievances and State Fair Hearings, refer to the Medicaid Member Handbook on **UHCCommunityPlan/new-jersey** > NJ FamilyCare > Member Handbook. For UHC Dual Complete NJ-Y001 (HMO D-SNP) member rights, refer to the Summary of Benefits and Evidence of Coverage on **UHCCommunityPlan/new-jersey** > UHC Dual Complete NJ-Y001 (HMO D-SNP) > Downloadable Resources.

Filing an appeal or grievance on behalf of a member

Member Services helps members submit appeals and grievances. Representatives help complete forms and assist with other steps in the appeal or grievance process. This may include providing interpreter services that have adequate TTY/ TTD capability.

Discrimination for appeals and grievances

You may not discriminate against a member for filing a grievance. Also, we will not take any action with respect to an enrollee or a health care provider that penalizes or discourages the member or you from undertaking an appeal, dispute resolution or judicial review of an adverse determination. We will not take any punitive action against you for requesting an expedited resolution or supporting a member's appeal.

Neither our UM committee nor any utilization review agent will take any action with respect to an enrollee or a health care provider to penalize or discourage the enrollee or the enrollee's health care provider from undertaking an appeal, dispute resolution or judicial review of an adverse determination. Additionally, neither our UM committee nor any utilization review agent shall take any punitive action against a provider who requests an expedited resolution or supports a member's appeal.

Chapter 17: Care provider communications and outreach

Key contacts

Topic	Link	Phone number
Provider education	UHCprovider.com/resourcelibrary	1-888-362-3368
News and bulletins	UHCprovider.com/news	
Provider manuals	UHCprovider.com/guides	

Communication with care providers

UnitedHealthcare is on a **multi-year effort** to enhance our digital delivery channels and transition paper transactions to electronic, whenever possible. Our goal is to make it easier for you to work with us and reduce the time it takes for you to perform claim and clinical activities. We may provide electronic notice of policy, protocol and payment policy changes; news and other important updates.

Accordingly, there are a number of ways clinicians, practice managers, administrative staff, facilities and hospitals can stay up to date on items of interest from UnitedHealthcare:

- **Chat support available**
Have a question? Skip the phone and chat with a live service advocate when you sign in to the **UnitedHealthcare Provider Portal**. Available 7 a.m.–7 p.m. CT, Monday–Friday, chat support can help with claims, prior authorizations, credentialing and member benefits
- **UHCprovider.com**
This public website is available 24/7 and does not require registration to access. You'll find valuable resources including administrative and plan-specific policies, protocols and guides, health plans by state, regulatory and practice updates and quality programs.
- **UHCprovider.com/njcommunityplan**
The UnitedHealthcare Community Plan of New Jersey page has state-specific resources, guidance and rules

- **Social media**
Public websites that provide information about UnitedHealth Group, company updates and partnerships, investor relations, health insights and solutions, and other health care-related topics.
 - Facebook
 - Instagram
 - LinkedIn
 - YouTube
 - X (Twitter)
- **Policies and protocols**
UHCprovider.com/policies > For Community Plans library includes UnitedHealthcare Community Plan policies and protocols
- **Health plans by state**
UHCprovider.com/nj is the fastest way to review all of the health plans UnitedHealthcare offers in New Jersey. To review information for another state, use the drop-down menu at **UHCprovider.com/plans**. Then choose a state and review the types of plans (commercial, Medicare Advantage, etc.) offered in that market.
- **UnitedHealthcare Provider Portal**
This secure portal is accessible from **UHCprovider.com**. It allows you to access patient information such as eligibility and benefit information and digital ID cards.
 - You can learn more about the portal in **Chapter 1** of this care provider manual, or by visiting **UHCprovider.com/portal**
 - You can also access **self-paced user guides** for many of the tools and tasks available in the portal

• **UnitedHealthcare Network News**

Bookmark UHCprovider.com/networknews. It's the home for updates across our commercial, Medicare Advantage and Community Plan (Medicaid) health plans.

- You'll find contractual and regulatory updates, process changes and reminders, program launches and resources to help manage your practice and care for patients.
- Get news related to your role, specialty, health plan and state. When you **subscribe** to Network News, you can update your preferences to select what news you receive.

You'll get the latest news, policy and reimbursement updates we've posted on our news webpage. These email briefs include monthly notification of policy and protocol updates, including medical and reimbursement policy changes. They also include announcements of new programs and changes in administrative procedures. You can tailor your subscription to help ensure you only receive updates relevant to your state, and specialty and point of care.

Care provider education and training

To help ensure you are reimbursed accurately and patients have access to the care they need, we have developed a full range of training resources, including interactive self-paced courses and quick reference guides along with registration for instructor-led sessions. Topics include the digital solutions available on the UnitedHealthcare Provider Portal, plan and product overviews, clinical tools and state-specific training.

View the training resources at UHCprovider.com/training. Content is updated frequently and organized by categories to make it easy to find what you need.

Email communication – required contact information

We must have a valid email address on file to send you required notifications and important information.

Submit your email address in 1 of the following ways:

1. Sign up for a One Healthcare ID, which also gives you access to the **UnitedHealthcare Provider Portal**.

2. **Subscribe** to Network News email briefs to receive regular email updates. Need to update your information? It takes just a few minutes to manage your **email address** and **content preferences**.
3. Already have a One Healthcare ID? To review or update your email, simply sign in to the **UnitedHealthcare Provider Portal**. Go to "Profile & Settings," then "Account Information" to manage your email.

Care provider manual

UnitedHealthcare Community Plan publishes this manual online. If you do not have internet access, request a hard copy of this manual by contacting Provider Services.

Quick reference guide

You can also find downloadable copies of quick reference guides at UHCProvider.com/njcommunityplan > **Provider Forms and References** > Quick Reference Guides.

Care provider best practices

We believe that patients who have positive experiences in care provider offices are more likely to follow medical advice and treatment plans. Consider sharing these best practices found at UHCprovider.com/njcommunityplan > **Training and Education** > CAHPS with your office staff and your patients to help ensure members get the most from their visits with you. Find the below training documents/PDFs at UHCprovider.com/njcommunityplan > **Training and Education**:

- 2024 Patient Experience Guidebook
- Have a health care visit coming up? 5 tips to help you make the most of it
- Self-paced Patient Experience Course
- Tips to help elevate the patient office visit experience

Member health promotion and education

Health promotion and education materials are available on the UnitedHealthcare Community Plan of New Jersey member website located at uhccommunityplan.com/nj. Choose UHC Dual Complete NJ-Y001 (HMO D-SNP) or NJ FamilyCare and to go Member resources > View available resources. Health promotion and education activities shall, whenever possible, reduce one or more health disparities.

Glossary

Aged, Blind and Disabled

ABD - The Aged, Blind and Disabled population of the NJ FamilyCare/Medicaid Program.

Abuse (by care provider)

Care provider practices that are inconsistent with sound fiscal, business or medical practices, and result in an unnecessary cost, or in reimbursement for services not medically necessary, or that fail to meet professionally recognized standards for health care. It also includes recipient practices that result in unnecessary cost, as defined by 42 C.F.R. 455.2.

Abuse (of member)

Intentional infliction of physical, emotional or mental harm, caused by negligent acts or omissions, unreasonable confinement, sexual abuse or sexual assault as defined by A.R.S 46-451.

Acute inpatient care

Care provided to members sufficiently ill or disabled requiring

- Constant availability of medical supervision by attending care provider or other medical staff
- Constant availability of licensed nursing personnel
- Availability of other diagnostic or therapeutic services and equipment available only in a hospital setting to help ensure proper medical management by the care provider

Advance directive

Legal papers that list a member's wishes about their end-of-life health care.

Adverse benefit determination

- The denial or limited authorization of a requested service, including determinations based on the type or level of service, requirements for medical necessity, appropriateness, setting or effectiveness of a covered benefit
- The reduction, suspension, or termination of a previously authorized service
- The denial, in whole or in part, of payment for a service
- The failure to provide services in a timely manner, as defined by the state

- The failure of someone or a company to act within the time frames provided in the contract and within the standard resolution of grievances and appeals
- For a resident of a rural area, the denial of a member's request to exercise their right, to obtain services outside the network
- The denial of a member's request to dispute a financial liability, including cost sharing, copayments, premiums, deductibles, coinsurance and other member financial liabilities

Ambulatory care

Health care services that do not involve spending the night in the hospital. Also called "outpatient care". Examples include chemotherapy and physical therapy.

Ambulatory surgical facility

A state facility that is licensed, equipped and operated to provide surgeries and obstetrical deliveries. Members can leave the facility the same day surgery or delivery occurs.

Ancillary care provider services

Extra health services, like laboratory work and physical therapy, which a member gets in the hospital.

Appeal

- A request for review of an action
- A request for review of an administrative denial you don't agree with

Authorization

Approval obtained by care providers from UnitedHealthcare Community Plan for a service before the service is rendered. Used interchangeably with "preauthorization" or "prior authorization."

Authorized person or authorized representative

A person authorized to make medical determinations for an enrollee, including enrollment and disenrollment decisions and choice of a PCP. For individuals eligible through the Division of Child Protection and Permanency (DCP&P), Department of Children and Families (DCF), the authorized person is authorized to make medical determinations, including enrollment, disenrollment and choice of a PCP, on behalf of or in conjunction with individuals eligible through DCP&P/DCF.

These persons may include a foster home parent, an authorized health care professional employee of a group home, an authorized health care professional employee of a residential center or facility, a DCP&P/DCF employee, a pre-adoptive or adoptive parent receiving subsidy from DCP&P/ DCF, a natural or biological parent, or a legal caretaker.

For individuals eligible through the Division of Developmental Disabilities (DDD), the authorized person may be one of the following:

- The enrollee, if they are an adult and can make medical decisions
- The enrollee's parent or guardian, if the enrollee is a minor, or the individual or agency having legal guardianship if the enrollee is an adult who lacks the capacity to make medical decisions
- The Bureau of Guardianship Services (BGS)
- A person or agency duly designated by a power of attorney for medical decisions made on behalf of an enrollee

For MLTSS members, an authorized representative is a person or entity empowered by law, judicial order or power of attorney, or otherwise authorized by the MLTSS member to make decisions on behalf of the member.

Beneficiary

Any person eligible to receive services in the New Jersey Medicaid/NJ FamilyCare program.

Billed charges

Charges you bill for rendering services to a UnitedHealthcare Community Plan member.

Capitation

A prepaid, periodic payment to care providers, based upon the number of assigned members made to a care provider for providing covered services for a specific period.

Caregiver (paid or unpaid)

A person who assists with care for a member who is ill, has a disability and/or has functional limitations and requires assistance with activities of daily living or instrumental activities of daily living. Unpaid caregivers or informal family caregivers include but are not limited to relatives, friends and others who volunteer to help. Paid or formal caregivers are those who provide services in exchange for payment for services rendered.

Care management

A set of enrollee-centered, goal-oriented, culturally relevant and logical steps to assure that an enrollee receives needed services in a supportive, effective, efficient, timely and cost-effective manner. Care management emphasizes prevention, continuity of care and coordination of care, which advocates for, and links enrollees to, services as necessary across providers and settings. At a minimum, Care Management functions must include, but are not limited to:

- Early identification of enrollees who have or may have special needs
- Assessment of an enrollee's risk factors
- Development of a plan of care
- Referrals and assistance to ensure timely access to providers
- Coordination of care actively linking the enrollee to providers, medical services, residential, social and other support services where needed
- Monitoring
- Continuity of care
- Follow-up and documentation

Care management is driven by quality-based outcomes such as: improved/maintained functional status, improved/maintained clinical status, enhanced quality of life, enrollee satisfaction, adherence to the care plan, improved enrollee safety, cost savings and enrollee autonomy.

Care provider

Any physician, hospital, facility, health care professional or other provider of enrollee services licensed or otherwise authorized to provide services in the state or jurisdiction in which they are furnished.

Case management

A component of care management. A set of activities tailored to meet a member's situational health-related needs. Situational health needs can be defined as time-limited episodes of instability. As in care management, case management activities also emphasize prevention, continuity of care and coordination of care. Case management activities are driven by quality-based outcomes such as improved/maintained functional status; enhanced quality of life; increased member satisfaction; adherence to the care plan; improved member safety; and to the extent possible, increased member self-direction.

Case manager

The individual responsible for coordinating the overall service plan for a member in conjunction with the member, the member's representative and the member's primary care provider (PCP). Case managers facilitate access to services, both clinical and nonclinical, by connecting the member to resources that support them in playing an active role in the self-direction of their health care needs.

Centers for Medicare and Medicaid services

CMS – a federal agency within the U.S. Department of Health and Human Services that administers Medicare, Medicaid and SCHIP programs, formerly the Health Care Financing Administration (HCFA) within the U.S. Department of Health and Human Services.

Children with special health care needs

Children who have or are at increased risk for chronic physical, developmental, behavioral or emotional conditions who also require health and related services of a type and amount beyond that required by children generally. This includes all children who are MLTSS members.

Children's health insurance program

CHIP – a federal program that provides medical coverage to those 18 years old or younger.

Chronic Illness

A disease or condition of long duration (repeated inpatient hospitalizations, out of work or school at least 3 months within a 12-month period or the necessity for continuous health care on an ongoing basis), sometimes involving very slow progression and long continuance. Onset is often gradual and the process may include periods of acute exacerbation alternating with periods of remission.

Clean claim

A claim with no defect (including lack of any required substantiating documentation) or circumstance requiring special treatment that prevents timely payment.

Cognitive rehabilitation therapy

A systematic, functionally oriented service of therapeutic cognitive activities based on an assessment and an understanding of the behavior of a person served. Services are directed to achieve functional improvement by:

- Reinforcing, strengthening, or reestablishing previously learned patterns of behavior; or
- Establishing new patterns of cognitive activity or mechanisms to compensate for impaired neurological systems

Complaint

See "Grievance"

Comprehensive orthodontic treatment

The use of fixed orthodontic appliances (bands/brackets and arch wires) to improve the craniofacial dysfunction and/or dentofacial deformity of the patient. Active orthodontic treatment begins with banding of teeth or when tooth extractions are initiated as the result of and in conjunction with an authorized orthodontic treatment plan.

Condition

A disease, illness, injury, disorder or biological or psychological condition or status for which treatment is indicated.

Consultation

A referral between different provider types or referral from a PCP or PCD to a specialist or in the case of dentistry, to a dentist that provides dental services to special needs patients. A member cannot be denied access to the consultation or when needed to medically necessary services provided by that specialty provider.

Continuity of care

The plan of care for a particular enrollee that should assure progress without unreasonable interruption.

Contracted health professionals

PCPs, specialists, medical facilities, allied health professionals and ancillary service providers under contract with UnitedHealthcare Community Plan. These care providers deliver specific covered services to members. They represent those individuals and entities used through the UnitedHealthcare Community Plan prior authorization and referral policies and procedures.

Coordination of benefits

COB – a process of figuring out which of 2 or more insurance policies has the main responsibility of processing or paying a claim and how much the other policies will contribute.

Covered services

The portion of a medical, dental or vision expense that a health insurance or plan has agreed to pay for or reimburse.

Credentialing

The verification of applicable licenses, certifications and experience. This process assures care provider status is extended only to professional, competent care providers who continually meet UnitedHealthcare Community Plan qualifications, standards and requirements. The determination as to the qualifications and ascribed privileges of a specific provider to render specific health care services.

Critical incident

An occurrence involving the care, supervision, or actions involving a member that is adverse in nature or has the potential to have an adverse impact on the health, safety and welfare of the member or others. Critical incidents also include situations occurring with staff or individuals or affecting the operations of a facility/institution/school.

Cultural competency

A set of interpersonal skills that allow individuals to increase their understanding, appreciation, acceptance of and respect for cultural differences and similarities within, among and between groups and the sensitivity to how these differences influence relationships with enrollees. This requires a willingness and ability to draw on community-based values, traditions and customs, to devise strategies to better meet culturally diverse enrollee needs and to work with knowledgeable persons of and from the community in developing focused interactions, communications and other supports.

Current procedural terminology codes

CPT® - a code assigned to a task or service a health care provider does for a member. Every medical task or service has its own CPT code. These codes are used by the insurer to know how much they need to pay the physician. CPT codes are created and published by the American Medical Association.

Delivery system

The mechanism by which health care is delivered to a member. Examples include hospitals, provider offices and home health care.

Disallow amount

Medical charges for which the network care provider may not receive payment from UnitedHealthcare Community Plan and cannot bill the member.

Examples are:

- The difference between billed charges and in-network rates
- Charges for bundled or unbundled services as detected by Correct Coding Initiative edits

Dental home

The ongoing relationship between the dentist and the patient, inclusive of all aspects of oral health care delivered in a comprehensive, continuously accessible, coordinated and family-centered way. The dental home should be established no later than 12 months of age to help children and their families institute a lifetime of good oral health. A dental home addresses anticipatory guidance and preventive, acute and comprehensive oral health care. It includes referral to dental specialists when appropriate.

Dental records

The complete, comprehensive records of dental services, to include date of service/visit, chief complaint, treatment needed, treatment planned and treatment provided during each patient visit. The dental record shall include charting of the existing dentition, hard and soft tissue findings, completed assessment tools and diagnostic images to include radiographs and digital views as well as photographs where medically necessary. Dental records shall also be kept in compliance with all DMAHS and NJ State Board of Dentistry regulations. The dental record is to be accessible at the office/clinic location of Member's participating dentist and also in the records of a residential facility for those members residing in a facility. Providers who render dental services in other settings such as in an operating room shall also include a record that documents provided treatment in the member's dental record located in the office/clinic.

Developmental disability

A severe, chronic disability of a person that is attributable to a mental or physical impairment or combination of mental and physical impairments; manifested before the person reached 22 years; is likely to continue indefinitely; results in substantial functional limitations in 3 or more of the following areas of major life activity:

- Self-care
- Receptive and expressive language
- Learning
- Mobility
- Self-direction
- Capacity for independent living and economic self-sufficiency

The person would need a combination and sequence of special, interdisciplinary, or generic care, treatment or other services that are lifelong or of extended duration and are individually planned and coordinated. Developmental disability includes severe disabilities attributable to an intellectual disability, autism, cerebral palsy, epilepsy, spina bifida and other neurological impairments where the criteria are met.

Diagnostic services

Any medical procedures or supplies recommended by a physician or other licensed practitioner of the healing arts, within the scope of their practice under state law, to enable them to identify the existence, nature, or extent of illness, injury or other health deviation in a patient.

Disability

A physical or mental impairment that substantially limits 1 or more of the major life activities for more than 3 months a year.

Disability in adults

For adults applying under New Jersey Care Special Medicaid Programs and Title II (Social Security Disability Insurance Program) and for adults applying under Title XVI (the Supplemental Security Income [SSI] program), disability the inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment that can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.

Disability in children

A child younger than 18 years is considered disabled if they have a medically determinable physical or mental impairment that results in marked and severe functional limitations that limit the child's ability to function independently, appropriately and effectively in an age-appropriate manner. It can be expected to result in death, or which can be expected to last for 12 months or longer.

Disallow amount

Medical charges for which the network provider may not receive payment from UnitedHealthcare Community Plan and cannot bill the member. Examples are:

- The difference between billed charges and in-network rates
- Charges for bundled or unbundled services as detected by Correct Coding Initiative edits

Discharge planning

Screening eligible candidates for continuing care following treatment in an acute care facility. It involves care planning, scheduling, arranging and steps that move a member from one level of care to another.

Disenrollment

The removal of an enrollee from participation in the Contractor's plan, but not from the Medicaid program.

Dispute

Provider claim reconsideration – Step 1 when a provider disagrees with the payment of a service, supply, or procedure.

Provider appeal – Step 2 when a provider disagrees with the payment of a service, supply, or procedure.

Division of developmental disabilities

DDD - a division within the New Jersey Department of Human Services that provides evaluation, functional and guardianship services to eligible persons. Services include residential services, family support, contracted day programs, work opportunities, social supervision, guardianship and referral services.

Division of disability services

DDS - a division within the Department of Human Services that promotes the maximum independence and participation of people with disabilities in community life. The DDS administers 7 Medicaid waiver programs, the work incentives Medicaid buy-in program, the New Jersey personal assistance services program (PASP) and the New Jersey cash and counseling demonstration program.

Division or DMAHS

The New Jersey Division of Medical Assistance and Health Services within the Department of Human Services which administers the contract on behalf of the Department.

Department of Banking and Insurance

DOBI - The New Jersey Department of Banking and Insurance in the executive branch of New Jersey State government.

Department of Health

DOH - The New Jersey Department of Health in the executive branch of New Jersey State government.

Dual eligible

Individual covered by both Medicaid and Medicare.

Doula

A trained professional who provides continuous physical, emotional, and informational support to the birthing parent throughout the perinatal period. A doula does not replace a trained, licensed medical professional, and cannot perform clinical tasks. A doula is an individual who meets the community. A NJ FamilyCare doula must be a community doula as determined by enrollment as fee-for-service providers. Community doulas have met the doula training requirements for doula core competency and community-based/cultural competencies established by the New Jersey Department of Human Services (DHS) in consultation with NJ Department of Health (DOH).

Durable medical equipment

DME - Equipment, such as assistive technology, which:

- Can withstand repeated use
- Is used to service a health or functional purpose
- Is ordered by a qualified practitioner to address an illness, injury or disability
- Is appropriate for use in the home or workplace/school
- DME may include oxygen equipment, wheelchairs, crutches or blood testing strips for diabetics

Early and Periodic Screening, Diagnostic and Treatment Program

EPSDT - a mandated program that covers screening and diagnostic services to determine physical and mental defects in enrollees younger than 21 years, health care, treatment and other measures to correct or ameliorate any defects and chronic conditions discovered, pursuant to Federal Regulations found in Title XIX of the Social Security Act, Section 1905 (R).

Covered services include a complete health history and developmental assessment; an unclothed physical exam; immunizations; laboratory tests; health education; and screenings for vision, dental, substance abuse, mental health and hearing. They also include any medically necessary services found during the preventive exam.

Electronic data interchange

EDI - the electronic exchange of information between 2 or more organizations.

Electronic funds transfer

EFT - the electronic exchange of funds between 2 or more organizations.

Electronic medical record

EMR - an electronic version of a member's health record and the care they have received.

Electronic visit verification system

EVV - An electronic system that meets the minimum functionality requirements prescribed by DMAHS, which provider staff must use to check in at the beginning and check out at the end of each period of service delivery to monitor member receipt of specified personal care services as defined by section 1905. [42 U.S.C. 1396d] Any such system shall comply with the 21st Century Cures Act.

Eligibility determination

Deciding whether an applicant meets the requirements for federal or state eligibility.

Emergency care

The provision of medically necessary services required for immediate attention to review or stabilize a medical emergency.

Emergency dental condition

An orofacial condition manifesting itself by acute symptoms of sufficient severity which impair oral functions including:

- Severe pain or infection of dental origin resulting in facial swelling and possible airway obstruction
- Uncontrolled bleeding due to tissue laceration
- Oral trauma to include fracture of the jaw or other facial bones and/or dislocation of the mandible

These serious conditions as well as other acute symptoms that occur outside the normal office hours of a dental clinic or office require immediate medical attention to avoid placing the health of the individual in jeopardy.

Emergency medical condition

A medical condition manifesting itself by acute symptoms of sufficient severity, (including severe pain) such that a prudent layperson, who possesses an average knowledge of medicine and health, could reasonably expect the absence of immediate medical attention to result in placing the health of the individual (or, with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy; serious impairment to bodily functions; or serious dysfunction of any bodily organ or part. With respect to a pregnant woman who is having contractions, an emergency exists where there is inadequate time to affect a safe transfer to another hospital before delivery or the transfer may pose a threat to the health or safety of the woman or the unborn child.

Emergency services

Covered inpatient and outpatient services furnished by any qualified provider that are necessary to evaluate or stabilize an emergency medical condition.

Encounter

The basic unit of service used in accumulating utilization data and/or a face-to-face contact between a member and a health care provider resulting in a service to the member. You are required to report all service encounters to UnitedHealthcare Community Plan, including prepaid services. UnitedHealthcare Community Plan electronically reports these encounters to state Medicaid. The state audits encounter submission accuracy and timeliness on a regular basis.

Enrollee

An individual who is eligible for Medicaid/NJ FamilyCare, living in the defined enrollment area, who elects or has had elected on their behalf by an authorized person, in writing, to participate in our plan and who meets Medicaid/NJ FamilyCare eligibility requirements for plan enrollment agreed to by the Department and us.

Enrollees include individuals in the AFDC/TANF, AFDC/ TANF-Related Pregnant Women and Children, SSI-Aged, Blind and Disabled, DCP&P/ DCF, NJ FamilyCare and Division of Developmental Disabilities/Community Care Waiver (DDD/CCW) populations.

Enrollee with special needs

Members with complex/chronic medical conditions requiring specialized health care services and persons with physical, mental/substance use disorder and/or developmental disabilities, including persons who are eligible for the MLTSS program. See also “Children with Special Health Care Needs”.

Enrollment

The process by which an individual eligible for Medicaid voluntarily or mandatorily applies to use our plan in lieu of standard Medicaid benefits, and such application is approved by DMAHS.

Evidence-based care

An approach that helps care providers use the most current, scientifically accurate research to make decisions about members’ care.

Expedited appeal

An expedited review process for appeals determines that taking the time for a standard resolution could seriously jeopardize the member’s life, physical or mental health, or ability to attain, maintain or regain maximum function.

Federally qualified health center

FQHC - An entity that provides outpatient health programs pursuant to 42 U.S.C. § 201 et seq.

Fee-for-service

FFS - a method for reimbursement based on payment for specific services rendered to an enrollee.

FHC

Family Health Center.

Fraud

An intentional deception or misrepresentation made by a person with the knowledge that the deception could result in some unauthorized benefit to him/herself or some other person. It includes any act that constitutes fraud under applicable federal or state law.

Grievance

An expression of dissatisfaction about any matter, a complaint, or a protest by an enrollee or provider as to the conduct by the Contractor or any agent of the Contractor, or an act or failure to act by the Contractor or any agent of the Contractor, or any other matter in which an enrollee or provider feels aggrieved by the Contractor, that is communicated to the Contractor either verbally or in writing. Grievances are to be resolved as required by the exigencies of the situation, but no later than 30 days after receipt.

Health care professional

A physician or other health care professional if coverage for the professional's services is provided under our contract for the services. It includes podiatrists, optometrists, chiropractors, psychologists, dentists, physician assistants, physical or occupational therapists and therapist assistants, speech-language pathologists, audiologists, registered or licensed practical nurses (including nurse practitioners, clinical nurse specialists, certified registered nurse anesthetists, and certified nurse midwives), licensed certified social workers, registered respiratory therapists and certified respiratory therapy technicians.

Health care services

All preventive and therapeutic medical, dental, surgical (including any medical or psychiatric clearances required prior to proceeding with a medical or surgical procedure), ancillary (medical and non-medical) and supplemental benefits provided to enrollees to diagnose, treat and maintain the optimal well-being of enrollees provided by physicians, other health care professionals, institutional and ancillary service providers.

Healthcare effectiveness data and information set

HEDIS® – a rating system developed by NCQA that helps health insurance companies, employers and consumers learn about the value of their health plan(s) and how it compares to other plans.

Health Insurance Portability and Accountability Act

HIPPA – a federal law that provides data privacy protection and security provisions for safeguarding health information.

Home and Community-Based Services

HCBS – services that are provided as an alternative to long-term institutional services in a nursing facility or Intermediate Care Facility for the Intellectually Disabled (ICF/ID). HCBS are provided to individuals who reside in the community or in certain community alternative residential settings.

Home health care (home health services)

Health care services and supplies provided in the home, under physician's orders. Services may be provided by nurses, therapists, social workers or other licensed health care providers. Home health care usually does not include help with non-medical tasks, such as cooking, cleaning or driving.

Housing supports

Includes Pre-Tenancy, Tenancy Sustaining, Residential Modifications & Remediation, and Move-in Supports services. See **Chapter 7: Housing Services, Supports and Assistance** for more details.

In-network care provider

A care provider who has a written Agreement with UnitedHealthcare Community Plan to provide services to members under the terms of their Agreement.

Lactation consultant

A trained professional who can provide a full spectrum of breastfeeding services, including lactation education and individual and group lactation support. A NJ FamilyCare lactation consultant must be a International Board-Certified Lactation Consultant (IBCLC) with active certification by the International Board of Lactation Consultant Examiners (IBLCE).

Lactation services

A process that provides support for women who want to breastfeed by means of counseling, breastfeeding classes, breast pumps and supplies, and the provision of breastfeeding educational materials to help reinforce a healthy and successful breastfeeding routine.

Managed care

A comprehensive approach to the provision of health care which combines clinical preventive, restorative and emergency services and administrative procedures within an integrated, coordinated system to provide timely access to primary care and other medically necessary health care services in a Cost Neutral manner.

Managed Care Organization

MCO - An entity that has, or is seeking to qualify for, a comprehensive risk contract, and that is:

A Federally qualified HMO that meets the advance directives requirements of [42 CFR 489 subpart I](#) or;

Any public or private entity that meets the advance directives requirements and is determined to also meet the following conditions:

Makes the services it provides to its Medicaid enrollees as accessible (in terms of timeliness, amount, duration, and scope) as those services are to other Medicaid recipients within the area served by the entity; and

Meets the solvency standards of [42 CFR 438.116](#).

Managed long term services and supports

MLTSS - a program that applies solely to individuals who meet MLTSS eligibility requirements and encompasses the NJ FamilyCare A benefit package, NJ FamilyCare ABP (excluding the ABP BH/SUD benefit) as specified in Article 4.1.1.C, HCBS and institutionalization for long term care in a nursing facility or special care nursing facility.

Medicaid

A federal health insurance program for low-income families and children, eligible pregnant women, people with disabilities and other adults. The federal government pays for part of Medicaid and sets guidelines for the program. States pay for part of Medicaid and have choices in how they design their program. Medicaid varies by state and may have a different name in your state.

Medical emergency

An illness, injury, symptom or condition that is severe enough (including severe pain), that if a member did not get immediate medical attention you could reasonably expect one of the following to result:

- Their health would be put in danger

- They would have serious problems with their bodily functions
- They would have serious damage to any part or organ of their body

Medically necessary

Medically necessary health care services or supplies needed to prevent, diagnose or treat an illness, injury, condition, disease or its symptoms and that meet accepted standards of medicine.

Medicare

The program authorized by Title XVIII of the Social Security Act to provide payment for health services to federally defined populations.

Member

An individual who is eligible and enrolled with UnitedHealthcare Community Plan and can receive services pursuant to the Agreement.

MLTSS eligibility

Applies to individuals who have been assessed for LTSS and have met both the financial and clinical eligibility requirements established by the state for MLTSS.

Mental health/substance use disorder services

MH/SUD - Mental health services include, but are not limited to comprehensive intake evaluation; off-site crisis intervention; family therapy; family conference; psychological testing; case management; programs of assertive community treatment, inpatient treatment and medication management. Substance Use Disorder Services include inpatient medical detoxification; outpatient (non-medical) detoxification, partial care; intensive outpatient (IOP); opioid treatment services; and short-term rehabilitation.

Mobile dental practice

A dental provider traveling to various locations and using portable equipment to provide dental services.

Mobile dental van

A dental provider using a vehicle specifically equipped with stationary dental equipment used to provide dental services.

NCQA

The National Committee for Quality Assurance.

N.J.A.C.

New Jersey Administrative Code.

NJ FamilyCare program

State-covered programs that provide comprehensive managed care coverage. Eligibility groups include:

- NJ FamilyCare A:
 - Uninsured children younger than age 19 with family incomes up to and including 142% of the federal poverty level
 - Pregnant women up to 200% of the federal poverty level
 - Beneficiaries eligible for MLTSS services
 - This group may access certain other services which are paid FFS by the state and not covered
- NJ FamilyCare B: uninsured children younger than 19 years with family incomes above 142% and up to and including 150% of the federal poverty level. This group may access certain other services which are FFS and not covered under this contract.
- NJ FamilyCare C: uninsured children younger than 19 years with family incomes above 150% and up to and including 200% of the federal poverty level. Eligibles must take part in cost-sharing in the form of a personal contribution to care for most services. Exception – Both Eskimos and Native American Indians younger than 19 years old, identified by Race Code 3, shall not participate in cost sharing and shall not be required to pay a personal contribution to care. This group also has access to certain other services which are paid FFS and not covered under this contract.
- NJ FamilyCare D:
 - Uninsured children younger than age 19 with family incomes between 201% and up to and including 350% of the federal poverty level
 - Eligibles with incomes above 150% of the federal poverty level must participate in cost sharing in the form of monthly premiums and/or copayments for most services with the exception of both Eskimos and Native American Indians younger than 19 years. These groups are identified by Program Status Codes (PSCs) or Race Code on the eligibility system. For clarity, the Program Status Codes or Race Code, in the case of Eskimos and Native American Indians under the age of 19 years, related to NJ FamilyCare D non-cost sharing groups are also listed. Some of the Program Status Codes can include certain restricted alien adults.

- NJ FamilyCare ABP: parents between ages 19–64 with income up to and including 133% FPL, and childless adults between 19–64 with income up to and including 133% FPL. These members may also access certain other services which are paid FFS by the state and not covered by the contract.

Non-covered Medicaid services

All services that are not covered by the New Jersey Medicaid State Plan.

Non-participating care provider

A provider of service that does not have a contract.

Non-traditional care provider

An entity that qualifies as a care provider of services pursuant to the approved New Jersey MLTSS criteria to address the authorized non-medical needs documented in an MLTSS member's plan of care.

Nursing facility transitions

An interdisciplinary team approach that assists individuals with transitions from nursing facilities to the community and helps the state to strengthen and improve community based systems of long-term care for low-income seniors and individuals with disabilities.

National provider identifier

NPI – required by CMS for all care providers who bill, prescribe or refer for health care services and is used on all electronic transactions. It is a single unique provider identifier assigned to a care provider for life that replaces all other health care provider identifiers. It does NOT replace your DEA number.

Out-of-area care

Care received by a UnitedHealthcare Community Plan member when they are outside of their geographic territory.

Outcomes

The results of the health care process, involving either the enrollee or care provider, and may be measured at any specified point in time. Outcomes can be medical, dental, behavioral, economic or societal in nature.

Outpatient care

Treatment provided to an enrollee who is not admitted to an inpatient hospital or health care facility.

Participating care provider

A care provider who has entered into a provider contract or other arrangement in accordance with N.J.A.C. 11:24 et seq. with the Contractor to provide services.

Patient

An individual receiving needed professional services directed by a licensed practitioner of the healing arts toward the maintenance, improvement, or protection of health, or lessening of illness, disability, or pain.

Patient payment liability

That portion of the cost of care that nursing facility, assisted living services residents, and CRS residents must pay based on their available income as determined and communicated by the County Welfare Agency .

Peer review

A mechanism in quality assurance and utilization review where care delivered by a physician, dentist or nurse is reviewed by a panel of practitioners of the same specialty to determine levels of appropriateness, effectiveness, quality and efficiency.

Physician group

A partnership, association, corporation, individual practice association, or other group that distributes income from the practice among members. An individual practice association is a physician group only if it is composed of individual physicians and has no subcontracts with physician groups.

Post-stabilization care services

Covered services related to an emergency medical condition provided after an enrollee is stabilized to maintain the stabilized condition.

Preventive health care

Health care emphasizing priorities for prevention, early detection and early treatment of conditions. It generally includes routine/physical examination and immunization.

Primary care

All health care services and laboratory services furnished by or through a general practitioner, family physician, internal medicine physician, or pediatrician and may be furnished by a nurse practitioner to the extent the furnishing of those services is legally authorized in the state in which the practitioner furnishes them.

Primary care dentist

PCD – A licensed dentist who is the health care provider responsible for supervising, coordinating and providing initial and primary dental care to patients; initiating referrals for specialty care; and maintaining the continuity of patient care.

Primary care provider

PCP – a physician, including an M.D. or D.O., nurse practitioner, clinical nurse specialist or physician assistant, as allowed under state law and the terms of the plan who provides, coordinates or helps members access a range of health care services.

Prior authorization

The process where care providers seek approval prior to rendering health care services, drugs or DME as required by UnitedHealthcare Community Plan policy.

Provider group

A partnership, association, corporation or other group of care providers.

Quality Management (QM)

Tenancy Provider - Provider of Pre-Tenancy and Tenancy Sustaining Services.

Tenancy Services - Includes Pre-Tenancy and Tenancy Sustaining Services.

Reassignment

The process by which an enrollee's entitlement to receive services from a particular PCP/PCD is terminated and switched to another PCP/PCD.

Residential treatment center

RTC - a live-in health care facility providing therapy for substance use Disorder, mental illness, or other behavioral problems.

Routine care

Treatment of a condition which would have no adverse effects if not treated within 24 hours or could be treated in a less acute setting (e.g., physician's office) or by the patient.

Rural health clinic

A clinic, located in a rural area, designated by the Department of Health as an area having either a shortage of personal health services or a shortage of primary medical care. These clinics may receive enhanced payments for services provided to enrolled members.

Scope of services

Specific health care services for which a care provider has been credentialed, by the plan, to provide to enrollees.

Screening services

Any encounter with a health professional practicing within the scope of their profession as well as the use of standardized tests given under medical direction in the examination of a designated population to detect the existence of 1 or more particular diseases or health deviations or to identify for more definitive studies individuals suspected of having certain diseases.

Service area

The geographic area served by UnitedHealthcare Community Plan, designated and approved by New Jersey DHS.

Specialist

A care provider licensed in the state of New Jersey and has completed a residency or fellowship focusing on a specific area of medicine or group of patients to diagnose, manage, prevent or treat certain types of symptoms and conditions. A non-physician specialist is a care provider who has special training in a specific area of health care.

Special Care Nursing Facility

SCNF - a distinct SCNF unit within a Medicaid-certified conventional nursing facility which has been approved by the state to provide care to Medicaid/NJ FamilyCare beneficiaries who have been determined to require intensive nursing facility services beyond the scope of a conventional nursing facility as defined in N.J.A.C. 8:85-2. A SCNF or related unit must have at least 24 beds.

State fair hearing

An administrative hearing requested if the member does not agree with a notice of appeal resolution from the UnitedHealthcare Community Plan Appeals and Claim Dispute Department

Temporary assistance to needy families

TANF - a state program that gives cash assistance to low-income families with children

TDD

Telecommunication Device for the Deaf

Terminal illness

A condition in which it is recognized that there will be no recovery, the patient is nearing the “terminus” of life and restorative treatment is no longer effective.

Third party

Any person, institution, corporation, insurance company, public, private or governmental entity who is or may be liable in contract, tort, or otherwise by law or equity to pay all or part of the medical cost of injury, disease or disability of an applicant for or recipient of medical assistance payable under the New Jersey Medical Assistance and Health Services Act N.J.S.A. 30:4D-1 et seq.

Third-party liability

TPL - a company or entity other than UnitedHealthcare Community Plan liable for payment of health care services rendered to members. UnitedHealthcare Community Plan pays claims for covered benefits and pursues refunds from the third party when liability is determined.

Timely filing

When UnitedHealthcare Community Plan puts a time limit on submitting claims.

Title XIX

Section of Social Security Act describing the Medicaid program coverage for eligible persons.

UnitedHealthcare Community Plan

An affiliate of UnitedHealth Group with corporate headquarters located in Minnetonka, Minnesota. UnitedHealthcare Community Plan operates nationwide, serving aging, vulnerable and chronically ill people through Medicare, Medicaid and private-pay programs for long-term care products and programs.

Urgent Dental Care

Treatment of an oral or dental condition to alleviate pain, the risk of infection and additional degradation of the teeth and/or other oral structures. Most urgent dental conditions are best treated in an office or clinic setting within 24 hours to prevent additional deterioration and to avoid unnecessary emergency department visits. These urgent conditions include but are not limited to damage to oral tissues, dental/pulpal infections, pain and/or localized swelling associated with third molars, ill-fitting or broken oral appliances or prosthetics, or trauma resulting in the fracture, luxation or avulsion of teeth.

Urgent care

Treatment of a condition that is potentially harmful to a patient's health and for which their physician determined it is medically necessary for the patient to receive medical treatment within 24 hours to prevent deterioration.

Utilization

The rate patterns of service usage or types of service occurring within a specified time.

Utilization management

UM - involves coordinating how much care members get. It also determines each member's level or length of care. The goal is to help ensure members get the care they need without wasting resources.

Utilization review

Procedures used to monitor or evaluate the clinical necessity, appropriateness, efficacy, or efficiency of health care services, procedures or settings. Includes ambulatory review, prospective review, concurrent review, second opinions, Care Management, discharge planning, or retrospective review.

Women, Infants and Children

WIC - a special supplemental food program for Women, Infants and Children.

Withhold

A percentage of payments or set dollar amounts we deduct from a practitioner's service fee, capitation, or salary payment and that may or may not be returned to the physician, depending on specific predetermined factors.
